Senator Soto moved the following:

Senate Amendment

Delete lines 215 - 223

and insert:

the department shall consider groundwater travel time and groundwater flow levels to the spring, hydrogeology, and nutrient load. The delineation of spring protection and management zones must be completed by July 1, 2015. In conjunction with delineating a spring protection and management zone for an Outstanding Florida Spring, the department shall adopt by rule, pursuant to ss. 120.536(1) and 120.54, maps and

953064

12 legal descriptions that depict the delineated spring protection
13 and management zone or zones for that spring as soon as
14 practicable but no later than July 1, 2016. The department may
15 extend delineated spring protection and management zones beyond
16 any district boundary and beyond a springshed when necessary to
17 reflect impact upon a spring from reduced aquifer levels and
18 flows.
