166 report would have been used to set a lower reimbursement rate  
167 for a rate semester, then the provider's rate for that semester  
168 shall be retroactively calculated using the new cost report, and  
169 full payment at the recalculated rate shall be effected  
170 retroactively. Medicare-granted extensions for filing cost  
171 reports, if applicable, shall also apply to Medicaid cost

209 list product and reduce the pharmacy dispensing fee by \$0.50 for  
210 the dispensing of a Medicaid product that is not included on the  
211 preferred drug list.

346 intensive care center.

347 TAE = total amount earned by a regional perinatal intensive

409 contributing toward the cost of this special reimbursement for  
410 hospitals serving a disproportionate share of low-income  
411 patients. For the 2011-2012 ~~2010-2011~~ state fiscal year, the  
412 agency shall distribute the moneys provided in the General  
413 Appropriations Act to statutorily defined teaching hospitals and  
414 family practice teaching hospitals, as defined in s. 395.805,  
415 pursuant to this section ~~under the teaching hospital~~  
416 ~~disproportionate share program~~. The funds provided for  
417 statutorily defined teaching hospitals shall be distributed in  
418 the same proportion as the ~~state fiscal year~~ 2003-2004 state  
419 fiscal year teaching hospital disproportionate share funds were  
420 distributed or as otherwise provided in the General  
421 Appropriations Act. The funds provided for family practice  
422 teaching hospitals shall be distributed equally among family  
423 practice teaching hospitals.

424 (1) On or before September 15 of each year, the agency  
425 shall calculate an allocation fraction to be used for  
426 distributing funds to ~~state~~ statutory teaching hospitals.  
427 Subsequent to the end of each quarter of the state fiscal year,  
428 the agency shall distribute to each statutory teaching hospital,  
429 ~~as defined in s. 408.07,~~ an amount determined by multiplying  
430 one-fourth of the funds appropriated for this purpose by the  
431 Legislature times such hospital's allocation fraction. The  
432 allocation fraction for each such hospital shall be determined  
433 by the sum of the following three primary factors, divided by  
434 three:

435 (a) The number of nationally accredited graduate medical

576-02597B-11

436 education programs offered by the hospital, including programs  
437 accredited by the Accreditation Council for Graduate Medical  
438 Education and the combined Internal Medicine and Pediatrics  
439 programs acceptable to both the American Board of Internal  
440 Medicine and the American Board of Pediatrics at the beginning  
441 of the state fiscal year preceding the date on which the  
442 allocation fraction is calculated. The numerical value of this  
443 factor is the fraction that the hospital represents of the total  
444 number of programs, where the total is computed for all ~~state~~  
445 statutory teaching hospitals.

446 (b) The number of full-time equivalent trainees in the  
447 hospital, which comprises two components:

448 1. The number of trainees enrolled in nationally accredited  
449 graduate medical education programs, as defined in paragraph  
450 (a). Full-time equivalents are computed using the fraction of  
451 the year during which each trainee is primarily assigned to the  
452 given institution, over the state fiscal year preceding the date  
453 on which the allocation fraction is calculated. The numerical  
454 value of this factor is the fraction that the hospital  
455 represents of the total number of full-time equivalent trainees  
456 enrolled in accredited graduate programs, where the total is  
457 computed for all ~~state~~ statutory teaching hospitals.

458 2. The number of medical students enrolled in accredited  
459 colleges of medicine and engaged in clinical activities,  
460 including required clinical clerkships and clinical electives.  
461 Full-time equivalents are computed using the fraction of the  
462 year during which each trainee is primarily assigned to the  
463 given institution, over the course of the state fiscal year  
464 preceding the date on which the allocation fraction is

576-02597B-11

20117174

465 calculated. The numerical value of this factor is the fraction  
466 that the given hospital represents of the total number of full-  
467 time equivalent students enrolled in accredited colleges of  
468 medicine, where the total is computed for all ~~state~~ statutory  
469 teaching hospitals.

470

471 The primary factor for full-time equivalent trainees is computed  
472 as the sum of these two components, divided by two.

473 (c) A service index that comprises three components:

474 1. The Agency for Health Care Administration Service Index,  
475 computed by applying the standard Service Inventory Scores  
476 established by the agency to services offered by the given  
477 hospital, as reported on Worksheet A-2 for the last fiscal year  
478 reported to the agency before the date on which the allocation  
479 fraction is calculated. The numerical value of this factor is  
480 the fraction that the given hospital represents of the total  
481 ~~Agency for Health Care Administration Service~~ index values,  
482 where the total is computed for all ~~state~~ statutory teaching  
483 hospitals.

484 2. A volume-weighted service index, computed by applying  
485 the standard Service Inventory Scores established by the agency  
486 ~~for Health Care Administration~~ to the volume of each service,  
487 expressed in terms of the standard units of measure reported on  
488 Worksheet A-2 for the last fiscal year reported to the agency  
489 before the date on which the allocation factor is calculated.  
490 The numerical value of this factor is the fraction that the  
491 given hospital represents of the total volume-weighted service  
492 index values, where the total is computed for all ~~state~~  
493 statutory teaching hospitals.

576-02597B-11

494           3. Total Medicaid payments to each hospital for direct  
 495 inpatient and outpatient services during the fiscal year  
 496 preceding the date on which the allocation factor is calculated.  
 497 This includes payments made to each hospital for such services  
 498 by Medicaid prepaid health plans, whether the plan was  
 499 administered by the hospital or not. The numerical value of this  
 500 factor is the fraction that each hospital represents of the  
 501 total of such Medicaid payments, where the total is computed for  
 502 all ~~state~~ statutory teaching hospitals.

503

504 The primary factor for the service index is computed as the sum  
 505 of these three components, divided by three.

506           (2) By October 1 of each year, the agency shall use the  
 507 following formula to calculate the maximum additional  
 508 disproportionate share payment for statutory ~~statutorily defined~~  
 509 teaching hospitals:

510

511                                   TAP = THAF x A

512

513 Where:

514           TAP = total additional payment.

515           THAF = teaching hospital allocation factor.

516           A = amount appropriated for a teaching hospital  
 517 disproportionate share program.

518           Section 8. Section 409.9117, Florida Statutes, is amended  
 519 to read:

520           409.9117 Primary care disproportionate share program.—For  
 521 the 2011-2012 ~~2010-2011~~ state fiscal year, the agency may ~~shall~~  
 522 not distribute moneys under the primary care disproportionate

523 share program.

524 (1) If federal funds are available for disproportionate  
525 share programs in addition to those otherwise provided by law,  
526 ~~there shall be created~~ a primary care disproportionate share  
527 program shall be established.

528 (2) The following formula shall be used by the agency to  
529 calculate the total amount earned for hospitals that participate  
530 in the primary care disproportionate share program:

531

$$532 \text{ TAE} = \text{HDSP} / \text{THDSP}$$

533

534 Where:

535 TAE = total amount earned by a hospital participating in  
536 the primary care disproportionate share program.

537 HDSP = the prior state fiscal year primary care  
538 disproportionate share payment to the individual hospital.

539 THDSP = the prior state fiscal year total primary care  
540 disproportionate share payments to all hospitals.

541

542 (3) The total additional payment for hospitals that  
543 participate in the primary care disproportionate share program  
544 shall be calculated by the agency as follows:

545

$$546 \text{ TAP} = \text{TAE} \times \text{TA}$$

547

548 Where:

549 TAP = total additional payment for a primary care hospital.

550 TAE = total amount earned by a primary care hospital.

551 TA = total appropriation for the primary care

552 disproportionate share program.

553

554 (4) In establishing ~~the establishment~~ and funding ~~of~~ this  
555 program, the agency shall use the following criteria in addition  
556 to those specified in s. 409.911, and payments may not be made  
557 to a hospital unless the hospital agrees to:

558 (a) Cooperate with a Medicaid prepaid health plan, if one  
559 exists in the community.

560 (b) Ensure the availability of primary and specialty care  
561 physicians to Medicaid recipients who are not enrolled in a  
562 prepaid capitated arrangement and who are in need of access to  
563 such physicians.

564 (c) Coordinate and provide primary care services free of  
565 charge, except copayments, to all persons with incomes up to 100  
566 percent of the federal poverty level who are not otherwise  
567 covered by Medicaid or another program administered by a  
568 governmental entity, and to provide such services based on a  
569 sliding fee scale to all persons with incomes up to 200 percent  
570 of the federal poverty level who are not otherwise covered by  
571 Medicaid or another program administered by a governmental  
572 entity, except that eligibility may be limited to persons who  
573 reside within a more limited area, as agreed to by the agency  
574 and the hospital.

575 (d) Contract with any federally qualified health center, if  
576 one exists within the agreed geopolitical boundaries, concerning  
577 the provision of primary care services, in order to guarantee  
578 delivery of services in a nonduplicative fashion, and to provide  
579 for referral arrangements, privileges, and admissions, as  
580 appropriate. The hospital shall agree to provide ~~at an onsite or~~

576-02597B-11

20117174

581 ~~offsite facility~~ primary care services within 24 hours at an  
582 onsite or offsite facility to which all Medicaid recipients and  
583 persons eligible under this paragraph who do not require  
584 emergency room services are referred during normal daylight  
585 hours.

586 (e) Cooperate with the agency, the county, and other  
587 entities to ensure the provision of certain public health  
588 services, case management, referral and acceptance of patients,  
589 and sharing of epidemiological data, as the agency and the  
590 hospital find mutually necessary and desirable to promote and  
591 protect the public health within the agreed geopolitical  
592 boundaries.

593 (f) In cooperation with the county in which the hospital  
594 resides, develop a low-cost, outpatient, prepaid health care  
595 program to persons who are not eligible for the Medicaid  
596 program, and who reside within the area.

597 (g) Provide inpatient services to residents within the area  
598 who are not eligible for Medicaid or Medicare, and who do not  
599 have private health insurance, regardless of ability to pay, on  
600 the basis of available space, except that hospitals may not be  
601 prevented from establishing bill collection programs based on  
602 ability to pay.

603 (h) Work with the Florida Healthy Kids Corporation, the  
604 Florida Health Care Purchasing Cooperative, and business health  
605 coalitions, as appropriate, to develop a feasibility study and  
606 plan to provide a low-cost comprehensive health insurance plan  
607 to persons who reside within the area and who do not have access  
608 to such a plan.

609 (i) Work with public health officials and other experts to

20117174

610 provide community health education and prevention activities  
611 designed to promote healthy lifestyles and appropriate use of  
612 health services.

613 (j) Work with the local health council to develop a plan  
614 for promoting access to affordable health care services for all  
615 persons who reside within the area, including, but not limited  
616 to, public health services, primary care services, inpatient  
617 services, and affordable health insurance generally.

618

619 Any hospital that fails to comply with any of the provisions of  
620 this subsection, or any other contractual condition, may not  
621 receive payments under this section until full compliance is  
622 achieved.

623 Section 9. Paragraph (b) of subsection (16) and paragraph  
624 (a) of subsection (39) of section 409.912, Florida Statutes, are  
625 amended to read:

626 409.912 Cost-effective purchasing of health care.—The  
627 agency shall purchase goods and services for Medicaid recipients  
628 in the most cost-effective manner consistent with the delivery  
629 of quality medical care. To ensure that medical services are  
630 effectively utilized, the agency may, in any case, require a  
631 confirmation or second physician's opinion of the correct  
632 diagnosis for purposes of authorizing future services under the  
633 Medicaid program. This section does not restrict access to  
634 emergency services or poststabilization care services as defined  
635 in 42 C.F.R. part 438.114. Such confirmation or second opinion  
636 shall be rendered in a manner approved by the agency. The agency  
637 shall maximize the use of prepaid per capita and prepaid  
638 aggregate fixed-sum basis services when appropriate and other

576-02597B-11

20117174

639 alternative service delivery and reimbursement methodologies,  
640 including competitive bidding pursuant to s. 287.057, designed  
641 to facilitate the cost-effective purchase of a case-managed  
642 continuum of care. The agency shall also require providers to  
643 minimize the exposure of recipients to the need for acute  
644 inpatient, custodial, and other institutional care and the  
645 inappropriate or unnecessary use of high-cost services. The  
646 agency shall contract with a vendor to monitor and evaluate the  
647 clinical practice patterns of providers in order to identify  
648 trends that are outside the normal practice patterns of a  
649 provider's professional peers or the national guidelines of a  
650 provider's professional association. The vendor must be able to  
651 provide information and counseling to a provider whose practice  
652 patterns are outside the norms, in consultation with the agency,  
653 to improve patient care and reduce inappropriate utilization.  
654 The agency may mandate prior authorization, drug therapy  
655 management, or disease management participation for certain  
656 populations of Medicaid beneficiaries, certain drug classes, or  
657 particular drugs to prevent fraud, abuse, overuse, and possible  
658 dangerous drug interactions. The Pharmaceutical and Therapeutics  
659 Committee shall make recommendations to the agency on drugs for  
660 which prior authorization is required. The agency shall inform  
661 the Pharmaceutical and Therapeutics Committee of its decisions  
662 regarding drugs subject to prior authorization. The agency is  
663 authorized to limit the entities it contracts with or enrolls as  
664 Medicaid providers by developing a provider network through  
665 provider credentialing. The agency may competitively bid single-  
666 source-provider contracts if procurement of goods or services  
667 results in demonstrated cost savings to the state without

576-02597B-11

20117174

668 limiting access to care. The agency may limit its network based  
669 on the assessment of beneficiary access to care, provider  
670 availability, provider quality standards, time and distance  
671 standards for access to care, the cultural competence of the  
672 provider network, demographic characteristics of Medicaid  
673 beneficiaries, practice and provider-to-beneficiary standards,  
674 appointment wait times, beneficiary use of services, provider  
675 turnover, provider profiling, provider licensure history,  
676 previous program integrity investigations and findings, peer  
677 review, provider Medicaid policy and billing compliance records,  
678 clinical and medical record audits, and other factors. Providers  
679 shall not be entitled to enrollment in the Medicaid provider  
680 network. The agency shall determine instances in which allowing  
681 Medicaid beneficiaries to purchase durable medical equipment and  
682 other goods is less expensive to the Medicaid program than long-  
683 term rental of the equipment or goods. The agency may establish  
684 rules to facilitate purchases in lieu of long-term rentals in  
685 order to protect against fraud and abuse in the Medicaid program  
686 as defined in s. 409.913. The agency may seek federal waivers  
687 necessary to administer these policies.

688 (16)

689 (b) The responsibility of the agency under this subsection  
690 includes ~~shall include~~ the development of capabilities to  
691 identify actual and optimal practice patterns; patient and  
692 provider educational initiatives; methods for determining  
693 patient compliance with prescribed treatments; fraud, waste, and  
694 abuse prevention and detection programs; and beneficiary case  
695 management programs.

696 1. The practice pattern identification program shall

576-02597B-11

20117174\_\_

697 evaluate practitioner prescribing patterns based on national and  
698 regional practice guidelines, comparing practitioners to their  
699 peer groups. The agency and its Drug Utilization Review Board  
700 shall consult with the Department of Health and a panel of  
701 practicing health care professionals consisting of the  
702 following: the Speaker of the House of Representatives and the  
703 President of the Senate shall each appoint three physicians  
704 licensed under chapter 458 or chapter 459; and the Governor  
705 shall appoint two pharmacists licensed under chapter 465 and one  
706 dentist licensed under chapter 466 who is an oral surgeon. Terms  
707 of the panel members shall expire at the discretion of the  
708 appointing official. The advisory panel shall be responsible for  
709 evaluating treatment guidelines and recommending ways to  
710 incorporate their use in the practice pattern identification  
711 program. Practitioners who are prescribing inappropriately or  
712 inefficiently, as determined by the agency, may have their  
713 prescribing of certain drugs subject to prior authorization or  
714 may be terminated from all participation in the Medicaid  
715 program.

716 2. The agency shall also develop educational interventions  
717 designed to promote the proper use of medications by providers  
718 and beneficiaries.

719 3. The agency shall implement a pharmacy fraud, waste, and  
720 abuse initiative that may include a surety bond or letter of  
721 credit requirement for participating pharmacies, enhanced  
722 provider auditing practices, the use of additional fraud and  
723 abuse software, recipient management programs for beneficiaries  
724 inappropriately using their benefits, and other steps that ~~will~~  
725 eliminate provider and recipient fraud, waste, and abuse. The

576-02597B-11

20117174

726 initiative shall address enforcement efforts to reduce the  
727 number and use of counterfeit prescriptions.

728 4. ~~By September 30, 2002,~~ The agency may ~~shall~~ contract  
729 with an entity in the state to provide Medicaid providers with  
730 electronic access to Medicaid prescription refill data and  
731 information relating to the Medicaid Preferred Drug List  
732 ~~implement a wireless handheld clinical pharmacology drug~~  
733 ~~information database for practitioners.~~ The initiative shall be  
734 designed to enhance the agency's efforts to reduce fraud, abuse,  
735 and errors in the prescription drug benefit program and to  
736 otherwise further the intent of this paragraph.

737 5. ~~By April 1, 2006,~~ The agency shall contract with an  
738 entity to design a database of clinical utilization information  
739 or electronic medical records for Medicaid providers. The  
740 database ~~This system~~ must be web-based and allow providers to  
741 review on a real-time basis the utilization of Medicaid  
742 services, including, but not limited to, physician office  
743 visits, inpatient and outpatient hospitalizations, laboratory  
744 and pathology services, radiological and other imaging services,  
745 dental care, and patterns of dispensing prescription drugs in  
746 order to coordinate care and identify potential fraud and abuse.

747 6. The agency may apply for any federal waivers needed to  
748 administer this paragraph.

749 (39) (a) The agency shall implement a Medicaid prescribed-  
750 drug spending-control program that includes the following  
751 components:

752 1. A Medicaid preferred drug list, which is ~~shall be~~ a  
753 listing of cost-effective therapeutic options recommended by the  
754 Medicaid Pharmacy and Therapeutics Committee established

576-02597B-11

20117174

755 pursuant to s. 409.91195 and adopted by the agency for each  
756 therapeutic class on the preferred drug list. At the discretion  
757 of the committee, and when feasible, the preferred drug list  
758 should include at least two products in a therapeutic class. The  
759 agency may post the preferred drug list and updates to the  
760 ~~preferred drug~~ list on an Internet website without following the  
761 rulemaking procedures of chapter 120. Antiretroviral agents are  
762 excluded from the preferred drug list. The agency shall also  
763 limit the amount of a prescribed drug dispensed to no more than  
764 a 34-day supply unless the drug products' smallest marketed  
765 package is greater than a 34-day supply, or the drug is  
766 determined by the agency to be a maintenance drug in which case  
767 a 100-day maximum supply may be authorized. The agency may ~~is~~  
768 ~~authorized to~~ seek any federal waivers necessary to implement  
769 these cost-control programs and to continue participation in the  
770 federal Medicaid rebate program, or alternatively to negotiate  
771 state-only manufacturer rebates. The agency may adopt rules to  
772 administer ~~implement~~ this subparagraph. The agency shall  
773 continue to provide unlimited contraceptive drugs and items. The  
774 agency must establish procedures to ensure that:

775 a. There is a response to a request for prior consultation  
776 by telephone or other telecommunication device within 24 hours  
777 after receipt of a request for prior consultation; and

778 b. A 72-hour supply of the drug prescribed is provided in  
779 an emergency or when the agency does not provide a response  
780 within 24 hours as required by sub-subparagraph a.

781 2. Reimbursement to pharmacies for Medicaid prescribed  
782 drugs shall be set at the lowest ~~lesser~~ of: the average  
783 wholesale price (AWP) minus 16.4 percent, the wholesaler

576-02597B-11

20117174

784 acquisition cost (WAC) plus 1.5 ~~4.75~~ percent, the federal upper  
785 limit (FUL), the state maximum allowable cost (SMAC), or the  
786 usual and customary (UAC) charge billed by the provider.

787 3. The agency shall develop and implement a process for  
788 managing the drug therapies of Medicaid recipients who are using  
789 significant numbers of prescribed drugs each month. The  
790 management process may include, but is not limited to,  
791 comprehensive, physician-directed medical-record reviews, claims  
792 analyses, and case evaluations to determine the medical  
793 necessity and appropriateness of a patient's treatment plan and  
794 drug therapies. The agency may contract with a private  
795 organization to provide drug-program-management services. The  
796 Medicaid drug benefit management program shall include  
797 initiatives to manage drug therapies for HIV/AIDS patients,  
798 patients using 20 or more unique prescriptions in a 180-day  
799 period, and the top 1,000 patients in annual spending. The  
800 agency shall enroll any Medicaid recipient in the drug benefit  
801 management program if he or she meets the specifications of this  
802 provision and is not enrolled in a Medicaid health maintenance  
803 organization.

804 4. The agency may limit the size of its pharmacy network  
805 based on need, competitive bidding, price negotiations,  
806 credentialing, or similar criteria. The agency shall give  
807 special consideration to rural areas in determining the size and  
808 location of pharmacies included in the Medicaid pharmacy  
809 network. A pharmacy credentialing process may include criteria  
810 such as a pharmacy's full-service status, location, size,  
811 patient educational programs, patient consultation, disease  
812 management services, and other characteristics. The agency may

576-02597B-11

20117174

813 impose a moratorium on Medicaid pharmacy enrollment if ~~when~~ it  
814 is determined that it has a sufficient number of Medicaid-  
815 participating providers. The agency must allow dispensing  
816 practitioners to participate as a part of the Medicaid pharmacy  
817 network regardless of the practitioner's proximity to any other  
818 entity that is dispensing prescription drugs under the Medicaid  
819 program. A dispensing practitioner must meet all credentialing  
820 requirements applicable to his or her practice, as determined by  
821 the agency.

822         5. The agency shall develop and implement a program that  
823 requires Medicaid practitioners who prescribe drugs to use a  
824 counterfeit-proof prescription pad for Medicaid prescriptions.  
825 The agency shall require the use of standardized counterfeit-  
826 proof prescription pads by Medicaid-participating prescribers or  
827 prescribers who write prescriptions for Medicaid recipients. The  
828 agency may implement the program in targeted geographic areas or  
829 statewide.

830         6. The agency may enter into arrangements that require  
831 manufacturers of generic drugs prescribed to Medicaid recipients  
832 to provide rebates of at least 15.1 percent of the average  
833 manufacturer price for the manufacturer's generic products.  
834 These arrangements shall require that if a generic-drug  
835 manufacturer pays federal rebates for Medicaid-reimbursed drugs  
836 at a level below 15.1 percent, the manufacturer must provide a  
837 supplemental rebate to the state in an amount necessary to  
838 achieve a 15.1-percent rebate level.

839         7. The agency may establish a preferred drug list as  
840 described in this subsection, and, pursuant to the establishment  
841 of such preferred drug list, ~~it is authorized to~~ negotiate

843 those required by Title XIX of the Social Security Act and at no  
844 less than 14 percent of the average manufacturer price as  
845 defined in 42 U.S.C. s. 1936 on the last day of a quarter unless  
846 the federal or supplemental rebate, or both, equals or exceeds  
847 29 percent. There is no upper limit on the supplemental rebates  
848 the agency may negotiate. The agency may determine that specific  
849 products, brand-name or generic, are competitive at lower rebate  
850 percentages. Agreement to pay the minimum supplemental rebate  
851 percentage ~~will~~ guarantee a manufacturer that the Medicaid  
852 Pharmaceutical and Therapeutics Committee will consider a  
853 product for inclusion on the preferred drug list. However, a  
854 pharmaceutical manufacturer is not guaranteed placement on the  
855 preferred drug list by simply paying the minimum supplemental  
856 rebate. Agency decisions will be made on the clinical efficacy  
857 of a drug and recommendations of the Medicaid Pharmaceutical and  
858 Therapeutics Committee, as well as the price of competing  
859 products minus federal and state rebates. The agency may ~~is~~  
860 ~~authorized to~~ contract with an outside agency or contractor to  
861 conduct negotiations for supplemental rebates. For the purposes  
862 of this section, the term "supplemental rebates" means cash  
863 rebates. ~~Effective July 1, 2004,~~ Value-added programs as a  
864 substitution for supplemental rebates are prohibited. The agency  
865 may ~~is authorized to~~ seek any federal waivers to implement this  
866 initiative.

867 8. The agency ~~for Health Care Administration~~ shall expand  
868 home delivery of pharmacy products. To assist Medicaid

872 brand-name drugs used by Medicaid recipients ~~patients~~ with  
873 diabetes. Medicaid recipients in the current program may obtain  
874 nondiabetes drugs on a voluntary basis. This initiative is  
875 limited to the geographic area covered by the current contract.  
876 The agency may seek and implement any federal waivers necessary  
877 to implement this subparagraph.

878 9. The agency shall limit to one dose per month any drug  
879 prescribed to treat erectile dysfunction.

880 10.a. The agency may implement a Medicaid behavioral drug  
881 management system. The agency may contract with a vendor that

884 federal waivers to implement this program.

885 b. The agency, in conjunction with the Department of  
886 Children and Family Services, may implement the Medicaid

889 based on best practice guidelines, improve patient adherence to  
890 medication plans, reduce clinical risk, and lower prescribed  
891 drug costs and the rate of inappropriate spending on Medicaid  
892 behavioral drugs. The program may include the following  
893 elements:

894 (I) Provide for the development and adoption of best  
895 practice guidelines for behavioral health-related drugs such as  
896 antipsychotics, antidepressants, and medications for treating  
897 bipolar disorders and other behavioral conditions; translate  
898 them into practice; review behavioral health prescribers and  
899 compare their prescribing patterns to a number of indicators

900 that are based on national standards; and determine deviations  
901 from best practice guidelines.

902 (II) Implement processes for providing feedback to and  
903 educating prescribers using best practice educational materials  
904 and peer-to-peer consultation.

905 (III) Assess Medicaid beneficiaries who are outliers in  
906 their use of behavioral health drugs with regard to the numbers  
907 and types of drugs taken, drug dosages, combination drug

909 health drugs.

910 (IV) Alert prescribers to patients who fail to refill

929 order to implement this system. Any management system that is  
930 implemented in accordance with this subparagraph must rely on  
931 cooperation between physicians and pharmacists to determine  
932 appropriate practice patterns and clinical guidelines to improve  
933 the prescribing, dispensing, and use of drugs in the Medicaid  
934 program. The agency may seek federal waivers to implement this  
935 program.

936 b. The drug management system must be designed to improve  
937 the quality of care and prescribing practices based on best  
938 practice guidelines, improve patient adherence to medication  
939 plans, reduce clinical risk, and lower prescribed drug costs and  
940 the rate of inappropriate spending on Medicaid prescription  
941 drugs. The program must:

942 (I) Provide for the ~~development and~~ adoption of best  
943 practice guidelines for the prescribing and use of drugs in the  
944 Medicaid program, including translating best practice guidelines  
945 into practice; reviewing prescriber patterns and comparing them

956 drug therapies, and other indicators of improper use of  
957 prescription drugs.

20117174

958 (IV) Alert prescribers to recipients ~~patients~~ who fail to  
959 refill prescriptions in a timely fashion, are prescribed  
960 multiple drugs that may be redundant or contraindicated, or may  
961 have other potential medication problems.

962 (V) Track spending trends for prescription drugs and  
963 deviation from best practice guidelines.

964 (VI) Use educational and technological approaches to  
965 promote best practices, educate consumers, and train prescribers  
966 in the use of practice guidelines.

967 (VII) Disseminate electronic and published materials.

968 (VIII) Hold statewide and regional conferences.

969 (IX) Implement disease management programs in cooperation  
970 with physicians and pharmacists, along with a model quality-  
971 based medication component for individuals having chronic  
972 medical conditions.

973 12. The agency may ~~is authorized to~~ contract for drug  
974 rebate administration, including, but not limited to,

981 General Appropriations Act and ensuring cost-effective  
982 prescribing practices.

983 14. The agency may require prior authorization for  
984 Medicaid-covered prescribed drugs. The agency may, ~~but is not~~

988           c. If the product has the potential for overuse, misuse, or  
989 abuse.

991 The agency may require the prescribing professional to provide  
992 information about the rationale and supporting medical evidence  
993 for the use of a drug. The agency may post prior authorization

995 subject to prior authorization on an Internet website without  
996 amending its rule or engaging in additional rulemaking.

997           15. The agency, in conjunction with the Pharmaceutical and  
998 Therapeutics Committee, may require age-related prior  
999 authorizations for certain prescribed drugs. The agency may

1001 the age requirement or may exceed the length of therapy for use  
1002 of this product as recommended by the manufacturer and approved  
1003 by the Food and Drug Administration. Prior authorization may

1009 preferred drug list. Medications listed on the preferred drug  
1010 list must be used within the previous 12 months before ~~prior to~~  
1011 the alternative medications that are not listed. The step-  
1012 therapy prior authorization may require the prescriber to use  
1013 the medications of a similar drug class or for a similar medical  
1014 indication unless contraindicated in the Food and Drug  
1015 Administration labeling. The trial period between the specified

1016 steps may vary according to the medical indication. The step-  
1017 therapy approval process shall be developed in accordance with  
1018 the committee as stated in s. 409.91195(7) and (8). A drug  
1019 product may be approved without meeting the step-therapy prior  
1020 authorization criteria if the prescribing physician provides the  
1021 agency with additional written medical or clinical documentation  
1022 that the product is medically necessary because:

1024 the disease or medical condition which is an acceptable clinical  
1025 alternative;

1026       b. The alternatives have been ineffective in the treatment

1039 implementation and operation of the program. The return and  
1040 reuse program shall be implemented electronically and in a  
1041 manner that promotes efficiency. The program must permit a  
1042 pharmacy to exclude drugs from the program if it is not  
1043 practical or cost-effective for the drug to be included and must  
1044 provide for the return to inventory of drugs that cannot be

1045 credited or returned in a cost-effective manner. The agency  
1046 shall determine if the program has reduced the amount of  
1047 Medicaid prescription drugs which are destroyed on an annual  
1048 basis and if there are additional ways to ensure more  
1049 prescription drugs are not destroyed which could safely be  
1050 reused. ~~The agency's conclusion and recommendations shall be~~  
1051 ~~reported to the Legislature by December 1, 2005.~~
