Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 722 reduces the excise tax rate imposed on aviation fuel, kerosene, and aviation gasoline, effective July 1, 2018, from 6.9 cents to 5.4 cents per gallon.

Effective July 1, 2018, the bill repeals the existing credit or refund of the current 6.9 cents per gallon excise tax paid for aviation fuel delivered by a licensed wholesaler or terminal supplier to an air carrier that offers transcontinental jet service and increases the air carrier's Florida workforce by more than 1,000 percent and by 250 or more full-time equivalent (FTE) positions since January 1, 1996.

Effective July 1, 2015, the bill removes the word "transcontinental" from the existing aviation fuel tax credit or refund of the current 6.9 cents per gallon excise tax paid for aviation fuel by a licensed wholesaler or terminal supplier to an air carrier that offers jet service. It is anticipated that at least one additional air carrier may become credit or refund-eligible with this modification, until the aviation fuel tax credit or refund is repealed on July 1, 2018.

The bill requires the Florida Transportation Commission to conduct a study of intrastate air service and flight training and education, which must be submitted in a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 13, 2015. The study must also compare and analyze incentives provided to the commercial airline industry in this and other states.

While certain provisions of this bill have been scored by the Revenue Estimating Conference, this bill has not been scored by the conference.

The bill provides an effective date of July 1, 2015, with the exceptions noted above.

II. Present Situation:

Section 206.9825(1)(a), F.S., generally imposes an excise tax of 6.9 cents per gallon on every gallon of aviation fuel, kerosene, and aviation gasoline sold or brought into this state for use.¹ State taxes are imposed on net gallons when aviation fuel is:

- Removed from the terminal at the rack.
- Imported into Florida by means other than the bulk transfer system (e.g., pipelines and vessels) or by means of the bulk transfer system, and the importer of record is not licensed as a terminal supplier or importer.
- Sold to an unlicensed person unless there was a prior taxable removal, entry, or sale of the fuel.²

Section 206.9825(1)(b), F.S., authorizes any licensed³ wholesaler or terminal supplier that delivers aviation fuel to an air carrier offering transcontinental jet service and increases its Florida workforce by more than 1,000 percent, and by 250 or more full-time equivalent employee positions after January 1, 1996, to receive a credit or refund of the 6.9 cents per gallon tax. If the number of full-time equivalent employees created or added to the air carrier's Florida workforce falls below 250 before July 1, 2001, the exemption taken by credit or refund does not apply during the period in which the carrier has fewer than the 250 additional employees.⁴ This credit or refund results in certain air carriers being able to buy aviation fuel tax free.

This credit or refund was first authorized in 1996⁵ and expired by its terms on July 1, 2001. Following the events of September 11, the Legislature re-enacted the exemption but did not include a sunset provision.⁶ Because the current language is tied to job creation for the five years after January 1, 1996, an air carrier that actually has been reducing its workforce since then could qualify for a refund because it employed more workers than it did before January 1, 1996, in numbers still sufficient to meet the thresholds. The Florida Department of Revenue (FDOR) provided the following information relating to entities receiving the credit or refund:

Sales of Aviation Fuel to Commercial Air Carriers⁷

¹ Certain exemptions are authorized for kerosene used for home heating or cooking purposes. See subsection (2)(b),(c), and (d); and subsections (4) and (5) of s. 206.9825, F.S. Aviation fuel purchased by the United States is also exempt from the tax under s. 206.9875, F.S.

² See Florida Department of Revenue website available at <http://dor.myflorida.com/dor/taxes/fuel/> (last visited Feb. 21, 2015) See also ss. 206.87(2) and 206.872, F.S.

³ Commercial air carriers must obtain an aviation fuel tax license and comply with reporting requirements under s. 206.9865, F.S.

⁴ This exemption does not apply to aviation gasoline. See s. 206.9825(3), F.S.

⁵ Chapter 1996-323, s. 21, Laws of Fla.

⁶ Chapter 2002-218, s. 10, Laws of Fla.

⁷ E-mail from the Florida Department of Revenue to committee staff (Mar. 2, 2015) (on file in the Senate Committee on Transportation). The table does not include sales from fixed based operators or jobbers to commercial air carriers, all returns

July 2013 – June 2014

Air Carriers (Credit or Refund-Eligible Carriers are Shaded)	Sum of Gallons	% of Total Sales	Tax Due (Total gallons multiplied by tax rate, not reduced by credits or refunds)
AMERICAN AIRLINES INC.	202,050,355.00	22.24%	\$13,941,474.50
SOUTHWEST AIRLINES COMPANY	142,227,745.00	15.66%	\$9,813,714.41

ABX AIR INC.	11,982.00	0.00%	\$826.76
PROFESSIONAL FLIGHT TRANSPORT INC.	11,002.00	0.00%	\$759.14
AIR TRANSPORT INTERNATIONAL LLC	3,446.00	0.00%	\$237.77
Total	908,471,713.00	100.00%	\$62,684,548.20

After deducting the General Revenue service charge, administrative costs, and the air carrier credits or refunds under s. 206.9855, F.S.,⁸ the proceeds are ultimately distributed monthly to the State Transportation Trust Fund.⁹ Deposits into the State Transportation Trust Fund from the source for the last four years were:

- \$37.6 million in 2011.
- \$13.4 million in 2012.
- \$40.7 million in 2013.
- \$35.5 million in 2014.

have not been processed through July 2014, and sales reports on unworked returns are not listed on this report, and the tax due is not reduced by the collection allowance.

⁸ That section authorizes a refund to for-hire air carriers of not more than 0.6 percent of the wages paid by the carrier to employees located or based within Florida and who are covered by the provisions of ch. 443, F.S., relating to reemployment assistance.

⁹ See s. 206.9845, F.S.

III. Effect of Proposed Changes:

The bill reduces the current tax rate for aviation fuel, kerosene, and aviation gasoline from 6.9 cents to 5.4 cents per gallon effective July 1, 2018.

Effective July 1, 2018, the bill eliminates the existing credit or refund of the current 6.9 cents per gallon excise tax paid for aviation fuel delivered by a licensed wholesaler or terminal supplier to an air carrier that offers transcontinental jet service and increases the air carrier's Florida workforce by more than 1,000 percent and by 250 or more FTE positions since January 1, 1996.

Effective July 1, 2015, the bill removes the word "transcontinental" from the existing aviation fuel tax credit or refund of the current 6.9 cents per gallon excise tax paid for aviation fuel by a licensed wholesaler or terminal supplier to an air carrier. It is anticipated that at least one additional air carrier may become credit or refund-eligible with this modification, until the aviation fuel tax credit or refund is repealed on July 1, 2018.

The bill requires the Florida Transportation Commission to conduct a study of intrastate air service and flight training and education, which must be submitted in a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 13, 2015. The study must also compare and analyze incentives provided to the commercial airline industry in this and other states.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not estimated the impact of PCS/CS/SB 722. The expansion of the existing aviation fuel tax credit or refund is expected to have a significant negative fiscal impact on state revenues through July 1, 2018.

B. Private Sector Impact:

Air carriers that become eligible to receive the existing aviation fuel tax credit or refund will realize a positive fiscal impact beginning on July 1, 2015 through July 1, 2018.

Air carriers paying the current aviation fuel tax rate of 6.9 cents per gallon will realize a positive fiscal impact as a result of the reduction of that rate to 5.4 cents per gallon. Those carriers currently receiving the exemption through a credit or refund will realize a negative fiscal impact, offset by the reduced tax rate.¹⁰ These private sector impacts would begin on July 1, 2018.

C. Government Sector Impact:

The Department of Transportation advises it expects an indeterminate fiscal impact and notes that “[t]o the extent the tax revenue goes down, projects currently programmed in the work plan may be impacted.”¹¹

The Florida Transportation Commission is required to conduct a study of intrastate commercial air service and flight training and education. This study must also include a comparison and analysis of incentives provided to the commercial airline industry in this and other states. The cost of conducting this study has not been estimated.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 206.9825 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development:

The committee substitute:

- Delays the reduction in the aviation fuel tax rate until July 1, 2018;
- Repeals the existing aviation fuel tax credit or refund effective July 1, 2018;
- Requires the Florida Transportation Commission, rather than the Department of Economic Opportunity, to conduct a study of intrastate commercial air service and flight training and education; and
- Expands the existing aviation fuel tax credit or refund effective July 1, 2015.

¹⁰ The impact of the loss of the exemption will also be somewhat offset by the refund to carriers under s. 206.9855, F.S. All carriers are eligible for this refund, but for the fully-exempt carriers there are no taxes to refund. For the period from 2010 through 2014, this offset would have averaged \$3.3 million.

¹¹ Florida Department of Transportation, *Senate Bill 722 Fiscal Analysis* (on file with the Senate Committee on Transportation).

CS by Finance and Tax on March 30, 2015:

The CS delays the reduction in the aviation fuel tax rate until July 2017 and replaces the existing exemption for certain air carriers with an exemption for an air carrier or carriers that has the greatest growth during a state fiscal year, beginning July 1, 2017, as determined by specified criteria. It also requires the Department of Economic Opportunity to conduct a study of intrastate commercial air service and flight training and education.

B. Amendments:

None.
