Appropriations Subcommittee on General Government (Bradley)
recommended the following:

Senate Amendment

Delete lines 365 - 378
and insert:

(f) The department shall incorporate standards established
by the agency which are designed to reduce costs, increase
productivity, or improve services into the requirements for
procuring information technology products and services. The
agency shall review all information technology purchases made by
state agencies which have a total cost of \$250,000 or more,

781544

11 unless a purchase is specifically mandated by the Legislature,
12 for compliance with the standards established pursuant to this
13 section.

14 (g) The agency shall participate as an evaluator or
15 negotiator and collaborate with the department in conducting
16 procurements for information technology products and services
17 that will be used by multiple state agencies, and collaborate
18 with the department in information technology resource
19 acquisition planning.
