I. Summary:

SB 440 expands the list of forms of identification which a notary public may rely on in notarizing a signature on a document to include a veteran health identification card issued by the U.S. Department of Veterans Affairs.

II. Present Situation:

Notaries Public

A notary public is a public officer appointed and commissioned by the Governor whose function is to administer oaths or affirmations; to take acknowledgements; to attest to the trueness of photocopies of certain documents; and to perform other duties specified by Florida law.¹

Chapter 117, F.S., provides requirements and guidelines for notaries and authorizes the Governor to appoint as many notaries as necessary. A notary must be at least 18 years of age, maintain legal residence in the state throughout the commission, and possess the ability to read, write, and understand English.² The application for appointment must include a \$25 fee, a \$10 commission fee required by s. 113.01, F.S., and a \$4 surcharge, appropriated to the Executive Office of the Governor to be used for notary education and assistance.³

Once appointed, a notary serves a four-year term.⁴ During the term of office, a notary must post and maintain a \$7,500 bond payable to any individual harmed as a result of a notary's breach of duty. The bond must be approved and filed with the Department of State and executed by a

If a surety company pays an individual harmed by the notary for breach of duty, the company must notify the Governor of the payment and the underlying circumstances.⁵ No person may be automatically reappointed as a notary. The application process must be completed regardless of whether an applicant has previously served as a notary.⁶

A notary is authorized by law to perform six functions:

- Take acknowledgements of deeds and other instruments of writing for record;⁸
- Attest to photocopies of certain documents;⁹
- Solemnize marriage;¹⁰
- Verify vehicle identification numbers;¹¹ and
- Certify the contents of a safe-deposit box.¹²

When notarizing a signature a notary either takes an acknowledgement¹³ from or administers an oath¹⁴ or affirmation¹⁵ to the document signer. A notary public may not notarize a signature on a document unless he or she personally knows, or has satisfactory evidence, that the person whose signature is to be notarized is the individual described in and who is executing the instrument.¹⁶ “Satisfactory evidence” means the absence of any information, evidence, or other circumstances which would lead a reasonable person to believe that the person whose signature is to be notarized is not the person he or she claims, and may be any one of the following:¹⁷

- The sworn written statement of one credible witness personally known to the notary public or the sworn written statement of two credible witnesses whose identities are proven to the notary public upon the presentation of satisfactory evidence that each of the following is true:
 - That the person whose signature is to be notarized is the person named in the document;
 - That the person whose signature is to be notarized is personally known to the witnesses;
 - That it is the reasonable belief of the witnesses that the circumstances of the person whose signature is to be notarized are such that it would be very difficult or impossible for that person to obtain another acceptable form of identification;
 - That it is the reasonable belief of the witnesses that the person whose signature is to be notarized does not possess any of the identification documents specified below; and

When notarizing a signature, a notary public must complete a notarial certificate.¹⁸ Among other required elements, a notary must specify on the notarial certificate the specific type of identification the notary public relied upon in identifying the signer, either based on personal knowledge or satisfactory evidence specified in s. 117.05(5), F.S.¹⁹
