**I. Summary:**

SB 1676 updates Florida's corporate Income Tax Code by adopting the Internal Revenue Code as in effect on January 1, 2014.

The Revenue Estimating Conference (REC) estimates that this bill will not have a fiscal impact.

**II. Present Situation:**

Florida imposes a 5.5 percent tax on the taxable income of corporations and financial institutions doing business in Florida. The determination of taxable income for Florida tax purposes begins with the taxable income used for federal income tax purposes. This means that a corporation paying taxes in Florida receives the same treatment in Florida as is allowed in determining its federal taxable income.

Florida maintains this relationship with the federal Internal Revenue Code by each year adopting the federal Internal Revenue Code as it exists on January 1 of the year. By doing this, Florida adopts any changes that were made in the previous year to the determination of federal taxable income.

**III. Effect of Proposed Changes:**

The bill updates Florida's corporate Income Tax Code to reflect changes in the federal Internal Revenue Code.

The bill takes effect upon becoming a law and operates retroactively to January 1, 2014.
