Following Specific Appropriation 1590A, INSERT:

From the funds in Specific Appropriation 1590A, \$350,000 in nonrecurring funds from the General Revenue Fund is provided for engineering and design assistance for local governments that are required to relocate roads, bridges, or other access structures as a result of the implementation of the South Florida Water Management District 50-year capital improvement plan. Priority funding shall be given to access relocation projects that are part of the rehabilitation of Central and South Florida Flood Control Project structures that have been evaluated and determined to no longer provide sufficient levels of service for either flood protection or water supply and are deemed to be well past their life expectancy.

Line item amendments are accepted as part of the amendatory process. However, due to the necessity of using computerized systems this may entail a different placement within a budget entity or the renumbering of the specific appropriation items.
