COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 368 creates 19 honorary designations of transportation facilities around the state and directs the Florida Department of Transportation to erect suitable markers designating the transportation facilities. The bill also revises a previously enacted honorary designation to correct a spelling error.

The expected fiscal impact to install the designation markers required under the bill is \$20,000.

II. Present Situation:

Section 334.071, F.S., provides that legislative designations of transportation facilities are for honorary or memorial purposes, or to distinguish a particular facility. Such designations may not be construed as requiring any action by local governments or private parties regarding the changing of any street signs, mailing addresses, or 911 emergency telephone number system listings, unless the legislation specifically provides for such changes.¹

When the Legislature establishes road or bridge designations, the Florida Department of Transportation (FDOT) is required to place markers only at the termini specified for each highway segment or bridge designated by the law creating the designation, and to erect any other markers it deems appropriate for the transportation facility.²

¹ Section 334.071(1), F.S.

² Section 334.071(2), F.S.

The FDOT may not erect the markers for honorary road or bridge designations unless the affected city or county commission enacts a resolution supporting the designation. When the designated road or bridge segment is located in more than one city or county, each affected local government must pass resolutions supporting the designations prior to installation of the markers.³

III. Effect of Proposed Changes:

Section 1 of the bill creates the following 19 honorary transportation facility designations around the state and directs the FDOT to erect suitable markers:
