SUMMARY ANALYSIS

The Legislature created the Florida Trade Data Center in 1992 as a comprehensive trade data resource and research center. The purpose of the Center was to create a trade information system that provides timely import and export information, trade opportunities, intermodal transportation information that measures cargo flow by transportation mode, commodity trends, trade activity between Florida and specific countries, and other relevant information. The Center has been inactive since 1999.

The bill removes references to the Florida Trade Data Center in sections of law that address state of Florida foreign offices, Florida-Caribbean Basin Trade Initiative, and the Florida seaport transportation and economic development funding.

The bill has no fiscal impact.
