2012 Legislature

57 | to read:

58 | 282.201 State data center system; agency duties and
59 | limitations.—A state data center system that includes all
60 | primary data centers, other nonprimary data centers, and
61 | computing facilities, and that provides an enterprise
62 | information technology service as defined in s. 282.0041, is
63 | established.

64 | (1) INTENT.—The Legislature finds that the most efficient
65 | and effective means of providing quality utility data processing
66 | services to state agencies requires that computing resources be
67 | concentrated in quality facilities that provide the proper
68 | security, infrastructure, and staff resources to ensure that the
69 | state's data is maintained reliably and safely, and is
70 | recoverable in the event of a disaster. Efficiencies resulting
71 | from such consolidation include the increased ability to
72 | leverage technological expertise and hardware and software
73 | capabilities; increased savings through consolidated purchasing
74 | decisions; and the enhanced ability to deploy technology
75 | improvements and implement new policies consistently throughout
76 | the consolidated organization. Unless otherwise exempt by law,
77 | ~~Therefore~~ it is the intent of the Legislature that all agency
78 | data centers and computing facilities be consolidated into a
79 | primary data center ~~centers to the maximum extent possible by~~
80 | 2019.

81 | (2) AGENCY FOR ENTERPRISE INFORMATION TECHNOLOGY DUTIES.—
82 | The Agency for Enterprise Information Technology shall:

83 | (d) By October 1 of each year ~~beginning in 2011~~, provide
84 | recommendations to the Governor and Legislature relating to

85 changes to the schedule for the consolidations of state agency
 86 data centers as provided in subsection (4).

87 1. The recommendations must be based on the goal of
 88 maximizing current and future cost savings by:

89 a. Consolidating purchase decisions.†

90 b. Leveraging expertise and other resources to gain
 91 economies of scale.†

92 c. Implementing state information technology policies more
 93 effectively.†~~and~~

94 d. Maintaining or improving the level of service provision
 95 to customer entities.

96 2. The agency shall establish workgroups as necessary to
 97 ensure participation by affected agencies in the development of
 98 recommendations related to consolidations.

99 (e) Develop and establish rules relating to the operation
 100 of the state data center system which comply with applicable
 101 federal regulations, including 2 C.F.R. part 225 and 45 C.F.R.
 102 ~~The agency shall publish notice of rule development in the~~
 103 ~~Florida Administrative Weekly by October 1, 2011.~~ The rules must
 104 address:

105 1. Ensuring that financial information is captured and
 106 reported consistently and accurately.

107 2. Identifying standards for hardware, including standards
 108 for a shared, virtualized server environment, and operations
 109 system software and other operational software, including
 110 security and network infrastructure, for the primary data
 111 centers; requiring compliance with such standards in order to
 112 enable the efficient consolidation of the agency data centers or

113 computing facilities; and providing an exemption process from
 114 compliance with such standards, which must be consistent with
 115 paragraph (5) (b).

116 3. Requiring annual full cost recovery on an equitable
 117 rational basis. The cost-recovery methodology must ensure that
 118 no service is subsidizing another service and may include
 119 adjusting the subsequent year's rates as a means to recover
 120 deficits or refund surpluses from a prior year.

121 4. Requiring that any special assessment imposed to fund
 122 expansion is based on a methodology that apportions the
 123 assessment according to the proportional benefit to each
 124 customer entity.

125 5. Requiring that rebates be given when revenues have
 126 exceeded costs, that rebates be applied to offset charges to
 127 those customer entities that have subsidized the costs of other
 128 customer entities, and that such rebates may be in the form of
 129 credits against future billings.

130 6. Requiring that all service-level agreements have a
 131 contract term of up to 3 years, but may include an option to

 625 of the fiscal year and the same principles used to set rates for
 626 the fiscal year.
