

1 A bill to be entitled  
2 An act relating to streamlining the issuance of licenses,  
3 certifications, and registrations issued by state  
4 agencies; providing a short title; providing legislative  
5 findings and intent; requiring the Governor to establish  
6 the One-Stop Business Workgroup; providing for the  
7 membership of the workgroup; authorizing the workgroup to  
8 consult with other agencies and use consultants; providing  
9 duties of the workgroup; requiring that the workgroup  
10 submit a plan for establishing a business licensing portal  
11 to the Governor and Legislature by a specified date;  
12 providing requirements for the plan to implement a  
13 technology solution that provides businesses and  
14 individuals with easy access to state and local  
15 requirements for business licenses, certifications, and  
16 registrations; providing an effective date.

17  
18 Be It Enacted by the Legislature of the State of Florida:

19  
20 Section 1. (1) This act may be cited as "Florida's One-  
21 Stop Business Connect Act."

22 (2) The Legislature finds that:

23 (a) Individuals who start and operate businesses in this  
24 state must interact with multiple state agencies to obtain  
25 licenses, registrations, and tax certificates needed to legally  
26 operate in this state. This process can be time-consuming and  
27 frustrating for businesses and often requires business owners to  
28 provide similar information to multiple agencies.

29        (b) State government requirements for starting and  
30 operating a business in this state are often cumbersome and  
31 place avoidable burdens on business owners. For several years,  
32 the Legislature has recognized that these requirements do not  
33 serve to promote this state as a business-friendly state that  
34 actively supports the growth of jobs, businesses, and economic  
35 opportunities.

36        (c) A phased, deliberative, and collaborative approach is  
37 necessary to streamline and automate the state's business  
38 processes; to simplify business requirements and eliminate  
39 unnecessary business requirements; and to provide a single point  
40 of entry for businesses to complete business transactions with  
41 the state.

42        (3) (a) It is the intent of the Legislature that by July 1,  
43 2012, the state establish an online connection that is easily  
44 accessible through the state's official portal, "MyFlorida.com,"  
45 and that provides an efficient and effective online, self-  
46 service method for an individual to access state requirements  
47 for starting, licensing, and operating a business.

48        (b) Once the state's online business licensing connection  
49 is available, it is the intent of the Legislature that local  
50 governments have the opportunity to make accessible in a similar  
51 manner through the state's portal, "MyFlorida.com," local  
52 requirements for starting, licensing, and operating a business.

53        (4) (a) The Governor shall establish a One-Stop Business  
54 Connect Workgroup composed of, at a minimum, the secretary or  
55 agency head, or his or her designee, of the following state  
56 agencies:

- 57 1. The Agency for Health Care Administration.
- 58 2. The Department of Business and Professional Regulation.
- 59 3. The Department of Children and Family Services.
- 60 4. The Department of Health.
- 61 5. The Department of State.
- 62 6. The Department of Revenue.

63 (b) The Secretary of Business and Professional Regulation  
 64 shall serve as the chair of the workgroup. The workgroup shall  
 65 be supported by staff from the participating agencies.

66 (c) The workgroup may consult with other agencies  
 67 throughout the state, including the Agency for Enterprise  
 68 Information Technology, and those agencies must provide  
 69 requested assistance to the workgroup.

70 (d) To the extent that funds are available within the  
 71 participating agencies' budgets, the workgroup may use the  
 72 services of consultants.

73 (5) (a) The workgroup shall:

74 1. Compile a complete, categorical inventory of all  
 75 business licenses, certifications, and registrations required by  
 76 each participating agency, including information regarding  
 77 relevant laws and rules.

78 2. Analyze the business licensing, certification, and  
 79 registration processes for each agency and identify processes  
 80 that disrupt workflow and result in duplication, waste,  
 81 unnecessary complexity, and errors and the root causes of those  
 82 errors.

83 3. Recommend the standardization and automation of  
 84 business licensing, certification, and registration processes

85 where appropriate.

86 (b) By December 15, 2010, the workgroup shall submit a  
87 plan for establishing the business licensing portal to the  
88 Governor, the President of the Senate, and the Speaker of the  
89 House of Representatives that identifies:

90 1. Business requirements and the costs associated with  
91 implementation of a technology solution for businesses and  
92 individuals that provides easy access to state and local  
93 business licensing, certification, and registration requirements  
94 through MyFlorida.com.

95 2. Clear systemwide objectives, a governance structure,  
96 accountability measures, and an opportunity for stakeholders to  
97 make suggestions regarding the use of the business licensing  
98 portal.

99 3. Issues that need to be addressed before a technology  
100 solution is implemented.

101 4. Issues that need to be addressed to enable local  
102 governments to make accessible through the state's business  
103 licensing portal local requirements for starting, licensing, and  
104 operating a business.

105 Section 2. This act shall take effect upon becoming a law.
