Senate Amendment (with title amendment)

Delete lines 385 - 400

and insert:

(4) The Legislature is cognizant of the changing trends and techniques for the delivery of health care in this state and the discretion that is inherent in the diagnosis, care, and treatment of patients by different health care providers. The failure of a health care provider to order, perform, or administer supplemental diagnostic tests is ~~shall~~ not be actionable if the health care provider acted in good faith and with due regard for the prevailing professional standard of care.
