I. Summary:

This bill revises the penalties associated with noise violations in vehicles established in s. 316.3045, F.S. The bill increases the level of a violation of s. 316.3045, F.S, from a non-moving violation to a moving violation for second and subsequent violations. This bill also sets minimum fines for second, third, and subsequent violations of Section 316.3045, F.S., within a 12 month period.

This bill amends ss. 316.3045 and 318.18 of the Florida Statutes.

II. Present Situation:

Section 316.3045, F.S., provides criteria related to the operation of radios or other mechanical sound-making devices in motor vehicles. Presently, it is unlawful for a person operating or occupying a motor vehicle on a street or highway to amplify the sound produced by a radio, tape player, or other mechanical sound-making device or instrument from within the motor vehicle where the sound is:

- plainly audible at a distance of 25 feet or more from the vehicle, or

- louder than necessary for the convenient hearing by persons inside the vehicle in areas adjoining churches, schools or hospitals.

A violation of the conditions of this section is a noncriminal traffic infraction, punishable as a nonmoving violation.

Section 318.18, F.S. sets the penalty for a non moving violation at \$30 plus applicable court costs and fees.

III. Effect of Proposed Changes:

Section 1: The bill amends s. 316.3045, F.S., to increase the level of the violation for second, third, and subsequent violations to a moving violation. Violators of s. 316.3045, F.S., will be assessed 3 points on the driver's license for second, third and subsequent violations.

Section 2: The bill amends s. 318.18, F.S., by establishing increased minimum fines for second, third, and subsequent violations occurring within the same 12 month period. A fine of \$120 will be assessed for a second violation and \$180 for third and subsequent violations within a 12 month period.

Section 2: The bill will take effect July 1, 2011.
