Senator Bradley moved the following:

**Senate Amendment (with title amendment)**

Delete lines 377 - 386

and insert:

report is not approved by the corps and submitted for  
congressional approval by October 1, 2018, or the  
post-authorization change report has not received congressional  
approval by December 31, 2019, the district, unless granted an  
extension by the Legislature, must request the corps to initiate  
a post implementation report, as defined in s. 373.470, for the  
EAA reservoir project and the district may proceed with the

921088

12 implementation of CEPP project components in accordance with the  
13 final project implementation report.

14 (b) The district, when developing the project  
15 implementation report, must focus on the goals of the EAA  
16 reservoir project as identified in CERP, which include providing  
17 additional water storage and conveyance south of the
