At the end of existing proviso language, following Specific Appropriation 191, INSERT:

From the funds in Specific Appropriation 191, the Agency for Health Care Administration shall not procure a statewide-single source provider for a disposable incontinence medical supply program. To provide choice for beneficiaries, maximize program efficiencies, and cost savings within the Medicaid program, medical supplies shall continue to be provided by state licensed medical equipment companies. In addition, pursuant to ss. 409.961 through 409.985, F.S., no language may be introduced to limit the ability of Medicaid managed care plans to provide incontinence medical supplies during the term of the contracts for these services including any extensions. The agency shall seek any federal Medicaid waiver necessary to implement this provision.

Line item amendments are accepted as part of the amendatory process. However, due to the necessity of using computerized systems this may entail a different placement within a budget entity or the renumbering of the specific appropriation items.
