If a school district provides incentive funding for teachers to work in a failing school, then an equal incentive bonus must be provided to teachers teaching in juvenile justice facilities.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriations 6 and 68, \$35,754,378 is provided for the Sparsity Supplement as defined in section 1011.62(7), Florida Statutes, for school districts of 20,000 and fewer FTE in the 2011-2012 fiscal year.

If any school district levies the full 0.748 mill levy and it generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, the school district shall receive from the funds provided in Specific Appropriations 6 and 68, a discretionary millage compression supplement that, when added to the funds generated by the district's 0.748 mill levy, shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

If any school district chooses to levy an amount not less than 0.498 mill and less than 0.748 mill, a compression supplement shall be calculated on a levy of 0.498 mill. 2. In addition, if any school district levies an additional 0.25 mill for the 2011-2012 fiscal year to meet critical operating needs pursuant to section 1011.71(3)(b), Florida Statutes, and the 0.25 mill generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, at the time of the third calculation of the FEFP, the school district shall receive from the funds provided in Specific Appropriations 6 and 68, a discretionary millage compression supplement that, when added to the funds generated by the district's 0.25 mill levy, shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

The calculations of the Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2011-2012 fiscal year are incorporated by reference in HB 5003. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 179, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 179, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 179, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 179 are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 179 is contingent upon approval from the Centers for Medicare and Medicaid Services.

Funds in Specific Appropriation 182 reflect a reduction of \$26,892,230 from the General Revenue Fund, \$34,143,215 from the Medical Care Trust Fund, and \$93,292 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to outpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds. These funds shall be distributed to the lead agencies with funding allocations, excluding Independent Living and Maintenance Adoption Subsidies, that fall below their fair share, using a distribution formula that is based on the following four weighted factors: number of children in poverty (30 percent); number of reports to the Abuse Hotline that are either referred for investigation or whose findings have been verified (30 percent); number of children in out-of-home care (30 percent); contribution to a safe reduction in out-of-home care (10 percent). Community based care lead agencies not meeting the criteria for receiving additional equity funds shall receive no additional funding from this appropriation increase.

Funds in Specific Appropriation 427 reflect a reduction of \$10,355,748 from the General Revenue Fund. The Department shall withdraw categorical Primary Care funding from county health departments using a tiered approach. The tiers shall be based on the extent to which county health departments furnish primary care for minor acute illnesses and injuries and the availability of other providers of these services in the community. Counties where the health department is not extensively involved in the provision of care for minor acute illnesses and injuries and other major providers of these services exist will be in Tier 1. Counties where the health department furnishes primary care for minor acute illnesses and injuries and other providers in the community do not yet have sufficient capacity to absorb health department patients will be in Tier 2. Counties where the health department is the main primary care safety net provider in the community will be in Tier 3. The department shall apply the reduction to providers in Tier 1 to the full extent possible, followed by Tier 2 and Tier 3.

The Department shall develop an annual report that assesses the capacity of the communities in the next successive tier to absorb the primary care caseload of the health department. The Department will involve the state Primary Care Office in this assessment and in the development of the primary care component of the State Health Improvement Plan. SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 570 through 759, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2012.

Funds in Specific Appropriations 570 through 759 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

In accordance with the provisions of chapter 287, Florida Statutes, the Department of Corrections shall competitively procure the provision of comprehensive correctional services through the outsourcing of the correctional institutions and felony community supervision services within Broward and Miami-Dade Counties. The award of any contract is contingent on approval by the Legislative Budget Commission as described below. The successful bidder must:

1. Comply with all statutes relating to correctional institutions and community supervision;
2. Ensure that correctional probation officers and correctional officers employed by the private entity are certified;
3. Comply with all American Correctional Association standards;
4. Comply with all rules of the department;
5. Implement any standard or special conditions of supervision ordered by the court including but not limited to drug testing and electronic monitoring;
6. Provide such services at a cost savings to the state of at least 7 percent when compared to the department's current operating costs.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

If after engaging in the competitive solicitation process, the department determines that the process has yielded responses that meet the above requirements, the department shall develop a transition plan and submit such plan to the Legislative Budget Commission by December 1, 2011. The department also must submit a cost-benefit analysis which delineates the department's current costs of providing the services and the savings that would be generated by the transition plan yielding a minimum savings of 7 percent. The department shall submit its plan and recommended revisions to its operating budget including any savings for Fiscal Year 2011-2012 to the Legislative Budget Commission. Upon approval by the commission the department may award the contract for outsourcing of services.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 605, 616 and 628, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with the respect to any facility, to reimburse the Department of Management Services, and any predecessor agency, for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 605, 616, and 628, the Department of Management Services must ensure all future private prison contracts have explicit conditions that provide for the flexibility to adjust the percentages of special needs inmates to allow for changes in overall state populations of those inmates. Such percentages must be based on Department of Corrections' special needs inmate population forecasts, so that medical and mental healthcare costs are appropriately shared by both private and state prisons. All future private prison contracts must require each private prison vendor to report the same performance measures for inmate programs in private prisons as reported by the Department of Corrections for its comparable public institutions. As part of the private prisons contracting negotiations process, the Department of Corrections must consult with the Department of Management Services and each private prison vendor to establish high, reasonable, and achievable performance standards. All future private prison contracts must require each private prison vendor to develop inmate visitation policies and telephone rates for the private prisons that are consistent with those policies followed by the state's public prisons and encourage inmate family contact, as directed by Florida Statutes. Finally, the Department of Management Services must require all future private prison contracts to adhere to Department of Management Services' established criteria for awarding Privately Operated Institutions Inmate Welfare Trust Fund monies so that Department of Management Services' staff can verify such funds are being used appropriately.

From the funds in Specific Appropriations 605, 616, and 628, the Department of Management Services is directed to execute private prison contract amendments to each operations and management contract for each correctional facility currently under its supervision in order to provide the contractors the maximum flexibility to address recurring reductions in contract amounts. Such contract amendments shall expire on June 30, 2012. The Department of Management Services and the private prison contractors may amend the provisions of the private prison operating contracts limiting correctional officer overtime and part-time

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

hours to be consistent with the overtime and part-time use as permitted by the Department of Corrections and the American Correctional Association standards. The contract amendments may also eliminate deductions for vacant positions as long as the services associated with the position are being provided through the use of overtime or part-time staff. The Department of Management Services may amend the private prison operating contracts to provide for the payment of costs associated with all inmate academic, vocational, behavioral and substance abuse programs from funds in the Privately Operated Institutions Inmate Welfare Trust Fund. Such contract amendments may not negatively affect the Department of Corrections.

Funds and positions in Specific Appropriations 570 through 688a and 726 through 759 support the state-wide inmate population increase. These funds and positions are sufficient to provide housing and security for 101,783 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 101,778 inmates.

Funds and positions in Specific Appropriations 570 through 688a and 726 through 759 are provided to address security needs for the additional prison populations expected in Fiscal Year 2011-2012 as projected by the Criminal Justice Estimating Conference.

Pursuant to sections 944.012(6)(c), 921.00241, Florida Statutes, \$700,143 in general revenue is provided in Specific Appropriation 725 for Judicial/DOC pilot programs for offenders eligible but not required by law to be incarcerated but could be diverted to appropriate programs which allow the offender to retain community support, access drug treatment and/or employment opportunities while receiving life-skills assistance in a structured environment. These programs may include drug treatment, residential and outpatient treatment programming, day reporting or other services designed to reduce recidivism.

These pilot programs are to be initiated in communities where the circuit court and Department of Corrections, in conjunction with community stakeholders, agree to implement evidence-based practices and graduated incentives that will result in a reduction in prison admission for that community.

The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice must before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1068 through 1147 shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1068 through 1077A, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1114 through 1135, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee .

From the funds in Specific Appropriations 1114 through 1135 for determining the most appropriate bed reductions in each level of residential commitments, the department may consider those residential commitment programs, if necessary, which have scored below 72 on the overall program score represented in the Comprehensive Accountability Report. The department may also consider programs that are underutilized, those that provide services for which there is a less critical need and other relevant performance measures in determining which level of residential beds should be reduced. Should reductions involve state-operated programs, the department is authorized to submit a budget amendment in accordance with all applicable provisions of chapter 216, Florida Statutes, to transfer positions and funds as necessary to accomplish the reduction of beds. The department shall apply identical criteria in determining whether bed reductions come from contracted or state-operated beds.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Prior to any change authorized herein, notification and justification must be provided to the Governor's Office of Policy and Budget, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Appropriations Committee.

From the funds in Specific Appropriation 1319, the Parole Commission shall conduct a study and provide the following to the Governor's Office of Policy and Budget, the President of the Senate and the Speaker of the House of Representatives by October 1, 2011:

1. A valid determination of the exact number of pending Restoration of Civil Rights (RCR) cases existing on July 1, 2011, along with a full explanation of the methodology used to determine the pending number of cases. Data must include total cases received for each of the past five years, the total number of cases processed for each of the past five years, and the total number of cases received or pending but not processed for each of the past five years;
2. A continuation plan including measures that continue to simplify application forms and processes by using readily available data from existing automated systems;
3. Identification of all existing resources, workload, job descriptions, and internal business procedures for clemency activities. This information must be reported in a manner that allows for isolation of resources allocated to the RCR process. The information must also be sufficient to account for each step in the process to complete the review of RCR without a hearing; and
4. Proposed criteria, developed by case type, to use in defining and classifying case backlogs which shall be based upon a reasonable length of time for the normal processing of cases.

Of the funds in Specific Appropriation 1335, \$3,500,000 in nonrecurring general revenue funds is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous as a result of leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

From the funds in Specific Appropriation 1335, \$3,000,000 in nonrecurring general revenue funds shall be expended by the department for the operation and management of existing hybrid wetland/chemical treatment projects within the Northern Everglades as defined in chapter 373, Florida Statutes.

From the funds in Specific Appropriations 1895, 1896 and 1897, the Florida Fish and Wildlife Conservation Commission will conduct panther research on both public and private lands, as permitted by private landowners. The commission will develop improved methods to generate statistically sound estimates of the panther population size using best available science. The commission, in conjunction with the U.S. Fish and Wildlife Service and other partners, will use best available science to evaluate panther carrying capacity (ranges) and the consequences of inter-breeding the Florida panther with the Texas cougar. The commission will report progress on these objectives to the Office of Policy and Budget in the Governor's Office, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee by December 15.

AGENCY FOR WORKFORCE INNOVATION

From the funds in Specific Appropriations 1984 through 2038, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The agency head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 1984 through 2038, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Agency for Workforce Innovation if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

From the funds in Specific Appropriation 2000 through 2010, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2000 through 2010, the Agency for Workforce Innovation shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Committee on Budget and the chair of the House Appropriations Committee.

From the funds in Specific Appropriation 2033 in the Welfare Transition Trust Fund, \$1,400,000 from recurring funds is provided for the Home Instruction Program for Pre-School Youngsters (HIPPY).

Funds for this program may be used to match funds for statewide contracts.

From the funds in Specific Appropriation 2078, up to \$400,000 from the Professional Regulation Trust Fund is provided to the Department of Business and Professional Regulation to prevent, combat, and publicize the dangers of unlicensed real estate activity in Florida. The department shall develop, implement, and maintain an unlicensed activity campaign in consultation with a corporation that is registered under chapter 617, Florida Statutes, as a not-for-profit corporation and qualified under the Internal Revenue Service Code as a 501(c)(6) corporation, and that represents the largest number of licensed Florida real estate professionals. The campaign shall encompass media production, advertising, and other techniques that the department may wish to utilize after first consulting with the not-for-profit corporation. Special emphasis shall be placed on the investigation and prosecution of unlicensed real estate activities. To further the purpose of the unlicensed activity campaign, the department shall be authorized to accept in-kind contributions of services, media production, or advertising materials from the not-for-profit corporation. Any advertising, media, or materials produced as a result of contributions shall carry acknowledgements of joint production and sponsorship. The department may not allocate overhead charges to these unlicensed activity campaign funds.

From the funds in Specific Appropriation 2078, up to \$60,000 from the Professional Regulation Trust Fund is provided to the Department of Business and Professional Regulation to institute an unlicensed activity campaign for the purpose of informing and educating the public: (1) that public accounting is a regulated profession with requirements of licensure pursuant to chapter 473, Florida Statutes; (2) that some services provided by unlicensed individuals, although legal, are regulated when provided by a licensed Florida Certified Public Accountant; and (3) that certain services may only be performed by a licensed Florida Certified Public Accountant. The department shall develop the campaign in consultation with a corporation that is registered under chapter 617, Florida Statutes, as a not-for-profit corporation and qualified under the Internal Revenue Service Code as a 501(c)(6) corporation, and that represents the largest number of licensed Florida Certified Public Accountants. Any advertising, media, or materials produced as a result of contributions shall carry acknowledgements of joint production and sponsorship. The department may not allocate overhead charges to these unlicensed activity campaign funds.

From the funds in Specific Appropriation 2078, the Department of Business and Professional Regulation shall submit a report to the chair of the Senate Budget Committee on Budget and the chair of the House Appropriations Committee by November 1, 2011, detailing the unlicensed activity functions performed by the department during Fiscal Year 2010-2011. The report shall contain a detailed breakout of activities, revenues, and expenditures by board and/or profession, and include any relevant information to indicate the department's compliance with section 455.2281, Florida Statutes.

The review is in accordance with the federal Family Support Act of 1988, to ensure appropriate determination of child support award amounts and shall include development of a percent-of-obligor income and/or modified percent-of-obligor income model for Florida and estimated cost-savings and benefits to citizens and other entities of the proposed model. A final report is due to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 1, 2011. The Office of Economic and Demographic Research may contract with a state university or a nationally recognized organization for the purpose of collecting and analyzing the economic data necessary for the review.

Funds in Specific Appropriation 2941 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining at June 30, 2012.
