Be It Enacted by the Legislature of the State of Florida:

The moneys contained herein are appropriated from the named funds for Fiscal Year 2010-2011 to the State agency indicated, as the amounts to be used to pay the salaries, other operational expenditures, and fixed capital outlay of the named agencies, and are in lieu of all moneys appropriated for these purposes in other sections of the Florida Statutes.

SECTION 1 - EDUCATION ENHANCEMENT "LOTTERY" TRUST FUND

The moneys contained herein are appropriated from the Education Enhancement "Lottery" Trust Fund to the state agencies indicated.

EDUCATION, DEPARTMENT OF

Funds provided in sections 1 and 2 of this act as Grants and Aids-Special Categories or as Grants and Aids-Aid to Local Governments may be advanced quarterly throughout the fiscal year based on projects, grants, contracts, and allocation conference documents. Of the funds provided in Specific Appropriations 3, 4, 5, 57, 62, 64A through 70, and 139 for student financial assistance, sixty percent shall be released at the beginning of the first quarter and the balance at the beginning of the third quarter.

From funds provided in Specific Appropriations 10, 11 through 15, 112, 113, 132, 133, and 134 through 138, each college and university shall strive to reduce their campus-wide energy consumption by 10 percent. While savings may be accrued by any means, the goal shall be to implement energy use policies and/or procedures and any equipment retrofits that are necessary to carry out this reduction. The reduction may be obtained by either reducing the cost of the energy consumed or by reducing total energy usage, or a combination of both. Energy consumption expenditures incurred during the 2007-2008 fiscal year shall be used to establish the benchmark for the 10 percent goal. If a college or university can document that it has implemented energy use policies in the 2008-2009 or 2009-2010 fiscal years that resulted in reduction in energy usage or costs, then those reductions may be counted towards the 10 percent goal. Each college and university shall submit a report to the Governor, the Speaker of the House, and the President of the Senate by January 1, 2011 describing how they have met or plan to meet the 10 percent energy consumption reduction goal.

If a school district provides incentive funding for teachers to work in a failing school, then an equal incentive bonus must be provided to teachers teaching in juvenile justice facilities.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriations 6 and 78, \$35,240,403 is provided for the Sparsity Supplement as defined in section 1011.62(7), Florida Statutes, for school districts of 20,000 and fewer FTE in the 2010-2011 fiscal year.

Unless otherwise provided by law, no funds are provided in Specific Appropriations 6 and 78 for charter school FTE student enrollment for on-line instruction received by students principally in their own homes. However, charter schools may serve students who are temporarily homebound or who receive a portion of their instruction on-line.

A minimum guaranteed level of funding shall be calculated to provide no greater than a 10 percent reduction per unweighted full-time equivalent student compared to the amount per unweighted full-time equivalent student funded in the 2009-2010 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds, actual discretionary local revenue, and federal stabilization funds for 2009-2010 with total state and local formula and categorical funds, maximum potential discretionary local revenue, and federal stabilization funds for 2010-2011. Funds for the School Recognition Program and the Merit Award Program shall not be included in the calculation of the Minimum Guarantee. If at any time during the 2010-2011 fiscal year, the appropriation is reduced, the Minimum Guarantee shall not hold a district or other entity harmless from the impact of the reduction.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

From the funds in Specific Appropriations 6 and 78, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend funds in the amount of \$4,704 per student for each student who was enrolled and served during the 2009-2010 fiscal year and who is re-enrolled and eligible to be served during the 2010-2011 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2009-2010 fiscal year and who is re-enrolled and is eligible to be served during the 2010-2011 fiscal year. The Department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. From the funds provided in Specific Appropriations 129, 129A, and 130, the Department of Education shall pay for data center services based on the actual direct and indirect costs to the Department of Education. These funds shall not be used to subsidize another entity's costs.

From the funds in Specific Appropriations 116 through 130, the Department of Education shall coordinate, organize, and publish online all currently available reports relating to school district finances on an existing department website, including information generated from the department's school district finance database. These reports shall also be readily accessible to the public through a link on the Transparency Florida website established by section 215.985, Florida Statutes, pursuant to recommendations in the February 2010 report "Recommendations for Transparency Florida" by the Joint Legislative Auditing Committee. The school district reports to be available on the Transparency Florida website include, but are not limited to, those currently published on the department's website, school district websites, and the Auditor General's website. The department shall coordinate with the Executive Office of the Governor to create links on the Transparency Florida website to school district reports by August 1, 2010. By December 31, 2010, the department shall publish additional finance data relating to school districts that is not currently available online, including school-level expenditure data. The department shall work with school districts to ensure that each district website provides a link to the Transparency Florida website. The department shall also establish a working group to study issues related to the future expansion of school finance data available to the public through the Transparency Florida website. The working group shall include department finance staff, district finance officers, and other appropriate district staff. The working group shall develop recommendations regarding the establishment of a framework to provide school-level data in greater detail and frequency. The recommendations should address the need to report accounting transactions in a common, uniform format and include an analysis of potential barriers such as cost, technology, account coding structure, data security, and other issues that could impact completion of an expanded system of transparency in school finances. The working group shall also examine means for district coordination in the completion of the system. The working group shall publish a report of its findings by December 1, 2010.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

College of Florida, shall increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 132 and 134.

The Chancellor of the State University System shall submit a revised 3-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Board of Governors by September 1, 2010. This revised 3-year enrollment plan must be developed with input from each state university.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2010-2011 enrollment plan for the State University System.

Funds provided in Specific Appropriation 132 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

Each university board of trustees is given flexibility to make necessary adjustments to its operating budget. If any board reduces individual programs or projects within the university by more than 10 percent during the 2010-2011 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

From the funds provided in Specific Appropriations 132 from the General Revenue Fund, \$50,354,749 shall be utilized by receiving institutions to reprioritize funding towards key state and regional needs. These funds may be used to: improve student access and success initiatives that lead to increased degree production, build preeminent academic and training programs, enhance strategic research and development capacity, and enhance vital programs or student support services. Priority programs include the STEM related fields (Science, Technology, Engineering, and Math), health professions, education, and other high-priority state or regional workforce need areas. Each board of trustees shall determine how to implement the prioritization of funds based on their strategic analyses of the programs at their respective institutions. Each institution shall provide a delineation of how the reprioritized funds are being strategically invested to support these goals, as well as the metrics by which success would be measured, to the Chancellor of the Board of Governors. The Chancellor shall submit a summary report of the reprioritization efforts to the Governor, the Speaker of the House, and the President of the Senate no later than December 1, 2010.

The agency is authorized to seek any necessary state plan amendment or federal waiver to implement this provision. For any public hospital or any leased public hospital found to have sovereign immunity or hospital with graduate medical education positions that does not qualify for the elimination of the inpatient ceilings under this section of proviso or any other proviso listed, such hospitals shall be exempt from the inpatient reimbursement ceilings contingent on the hospital or local governmental entity providing the required state match. The agency shall use the average of the 2003, 2004 and 2005 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 189, \$1,822,057 from the Grants and Donation Trust Fund and \$2,915,482 from the Medical Care Trust Fund are provided to eliminate the inpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II

This provision shall apply to all hospitals that are designated or provisional trauma centers on July 1, 2010, and any hospital that becomes a designated or provisional trauma center during Fiscal Year 2010-2011. Included in these funds are the annualized amounts to offset the reductions taken against certified trauma centers as identified in Section 12, chapter 2007-326, Laws of Florida. The agency shall use the average of the 2003, 2004 and 2005 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

Funds in Specific Appropriation 189, are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. In the event the state share provided through grants and donations is not available to fund the removal of inpatient ceilings for hospitals, the Agency for Health Care Administration shall submit a revised hospital reimbursement plan to the Legislative Budget Commission for approval.

From the funds in Specific Appropriation 189, \$3,819,847 from the Grants and Donations Trust Fund and \$6,112,153 from the Medical Care Trust Fund are provided to make Medicaid payments to hospitals. These payments shall be used to pay approved liver transplant facilities a global fee for providing transplant services to Medicaid beneficiaries.

Included in these funds are the annualized amounts to offset the reductions taken against hospitals defined in section 408.07 (45), Florida Statutes, that are not certified trauma centers, as identified in Section 12, chapter 2007-326, Laws of Florida.

From the funds in Specific Appropriation 189, \$19,076,447 from the Grants and Donations Trust Fund, and \$30,524,300 from the Medical Care Trust Fund are provided to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates for the following three categories of hospitals. Of these funds \$31,984,943 is provided to the first category of hospitals, which are those hospitals that are part of a system that operates a provider service network in the following manner: \$18,773,903 is for Jackson Memorial Hospital; \$2,133,277 is for hospitals in Broward Health; \$4,906,684 is for hospitals in the Memorial Healthcare System; and \$760,226 is for Shands Jacksonville and \$5,410,853 is for Shands Gainesville. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the inpatient rate. Of the above funds, \$12,139,819 shall be used for the second category to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates for those hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent. In the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the inpatient rate for those individual hospitals. Of the above funds, \$5,475,985 shall be used for the third category to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates to rural hospitals.

From the funds in Specific Appropriation 189, in the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the inpatient rate for those individual hospitals. For this section of proviso the agency shall use the 2003,

2004 and 2005 audited Disproportionate Share Data (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 189, \$72,682,614 from the Grants and Donations Trust Fund and \$116,299,742 from the Medical Care Trust Fund are provided for public hospitals, including any leased public hospital found to have sovereign immunity, teaching hospitals as defined in section 408.07 (45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians and for designated trauma hospitals to buy back the Medicaid inpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their inpatient rates up to actual Medicaid inpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid inpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriations 189 and 203, \$2,307,600 from the Grants and Donations Trust Fund and \$3,692,400 from the Medical Care Trust Fund are provided to make Medicaid payments for multi-visceral transplant and intestine transplants in Florida. The agency shall establish a reasonable global fee for these transplant procedures and the payments shall be used to pay approved multi-visceral transplant and intestine transplant facilities a global fee for providing transplant services to Medicaid beneficiaries. Payment of the global fee is contingent upon the non-federal share being provided through grants and donations from state, county or other governmental funds. The agency is authorized to seek any federal waiver or state plan amendment necessary to implement this provision.

From the funds in Specific Appropriation 189, \$85,622,131 from the Public Medical Assistance Trust Fund and \$137,166,257 from the Medical Care Trust Fund are provided to restore reductions applied to inpatient hospital rates. The agency shall implement a recurring methodology in the Title XIX Inpatient Hospital Reimbursement Plan to achieve this restoration. The agency shall not include the funds described in this paragraph for the restoration of reductions to inpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations.

From the funds in Specific Appropriation 189, \$56,590,897 from the Grants and Donations Trust Fund and \$90,551,319 from the Medical Care Trust Fund are provided for hospitals, not previously included in the proviso above, to buy back the Medicaid inpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their inpatient rates up to actual Medicaid inpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to inpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations, unless the required state share for including these funds in the calculation of the capitation rates are provided through grants and donations from county or other local governmental funds.

From the funds in Specific Appropriation 189, \$336,525 from the Grants and Donations Trust Fund and \$538,475 from the Medical Care Trust Fund are provided to adjust the Medicaid rate for any rural hospital that moved into a replacement facility during calendar year 2009 to reflect the Medicaid costs for the period of time from moving into the replacement facility to when the rate would reflect the costs of the replacement facility through the routine rate setting process. To qualify for this adjustment a hospital must have a combined Medicaid and charity care utilization rate of at least 25 percent based on the most recent information reported to the agency prior to moving into the replacement facility. This rate adjustment is contingent upon the non-federal share being provided through grants and donations from state, county, or other governmental funds that do not increase the current requirement for state general revenue or tobacco settlement trust funds.

From the funds provided in Specific Appropriations 189, 194 and 203, \$1,367,895 from the General Revenue Fund and \$2,188,773 from the Medical Care Trust Fund reflects a the reduction of cost savings from reducing

From the funds in Specific Appropriation 189, the agency shall research and develop an efficiency based adjustment method for institutional providers. The method will provide definitions and measures of efficiencies. The agency must receive approval of the methodology from the Centers for Medicare and Medicaid Services prior to implementation and shall notify the Legislature upon receipt of such approval.

From the funds in Specific Appropriation 189, the agency shall publish the most current Medicaid inpatient rates for the current rate semester on the agency's web site each month.

From the funds in Specific Appropriation 191, \$9,798,198 from the Grants and Donations Trust Fund and \$15,678,137 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to hospitals providing primary care to low-income individuals, hospitals operating as designated or provisional trauma centers, and rural hospitals. Hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 shall be paid \$9,831,840 distributed in the same proportion as the Primary Care DSH payments for Fiscal Year 2003-2004, excluding Imperial Point Hospital, Memorial Regional Hospital, and Memorial Hospital Pembroke who will receive individual amounts equal to \$524,596, \$1,584,733, and \$524,596 respectively. Hospitals that are designated or provisional trauma centers shall be paid \$9,468,882. Of that amount, \$4,143,770 shall be distributed equally among hospitals that are a Level I trauma center; \$3,398,516 shall be distributed equally among hospitals that are either a Level II or pediatric trauma center; and \$1,926,596 shall be distributed equally among hospitals that are both a Level II and pediatric trauma center. The funding shall be distributed in a two-step allocation process. The first phase of the allocation process shall distribute payments to qualified hospitals based on the amount of local government funding provided for the uninsured and underinsured. Payments to qualified hospitals shall be capped at 114.6 percent of the amount of local government funding it would have received for the uninsured and underinsured without the Low Income Pool program. The second phase of the allocation process is to distribute the remaining funds based on a ratio of a hospital's Medicaid days, charity care days, and 50 percent of bad debt days to the total Medicaid days, charity care days, and 50 percent of bad debt days of all qualifying hospitals. To receive funds in this distribution, the hospital's Medicaid days, charity care days and 50 percent of bad debt days divided by the hospital's total days must equal or exceed 10 percent. Of the funds allocated in the second phase, \$2,419,573 shall be allocated to the rural hospitals and the remaining funds shall be allocated to the remaining hospitals that qualify for a distribution. All hospitals with accepted 2008 Financial Hospital Uniform Reporting System (FHURS) data are eligible for the second phase of the allocation process.

From the funds in Specific Appropriation 191, \$595,307 from the Grants and Donations Trust Fund and \$952,555 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to specialty pediatric facilities. To qualify for a Medicaid low-income pool payment under this section, a hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee-for-service days as a percentage to total inpatient days must equal or exceed 30 percent. The agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total Medicaid low-income pool payments made shall be distributed equally to the qualifying hospitals.

These payments shall be used, in collaboration with the Department of Health to provide funding for hospitals providing poison control programs.

From the funds in Specific Appropriation 191, \$11,399,224 from the General Revenue Fund, \$26,655,519 from the Grants and Donations Trust Fund and \$60,891,546 from the Medical Care Trust Fund are provided to increase access to primary care services in the state to reduce and prevent unnecessary emergency room visits and inpatient hospitalizations. In developing a plan to increase access to primary care services and the funding of these primary care services, the agency shall solicit proposals from general acute care hospitals, county health departments, faith based and community clinics, and Federally Qualified Health Centers in order to establish new primary clinics for the uninsured and underinsured. Of the funds provided, the agency shall use \$52,002,080, which includes \$10,000,000 in general revenue and \$10,000,000 in local funding pay for the increased access to primary care services. The use of general revenue is contingent upon an equal amount of local funds being provided in cash. The agency shall develop a plan for expanding primary care services by October 1, 2010, and submit the plan to the Legislative Budget Commission for approval before expending any funding. The agency may use \$46,944,209 of the funds provided in this paragraph, which include \$1,399,224 of general revenue for Federally Qualified Health Centers, to continue the funding for primary care services being provided by Federally Qualified Health Centers, for county health initiatives in conjunction with the Department of Health, hospital based primary care services, other non hospital programs and premium access systems that were funded in Specific Appropriation 190 of Section 3, Chapter 2009-81, Laws of Florida. If the agency determines it would be more beneficial to discontinue any or all of these programs, then the funds from the discontinued program or programs can be included with the \$52,002,080 for increasing access to primary care services.

From the funds in Specific Appropriation 191, in the event that there is federal legislation that extends the federal enhanced matching rate through June 30, 2011, the agency shall submit a plan which will adopt the recommendations of the Low Income Pool Council for state Fiscal Year 2010-2011 to the Legislative Budget Commission. The agency shall submit a plan with proportional adjustments to the Low Income Council recommendations to account for an additional \$52,002,080 for primary care services as described in this section of proviso.

From the funds in Specific Appropriation 191, the agency may make low income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis, subject to the availability of state, local, and federal funds.

From the funds in Specific Appropriation 191, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it

SECTION 3 - HUMAN SERVICES

is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 191, in the event that the amount of approved non-federal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient non-federal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local non-federal share match that their local government transfers to the state Medicaid program, and which the provider access system would have otherwise received.

Funds provided in Specific Appropriation 191 are contingent upon the non-federal share being provided through grants and donations from state, county or other governmental funds. In the event the non-federal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval.

Distribution of such funds provided in Specific Appropriation 191 are contingent upon approval from the Centers for Medicare and Medicaid Services.

From the funds in Specific Appropriation 194, \$19,653,060 from the Grants and Donations Trust Fund and \$31,446,942 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergency patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. contingent upon federal approval of a state plan amendment.

Funds in Specific Appropriation 194 reflect a reduction of \$22,077,630 from the General Revenue Fund, \$35,490,533 from the Medical Care Trust Fund, and \$102,511 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. In establishing rates through the normal process, prior to including this reduction, if the unit cost is equal to or less than the unit cost used in establishing the budget, then no additional reduction in rates is necessary. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget.

From the funds in Specific Appropriation 194, \$23,436,079 from the Grants and Donations Trust Fund and \$37,500,164 from the Medical Care Trust Fund are provided to increase the outpatient cap for adults from \$1,000 to \$1,500 per year and to eliminate the outpatient reimbursement ceilings for teaching, specialty, Community Health Education Program hospitals and Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation. Included in these funds are the annualized amounts to offset the reductions taken against hospitals defined in section 408.07 (45), Florida Statutes, that are not certified trauma centers, as identified in Section 13, chapter 2007-326, Laws of Florida.

From the funds in Specific Appropriation 194, \$4,678,761 from the Grants and Donations Trust Fund and \$7,486,505 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose charity care and Medicaid days as a percentage of total adjusted hospital days equals or exceeds 11 percent. For any public hospital or any leased public hospital found to have sovereign immunity or hospital with graduate medical education positions that does not qualify for the elimination of the outpatient ceilings under this provision of proviso or any other proviso listed, such hospitals shall be exempt from the outpatient reimbursement ceilings contingent on the public hospital or local governmental entity providing the required state match. The agency shall use the average of the 2003, 2004 and 2005 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 194, \$82,610 from the Grants and Donation Trust Fund and \$132,185 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2.

From the funds in Specific Appropriation 194, \$4,609,114 from the Grants and Donations Trust Fund and \$7,375,061 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose Medicaid days, as a percentage of total hospital days, exceed 7.3 percent, and are designated or provisional trauma centers. This provision shall apply to all hospitals that are designated or provisional trauma centers on July 1, 2010, or become a designated or provisional trauma center during Fiscal Year 2010-2011. Included in these funds are the annualized amounts to offset the reductions taken against certified trauma centers as identified in section 13, chapter 2007-326, Laws of Florida. The agency shall use the average of the 2003, 2004 and 2005 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 194 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for

SECTION 3 - HUMAN SERVICES

approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 194, \$4,702,344 from the Grants and Donations Trust Fund and \$7,524,239 from the Medical Care Trust Fund are provided to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for the following three categories of hospitals. Of these funds \$3,372,389 is provided to the first category of hospitals, which are those hospitals that are part of a system that operate a provider service network in the following manner: \$570,978 is for Jackson Memorial Hospital; \$458,668 is for hospitals in Broward Health; \$840,958 is for hospitals in the Memorial Healthcare System; and \$256,166 to Shands Jacksonville and \$1,245,619 to Shands Gainesville. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$4,221,468 shall be used for the second category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for those hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$4,632,729 shall be used for the third category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for rural hospitals. In the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the outpatient rate for those individual hospitals. For this section of proviso the agency shall use the average of 2003, 2004 and 2005 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 194, \$12,543,857 from the Grants and Donations Trust Fund and \$20,071,476 from the Medical Care Trust Fund are provided for public hospitals, including any leased public hospital found to have sovereign immunity, teaching hospitals as defined in sections 408.07 (45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians and designated trauma hospitals to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 194, \$22,077,630 from the Public Medical Assistance Trust Fund and \$35,593,044 from the Medical Care Trust Fund are provided to restore reductions applied to outpatient hospital rates. NORTHWOOD SHARED RESOURCE CENTER (NSRC)

From the funds in Specific Appropriations 294 through 298A, the Northwood Shared Resource Center (NSRC) shall develop a transition plan for absorbing the transfer of customer agency data center resources to the center based upon the timetables for transition as provided in the transferring agency's data center consolidation transition plan. The plan shall include Fiscal Year 2011-2012 legislative budget request adjustments submitted from each customer agency transferring resources, as well as budget adjustments required by the NSRC to accomplish the efficient transfer of the data center service resources. The plan shall describe and make recommendations relating to issues which must be resolved to accomplish the transfer. The plan shall be submitted to the Agency for Enterprise Information Technology (AEIT), Executive Office of the Governor and to the chairs of the Full Appropriations Council on General Government & Health Care and Senate Policy and Steering Committee on Ways and Means by November 15, 2010.

From the funds in Specific Appropriations 294 through 298A, the NSRC, in coordination with the AEIT, shall work with the agencies that are required to develop and submit data center consolidation transition plans to transfer computing resources to the state primary data center, pursuant to section 282.201(2)(d)1.e., Florida Statutes.

From the funds in Specific Appropriations 294 through 298A, the NSRC shall also work with the AEIT and the agencies required to develop comparative cost benefit analyses for the purpose of determining the most cost effective center to provide their data center service functions.

From the funds in Specific Appropriations 294 through 298A, in filling positions, the NSRC is to give priority consideration to state employees whose jobs have been adversely affected by workforce reductions in the agencies from where agency data center services are being transferred. Every reasonable effort is to be made to identify vacant positions and to match the adversely affected employees' skills with the requirements of available vacant positions in the data center.

From the funds in Specific Appropriations 294 through 298A, beginning July 1, 2010, the Department of Juvenile Justice, Department of Business and Professional Regulation and the Department of Corrections shall each have one trustee with one vote each on the NSRC Board of Trustees in Fiscal Year 2010-11 to facilitate proposed data center consolidations during Fiscal Years 2010-2011 and 2011-2012.

From the funds in Specific Appropriation 588 through 595, by September 1, 2010, the Department of Veterans Affairs shall execute a service level agreement, pursuant to s. 282.203(1)(g), Florida Statutes, to specify the services and levels of services it is to receive from the Southwood Shared Resource Center (SSRC). If the department is unable to complete and execute a service level agreement by that date, the department shall submit a report to the Executive Office of the Governor and to the chairs of the Full Appropriations Council on General Government & Health Care and Senate Policy and Steering Committee on Ways and Means within five working days, explaining the specific issues preventing execution, and describing the department's plan and schedule for resolving those issues.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 603 through 781, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2011.

Funds in Specific Appropriations 603 through 781 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2010, and for which it has been determined by the Secretary of the department that there is no longer a need.

The Department of Corrections may, subject to all applicable provisions of chapter 216, Florida Statutes, transfer funds and positions and salary rate among budget entities and programs within Specific Appropriations 603 through 781 if necessary, to ensure public safety and avoid adversely affecting current employees due to the elimination of vacant positions and other approved reductions. It is the intent of the Legislature that priority shall be placed on preserving positions in correctional institutions and community corrections.

Funds in Specific Appropriations 603 through 781 include reductions in full-time equivalent positions and associated salary and benefits. Those reductions in full-time equivalent positions must be from, to the maximum extent feasible, supervisory and managerial positions.

To minimize the impact of funding reductions within Specific Appropriations 603 through 781, the department shall identify vacant correctional work release and substance abuse programming capacity and has the discretion pursuant to the provisions of Chapter 216, Florida Statutes, to transfer funds to enable the filling of such additional capacity in accordance with the provisions of chapter 945, Florida Statutes.

From the funds in Specific Appropriations 603 through 781, the Department of Corrections may contract with a provider to implement an evidence-based risk/needs analysis pilot program using established risk

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

assessment tools to analyze the inmate population at an appropriate facility. The risk/needs assessment tool will allow the department to focus resources and treatment on those inmates with the greatest risk to re-offend and will assist the department in determining appropriate programming for lower risk inmates that may be better served in day reporting centers or other similar programs. The findings should include an analysis of whether implementing an evidence-based risk analysis across the entire inmate population would reduce state expenditures and recidivism rates. The department shall report its findings to the chairs of the House Full Appropriations Council on General Government and Health Care and Senate Policy and Steering Committee on Ways and Means no later than January 31, 2011.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 639, 651 and 663, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with the respect to any facility, to reimburse the Department of Management Services, and any predecessor agency, for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 639, 651, and 663, the Department of Management Services must ensure all future private prison contracts have explicit conditions that provide for the flexibility to adjust the percentages of special needs inmates to allow for changes in overall state populations of those inmates. Such percentages must be based on Department of Corrections' special needs inmate population forecasts, so that medical and mental healthcare costs are appropriately shared by both private and state prisons. All future private prison contracts must require each private prison vendor to report the same performance measures for inmate programs in private prisons as reported by the Department of Corrections for its comparable public institutions. As part of the private prisons contracting negotiations process, the Department of Corrections must consult with the Department of Management Services and each private prison vendor to establish high, reasonable, and achievable performance standards. All future private prison contracts must require each private prison vendor to develop inmate visitation policies and telephone rates for the private prisons that are consistent with those policies followed by the state's public prisons and encourage inmate family contact, as directed by Florida Statutes. Finally, the Department of Management Services must require all future private prison contracts to adhere to Department of Management Services' established criteria for awarding Privately Operated Institutions Inmate Welfare Trust Fund monies so that Department of Management Services' staff can verify such funds are being used appropriately.

From the funds in Specific Appropriations 639, 651, and 663, the Department of Management Services is directed to execute private prison contract amendments to each operations and management contract for each correctional facility currently under its supervision in order to provide the contractors the maximum flexibility to address recurring reductions in contract amounts. Such contract amendments shall expire on June 30, 2010. The Department of Management Services and the private prison contractors may amend the provisions of the private prison operating contracts limiting correctional officer overtime and part-time hours to be consistent with the overtime and part-time use as permitted by the Department of Corrections and the American Correctional Association standards. The contract amendments may also eliminate deductions for vacant positions as long as the services associated with the position are being provided through the use of overtime or part-time staff. The Department of Management Services may amend the private prison operating contracts to provide for the payment of costs associated with all inmate academic, vocational, behavioral and substance abuse programs from funds in the Privately Operated Institutions Inmate Welfare Trust Fund. Such contract amendments may not negatively affect the Department of Corrections.

The Department of Corrections may contract through a request for proposal for innovative and cost effective approaches to the financing, construction and operation of private correctional beds and services which can include any and all operations defined and requested by the department, including but not limited to financing, operations, housing, staffing, security, meals, medical care, transportation, education and substance abuse treatment services. The department may consult with other state agencies on the development of this request for proposal. Any resulting contract shall be funded through existing appropriations, and at a minimum provide for per diem costs at a cost of at least seven percent below what the department can incarcerate similar inmates. The department shall not implement this section in a manner that reduces participation in existing reentry programs.

From the funds provided in Specific Appropriations 629 through 721, the Department of Corrections by January 1, 2011 shall implement an electronic time and attendance system in all four regions through a contract resulting from a competitive solicitation process in accordance with Chapter 287, Florida Statutes, or through an approved competitively solicited state term contract or approved competitively solicited alternate contract source in accordance with s. 297.042(16), F.S.

Specific Appropriations 603 through 781 include a reduction of \$24,251,652 in recurring general revenue to close an existing institution(s) in order to open 2,224 adult male correctional facility beds at Blackwater River Correctional Institution on November 1, 2010.

Specific Appropriations 603 through 781 also include \$14,006,142 in recurring general revenue reductions to be achieved through privatizing 1,350 beds at an existing Department of Corrections operated

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

institution(s). Conversion from state operated to privately operated shall take place no later than January 1, 2010.

The department may not close or privatize any dormitories other than those associated with closing or privatizing an entire institution to achieve the reductions provided above.

The Department of Corrections shall provide a transition plan to the chairs of the Full Appropriations Council on General Government & Health Care and the Senate Policy and Steering Committee on Ways and Means no later than July 1, 2010, which includes the list of the institution(s) to be closed to populate Blackwater River Correctional Institution and the institution(s) to be privatized. To expedite the contracting process, all information pertinent to developing contracts shall be provided to the Department of Financial Services no later than July 1, 2010. The department shall submit any amendment necessary to facilitate the transfer of funding from the Adult Male Private Prison Operations category to another private prison operations category if a different type institution is determined.

Through the provisions of s. 287.057(11), F.S., and from the list of vendors approved through the Florida Vendor Bid System, the Department of Financial Services shall, upon receipt of Department of Corrections data pertinent to determining type of facility, number and type of inmate, medical and psychological grade populations, and FY 2008-09 operating costs, immediately procure contracts for the 1,350 privately operated prison beds. The institution(s) average daily population (ADP), as well as medical and psychological grade population percentages, shall remain substantially unchanged from the ADP calculated/published for FY 2008-09. For each facility contracted, at least a ten percent savings over DOC FY 2008-09 operating costs for the facility to be privatized shall be achieved. The institution(s) shall continue to operate at capacities set forth in s. 944.023, F.S.

Any funds received at the converted institution(s) from canteens, subsistence payments, or any other participation accounts shall continue to be remitted to the General Revenue Fund..

ADULT MALE CUSTODY OPERATIONS

Funds and positions in Specific Appropriations 603 through 728 and 747 through 781 are provided to address security needs for the additional prison population expected in Fiscal Year 2010-2011 as projected by the Criminal Justice Estimating Conference.

Funds and positions in Specific Appropriations 603 through 728 and 747 through 781, are sufficient to provide housing and security for 103,476 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 102,552 inmates.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1166 through 1188 , the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on General Government and Health Care prior to implementing any change.

From the funds in Specific Appropriations 1166 through 1188, for determining the most appropriate bed reductions in each level of residential commitments, the department may consider those residential commitment programs, if necessary, which have scored below 72 on the overall program score represented in the Comprehensive Accountability Report. The department may also consider programs that are underutilized, those that provide services for which there is a less critical need and other relevant performance measures in determining which level of residential beds should be reduced. Prior to any change authorized herein, notification and justification must be provided to the Governor's Office of Policy and Budget, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on General Government and Health Care.

From the funds in Specific Appropriation 1373, the Parole Commission shall conduct a study and provide the following to the Governor's Office of Policy and Budget, the President of the Senate and the Speaker of the House of Representatives by October 1, 2010:

1. A valid determination of the exact number of pending Restoration of Civil Rights (RCR) cases existing on July 1, 2010, along with a full explanation of the methodology used to determine the pending number of cases. Data must include total cases received for each of the past five years, the total number of cases processed for each of the past five years, and the total number of cases received or pending but not processed for each of the past five years;
2. A continuation plan including measures that continue to simplify application forms and processes by using readily available data from existing automated systems;
3. Identification of all existing resources, workload, job descriptions, and internal business procedures for clemency activities. This information must be reported in a manner that allows for isolation of resources allocated to the RCR process. The information must also be sufficient to account for each step in the process to complete the review of RCR without a hearing; and
4. Proposed criteria, developed by case type, to use in defining and classifying case backlogs which shall be based upon a reasonable length of time for the normal processing of cases.

Funds in Specific Appropriation 1769A, as part of the Department of Environmental Protection's Beach Management Funding Assistance Program, shall be allocated in priority order in the amounts requested by the department to the Miami-Dade Beach Nourishment Project, St. Lucie Inlet Management Plan Implementation, Duval Shore-Protection Project, Anna Maria Island Nourishment, Sand Key Nourishment, Broward County Nourishment - Segment II, Long Key Nourishment, and the Palm Beach County Shore Protection projects. These projects represent the maximum availability and leveraging of federal beach funding, and/or previous partial state funding commitment to the project, including Fiscal Year 2009-2010.

In order to provide maximum availability of funds for all listed projects, the department and each local sponsor are directed to identify any and all agreed upon reductions in the state funding share that can be absorbed without jeopardizing available federal dollars or delaying project construction.

Funds in Specific Appropriation 1769A shall not be allocated for post-construction monitoring. State matching dollars for such monitoring may be considered as a local government cost credit toward future design and construction activities for any of the local government sponsor's beach projects. In addition, the department, in conjunction with the Fish and Wildlife Conservation Commission, shall examine all permit-imposed post-construction monitoring requirements and existing protocols in terms of cost-savings, necessity, redundancies and efficiencies; and report back to Legislature by January 1, 2011.

AGENCY FOR WORKFORCE INNOVATION

From the funds in Specific Appropriations 2191 through 2249, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The agency head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2191 through 2249, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Agency for Workforce Innovation if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

From the funds provided in Specific Appropriations 2208 through 2218, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2208 through 2237, the Agency for Workforce Innovation shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Policy and Steering Committee on Ways and Means and the chair of the House Full Appropriations Council on Education and Economic Development.

From the Child Care and Development Block Grant Trust Fund in Specific Appropriation 2243, a minimum of \$3,000,000 shall be used to enhance the quality of child care through the Teacher Education and Compensation Helps Program (T.E.A.C.H.).

From the funds in Specific Appropriation 2243 in the Welfare Transition Trust Fund, \$1,400,000 from recurring funds is provided for the Home Instruction Program for Pre-School Youngsters (HIPPY).

Funds in Specific Appropriation 2243 from the Child Care and Development Block Grant Trust Fund may be used to provide a rate differential or stipend to programs which reach the Gold Seal Quality Care designation. The rate differential shall not exceed twenty percent of the reimbursement rate.

Funds in Specific Appropriation 2243 require a match from local sources for working poor eligible participants of six percent on child care slots. In-kind match is allowable provided there is not a reduction in the number of slots or level of services from the provision of in-kind match. The Agency for Workforce Innovation may adopt a policy to grant a waiver of the six percent match requirement to a rural county that demonstrates a significant hardship in meeting the match requirement. Progress towards meeting this requirement shall be monitored by the Agency for Workforce Innovation, and shall be considered satisfactorily attained if the six percent requirement is met on a statewide basis.

From the funds in Specific Appropriation 2243, the Agency for Workforce Innovation shall designate an amount to be used for the Child Care Executive Partnership Program, as defined in section 411.0102, Florida Statutes, as match to expand the provision of services to low income families at or below 200 percent of the federal poverty level. Funds for this program may be used to match funds for statewide contracts.

Funds in Specific Appropriation 3164 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented.
