House

Senator Dean moved the following:

Senate Amendment (with title amendment)

Between lines 121 and 122

insert:

Section 4. All Department of Transportation or Turnpike Enterprise projects on lands located within the Peace Creek Watershed shall be mitigated, to the extent feasible within the watershed, through the Surface Water Improvement And Management Program or public or private mitigation banks approved by the applicable water management district, or by any other form of mitigation approved by the water management district to mitigate the transportation project impacts.
