1460 Be It Resolved by the Legislature of the State of Florida:

1461
1462 Section 1. Official census for apportionment; definitions.—

1463 (1) In accordance with Section 8(a), Article X of the State
1464 Constitution, the United States Decennial Census of 2010 is the
1465 official census of the state for the purposes of this joint
1466 resolution.

1467 (2) The following delineation of representative and
1468 senatorial districts employs areas included within official
1469 county, voting tabulation district, tract, and block boundary
1470 descriptions used by the United States Department of Commerce,
1471 Bureau of the Census, in compiling the United States Decennial
1472 Census of 2010 in this state. The populations within these
1473 census geographic units are the population figures reported in
1474 the counts of the United States Decennial Census of 2010
1475 provided to the state in accordance with Pub. L. No. 94-171.

1476 (3) As used in this joint resolution, the term:

1477 (a) "Block" describes the smallest geographic unit for
1478 which population was tabulated in the 2010 decennial census.
1479 Blocks are nested within tracts and within voting tabulation

20121176e1

1480 districts. A block is identified by a four-digit integer that is
1481 unique within a tract but is not necessarily unique within a
1482 voting tabulation district.

1483 (b) "Tract" describes a relatively permanent statistical
1484 subdivision of a county updated by local participants prior to
1485 the 2010 decennial census. Tracts consist of whole blocks and
1486 are nested within counties. Tracts are identified uniquely
1487 within a county by an up to four-digit integer and may have an
1488 optional two-digit suffix.

1489 (c) "Voting tabulation district" describes a subdivision of
1490 a county established in Phase 2 of the 2010 Census Redistricting
1491 Data Program. Voting tabulation districts consist of whole
1492 blocks and are nested within counties. Voting tabulation
1493 districts subdivide counties in ways supervisors of elections
1494 determined are efficient for conducting elections and keeping
1495 communities whole. Voting tabulation districts are identified
1496 uniquely within a county by an up to four-digit integer.

1497 Section 2. Representative districts.—For the election of
1498 members to the House of Representatives of this state, the state
1499 is apportioned into 120 consecutively numbered, single-member,
