Hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent, and rural hospitals as defined in section 395.602, Florida Statutes, are excluded from this reduction.

In such event, the agency shall submit to the Executive Office of the Governor a budget amendment requesting that commensurate amounts of appropriation in the Grants and Donations Trust Fund and the Medical Care Trust Fund be placed in reserve.

From the funds in Specific Appropriation 193, the agency shall develop a methodology that reduces the variance in Medicaid payments to different hospitals for similar services and begins the transition to a Medicaid prospective payment system in accordance with section 409.905 (5) (f), Florida Statutes. The plan shall convert inpatient hospital rates to a prospective payment system that categorizes each case into diagnosis-related groups (DRG) and assigns a payment weight based on the average resources used to treat Medicaid patients in that DRG. To the extent possible, the agency shall propose an adaptation of an existing prospective payment system, such as the one used by Medicare, and shall propose such adjustments as are necessary for the Medicaid population and to maintain budget neutrality for inpatient hospital expenditures. The agency shall submit the Medicaid DRG plan, identifying all steps necessary for the transition and any costs associated with plan implementation, to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2013. From the funds in Specific Appropriation 195, the calculations of the Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2012-2013 fiscal year are incorporated by reference in HB 5003. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 195, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 195, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 195, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 195, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 195 is contingent upon approval from the Centers for Medicare and Medicaid Services.

All pharmaceutical claims for this purpose must include National Drug Codes (NDC) to permit the invoicing for federal and/or state supplemental rebates from manufacturers. Claims for drug products that do not

include National Drug Code information are not payable by Florida Medicaid unless the drug product is exempt from federal rebate requirements.

From the funds in Specific Appropriation 196, the Agency for Health Care Administration shall work with dialysis providers, managed care organizations, and physicians to ensure that all Medicaid patients with End Stage Renal Disease (ESRD) are educated and assessed by their physician and dialysis provider to determine their suitability for peritoneal dialysis (PD) as a modality choice. Further, the agency shall consult with the dialysis community concerning suitable voluntary reporting to the state Medicaid program on members' PD suitability.

From the funds in Specific Appropriation 198, the calculations of the Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2012-2013 fiscal year are incorporated by reference in HB 5003. The calculations are the basis for the appropriations made in the General Appropriations Act.

The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. In establishing rates through the normal process, prior to including this reduction, if the unit cost is equal to or less than the unit cost used in establishing the budget, then no additional reduction in rates is necessary. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget. Hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent, and rural hospitals as defined in section 395.602, Florida Statutes, are excluded from this reduction.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 198 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 198, \$27,279,957 from the Grants and Donations Trust Fund and \$37,257,438 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals

providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergent patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds. This provision shall be contingent upon federal approval of a state plan amendment.

From the funds in Specific Appropriation 198, \$7,182,339 from the Grants and Donations Trust Fund and \$9,809,237 from the Medical Care Trust Fund program are provided to increase the outpatient cap for adults from \$1,000 to \$1,500 per year.

The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 198, \$14,216,715 from the Grants and Donations Trust Fund and \$19,416,394 from the Medical Care Trust Fund are provided for hospitals to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to outpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 198, \$19,089,002 from the Grants and Donations Trust Fund and \$26,070,690 from the Medical Care Trust Fund are provided for hospitals to allow for exemptions from outpatient reimbursement limitations for any hospital that has local funds available for intergovernmental transfers. SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 625 through 815, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2013.

From the funds in Specific Appropriations 625 through 815, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the chairs of the Senate Budget Committee and the House Appropriations Committee for review.

Funds in Specific Appropriation 625 through 815 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2012, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 661, 673, and 686 a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 661, 673, and 686, the Department of Management Services is directed to execute private prison contract amendments to each operations and management contract for each correctional facility currently under its supervision. Such contract amendments will address recurring contract reductions while ensuring the contractors do not lower services and continue to maintain current operational standards. Such contract amendments may not negatively affect the Department of Corrections.

Funds and positions in Specific Appropriations 625 through 758 and 778 through 815 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 98,885 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 99,257 inmates.

Funds and positions in Specific Appropriation 625 through 758 and 778 through 815 are provided to address security needs for the prison population expected in Fiscal Year 2012-2013 as projected by the Criminal Justice Estimating Conference.

The Department of Corrections must reevaluate its consolidation plan and adjust its facility rankings so that no prison may be closed that is in a county designated a Rural Area of Critical Economic Concern as provided in Section 288.0656, Florida Statutes, and has a population of less than 15,000 as determined by the 2010 Census.

 FROM GENERAL REVENUE FUND 700,143

Pursuant to sections 944.012(6)(c), 921.00241 and 775.082(10), Florida Statutes, \$700,143 in recurring general revenue funds are provided in Specific Appropriation 777 for Judicial/DOC pilot programs for offenders who would be sentenced to prison, but could be diverted to appropriate programs that allow the offender to retain community support, access drug treatment and/or employment opportunities while receiving life-skills assistance in a structured environment. These treatment programs may include drug treatment, residential and outpatient treatment programming, day reporting or other services to reduce recidivism.

These pilot programs are to be initiated in communities where the circuit court and Department of Corrections, in conjunction with community stakeholders, agree to implement evidence-based practices and graduated incentives that are anticipated to result in a reduction in prison admissions for that community.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1186 through 1274A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1186 through 1274A shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2012, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1186 through 1198, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1238 through 1261, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1238 through 1261, for determining the most appropriate bed reductions in each level of residential commitments, the department may consider those residential commitment programs, if necessary, which have scored below 72 on the overall program score represented in the Comprehensive Accountability Report. The department may also consider programs that are underutilized, those that provide services for which there is a less critical need and other relevant performance measures in determining which level of residential beds should be reduced. Should reductions involve state-operated programs, the department is authorized to submit a budget amendment in accordance with all applicable provisions of chapter 216, Florida Statutes, to transfer positions and funds as necessary to accomplish the reduction of beds. The department shall apply identical criteria in determining whether bed reductions come from contracted or state-operated beds.

Of the funds in Specific Appropriation 1398A, \$4,000,000 in recurring general revenue funds is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous due to leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

From the funds in Specific Appropriation 1398A, \$3,000,000 in recurring general revenue funds is provided for the operation and maintenance of existing hybrid wetland/chemical treatment projects and \$2,000,000 in nonrecurring general revenue funds is provided for completion of hybrid wetland/chemical treatment projects within the Northern Everglades pursuant to section 373.4595(3)(b), Florida Statutes.

From the funds in Specific Appropriation 1398A, \$3,000,000 in nonrecurring funds is provided for the implementation of agricultural nonpoint source controls in the Okeechobee, Caloosahatchee, and St. Lucie River watersheds.

Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2216 through 2315, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriation 2246 through 2257, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by department employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Department of Economic Opportunity to the Regional Workforce Boards. Such transfers shall only occur if the department determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the department shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2246 through 2257, the Department of Economic Opportunity shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the department finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department shall notify the Executive Office of the Governor, the chair of the Senate Committee on Budget and the chair of the House Appropriations Committee.
