The Committee on Transportation (Baker) recommended the following:

Senate Amendment (with title amendment)

Delete lines 136 - 140
and insert:

4. A local government may not deny a building permit based solely on the presence of petroleum contamination for any construction, repairs, or renovations performed in conjunction with tank upgrade activity in an existing retail fuel facility. Such facility must have been fully operational prior to the request for the building permit and any construction, repairs, or renovations must be performed by a licensed contractor. All building permits and any construction, repairs, or renovations

103334

13 performed in conjunction with such permits must comply with the
14 applicable provisions of chapters 489 and 553.

15
16 ===== T I T L E A M E N D M E N T =====

17 And the title is amended as follows:

18 Delete lines 14 - 16

19 and insert:

20 strategies; prohibiting a local government from
21 denying any development permit based solely on the
22 presence of petroleum contamination for any
23 construction, repairs, or renovations performed in
24 conjunction with tank upgrade activity in an existing
25 retail fuel facility; requiring that such facility be
26 fully operational before the request for the building
27 permit; requiring that the construction, repairs, or
28 renovations be performed by a licensed contractor;
29 requiring that the construction, repairs, or
30 renovations performed in conjunction with such permit
31 comply with the applicable provisions of chs. 489 and
32 553, F.S.; providing an exception;
