

14 plan must be submitted to and approved by the enforcing agency  
15 before ~~prior~~ to the issuance of a building permit for the  
16 construction of a threshold building. The purpose of the  
17 structural inspection plan is to provide specific inspection  
18 procedures and schedules so that the building can be adequately  
19 inspected for compliance with the permitted documents. The  
20 special inspector may not serve as a surrogate in carrying out  
21 the responsibilities of the building official, the architect, or  
22 the engineer of record. The contractor's contractual or  
23 statutory obligations are not relieved by any action of the  
24 special inspector. The special inspector shall determine that a  
25 professional engineer who specializes in shoring design has  
26 inspected the shoring and reshoring for conformance with the  
27 shoring and reshoring plans submitted to the enforcing agency. A  
28 fee simple title owner of a building, which does not meet the  
29 minimum size, height, occupancy, occupancy classification, or  
30 number-of-stories criteria which would result in classification  
31 as a threshold building under s. 553.71(12) ~~553.71(11)~~, may  
32 designate such building as a threshold building, subject to more  
33 than the minimum number of inspections required by the Florida  
34 Building Code.
