

**HOUSE OF REPRESENTATIVES
FINAL BILL ANALYSIS**

BILL #:	HB 1147	FINAL HOUSE FLOOR ACTION:		
SUBJECT/SHORT TITLE	Central Broward Water Control District, Broward County	115	Y's 1	N's
SPONSOR(S):	Jenne and others	GOVERNOR'S ACTION: Approved		
COMPANION BILLS:	N/A			

SUMMARY ANALYSIS

HB 1147 passed the House on April 27, 2017, and subsequently passed the Senate on May 4, 2017.

The bill removes the requirement that the board of commissioners act by resolution in addition to a majority vote when making a determination or taking action on a matter.

The Central Broward Water Control District (formerly known as the Napoleon B. Broward Drainage District) is an independent special district in Broward County created for the purpose of reclaiming the lands within its boundaries and to provide drainage and water management services.

The Economic Impact Statement submitted with the bill projects it will have no fiscal impact.

The bill was approved by the Governor on June 6, 2017, ch. 2017-208, L.O.F., and became effective on that date.

I. SUBSTANTIVE INFORMATION

A. EFFECT OF CHANGES:

Current Situation

A “special district” is a “local unit of special purpose...government within a limited boundary, created by special law, special act, local ordinance, or by rule of the Governor and Cabinet.”¹ Special districts are created to provide a variety of services, such as mosquito control,² children’s services,³ fire control and rescue,⁴ or drainage control.⁵

An “independent special district” is characterized by having a governing board comprised of members which are not identical in membership to, nor all appointed by, nor any removable at will by, the governing body of a single county or municipality, and the district budget cannot be affirmed or vetoed by the governing body of a single county or municipality. Additionally, a district that includes more than one county is an independent special district unless the district lies wholly within the boundaries of a single municipality.⁶

Special districts are governed generally by ch. 189, F.S, the Uniform Special District Accountability Act (Act). The Act addresses provisions governing special districts, such as formation, governance, administration, supervision, merger, and dissolution of special districts, unless otherwise expressly provided in law.

Current law requires independent special district charters to contain provisions related to the:⁷

- Purpose of the district;
- Powers, functions, and duties of the district regarding taxation, bond issuance, other revenue-raising capabilities, budget preparation and approval, liens and foreclosure of liens, tax deeds and certificates, and contractual agreements;
- Methods for establishing the district;
- Method for amending the charter of the district;
- Membership and organization of the governing body, including administrative duties and maximum compensation of the members;
- Applicable financial disclosure, noticing and reporting requirements;
- Procedures and requirements for issuing bonds, if applicable;
- Procedures for conducting district elections or referenda required and the qualifications of an elector of the district;
- Millage rate, if applicable;
- Method for collecting non-ad valorem assessments, fees, or service charges;
- Planning requirements; and
- Geographic boundary limitations.

Current law does not require specific rules of procedure within the charter provisions when making a determination or taking action on matters before the board.

⁶ Section 189.012(3), F.S.

⁷ Section 189.031(3), F.S.

The Central Broward Water Control District

The Central Broward Water Control District (district) (formerly known as the Napoleon B. Broward Drainage District⁸) is an independent special district in Broward County created by special act for the purpose of reclaiming the lands within its boundaries and to provide drainage and water management services.⁹ All prior special acts relating to the district were codified, reenacted, amended, and repealed, and the district charter codified by ch. 98-501, L. O. F.

The district is governed by a board of commissioners consisting of six members elected on a nonpartisan basis, by qualified electors residing within each district zone.¹⁰ The district is supported by a non-ad valorem assessment based on each acre or fraction thereof.¹¹ Currently, the commissioners are required to act by both resolution and the affirmative votes of a majority to make any determination or effect any action.¹²

The district is subject to the applicable provisions of ch. 298, F.S., "Drainage and Water Control."

Effect of the Bill

The bill removes the requirement that the board act in all matters by resolution, requiring only a majority vote to take or effect any action.

The Economic Impact Statement submitted with the bill projects it will have no fiscal impact.
