COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 132 creates two specialty license plates: the Fallen Law Enforcement Officers and the Florida Sheriffs Association. The bill establishes distribution of annual use fees, allows the Department of Highway Safety and Motor Vehicles (department) to develop and design the plates, and clarifies exemptions from the current moratorium for the issuance of new specialty license plates.

The bill also:

- extends the presale period for the St. Johns River specialty license plate.
- revises the distribution of annual use fees collected from the sale of the Challenger/Columbia specialty license plate.

II. Present Situation:

Specialty License Plates

Specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee for the privilege. Annual use fees ranging from \$15 to \$25, paid in addition to required license taxes and service fees, are distributed to an organization in support of a particular cause or charity signified in the plate's design and designated in statute. The

Legislature may create a specialty license plate under its own initiative or it can do so at the request of an organization.

Pre-Development Requirements

The sponsoring organization wishing to receive a specialty license plate is required to comply with the requirements of s. 320.0853, F.S., which include:

- describing the proposed specialty license, and submit a sample plate that conforms to the specifications set by the department;
- paying the \$60,000 processing fee which defrays the department's cost for reviewing the application and developing the specialty license plate, if authorized; and
- providing a marketing strategy outlining short-term and long-term marketing plans and a projected financial analysis outlining the anticipated and planned revenues from the sale of the requested specialty license plate.

The approved specialty license plate organization must presell a minimum of 1,000 vouchers within 24 months before the department can begin manufacturing the specialty license plate. If, at the end of the 24-month presale period, the minimum sales requirements have not been met, the department will de-authorize the specialty plate, discontinue development, and discontinue issuance of the presale voucher.

A March 2011 decision from the Florida Supreme Court declared that the approval process established in s. 320.0853, F.S., place “unfettered discretion in the hands of government officials to grant or deny access to public forum.”

Moratorium

Currently, there is a moratorium on the issuance of new specialty license plates. Section 45, Ch. 2008-176, L.O.F., as amended by s. 21, Ch. 2010-223, L.O.F., provides that “[e]xcept for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008, and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, F. S., prior to October 1, 2008, or which was included in a bill filed during the 2008 Legislative Session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, F.S., between July 1, 2008, and July 1, 2014.”

Fallen Law Enforcement Officers

On average, one law enforcement officer is killed in the line of duty somewhere in the United States every 57 hours. Since the first known line-of-duty death in 1791, more than 19,000 U.S. law enforcement officers have made the ultimate sacrifice.¹ The Memorial Fund serves as a nationwide clearinghouse of information and statistics on law enforcement line-of-duty deaths.²
