## I. Summary:

SB 524 expressly exempts from the sales and use tax those fingerprint services that are part of the application to obtain a concealed weapons and concealed firearms license.

The Revenue Estimating Conference estimates this bill will not have a fiscal impact on state or local government revenues.

Under current law, fingerprint services performed by a law enforcement agency, the Department of Agriculture and Consumer Services, or an approved tax collector to obtain a concealed weapons or concealed firearms license are not taxable transactions.<sup>1</sup>

The bill takes effect July 1, 2017.

## II. Present Situation:

### Florida Sales and Use Tax

Section 212.05(1)(i)1., F.S., levies a tax on detective, burglar, and other protection services. The law provides that these services are performed by industries classified under the 2007 North American Industry Classification System (NAICS) codes 561611, 561612, 561613, and 561621. A business establishment is classified under one NAICS code based on the establishment's primary economic activity. Fingerprint services are classified under code 561611 along with detective agencies, private investigation services, lie detection services, and other like services.<sup>2</sup>

Concealed weapon and concealed firearm applicants are required by s. 790.06(5), F.S., to submit a full set of fingerprints administered by a law enforcement agency, the Division of Licensing of the Department of Agriculture and Consumer Services, or an approved tax collector, along with other personal identifying information required by federal law to process fingerprints.

Section 790.062, F.S., provides military members and veterans of the United States Armed Forces additional options to obtain fingerprint services; either by military provost or other military unit charged with law enforcement duties.

In 1994, the Department of Revenue issued a Technical Assistance Advisement (TAA) in response to a taxpayer requesting guidance on whether criminal history background check services provided by the Florida Department of Law Enforcement and required by state law are subject to sales tax. The department's answer was no, basing its decision on the fact that the background check, and the associated fee or charge, was mandated by the state.<sup>3</sup>

Further, fingerprint services provided by a law enforcement officer who is performing approved duties in his capacity as a law enforcement officer are not subject to sales tax.<sup>4</sup>

The Revenue Estimating Conference's impact analysis for this bill states that, "where the fingerprinting is performed by staff in the Tax Collector's office or by staff of the Department of Agriculture and Consumer Services, the fee is not a part of the sales price as it is a required governmental fee."<sup>5</sup>

### **License and Fingerprint Processing Fees**

The table below displays the license fees for new and renewal applications, fingerprint processing fees, and additional statutorily defined fees a law enforcement agency or an approved tax collector may require if they perform these services.

Section 790.06, F.S., requires an applicant for a license to carry a concealed weapon to submit a full set of fingerprints administered by a law enforcement agency, the Division of Licensing of the Department of Agriculture and Consumer Services or an approved tax collector. If the applicant is a member or veteran of the United States Armed Forces, the fingerprinting may have been administered by a military provost or other military unit charged with law enforcement duties.<sup>6</sup>
