## II. Present Situation:

### Department of Economic Opportunity

The Department of Economic Opportunity (DEO) is the primary state agency responsible for implementing the state's goals and policies related to economic development, workforce development, community planning and development, and affordable housing.<sup>1</sup> Within the DEO, the Division of Strategic Business Development provides support for attracting out-of-state businesses, promoting the creation and expansion of in-state businesses, furthering economic development across the state, and facilitating the state's economic development partnerships.

The DEO partners contractually with Enterprise Florida, Inc. (EFI), the Florida Tourism Industry Marketing Corporation (VISIT FLORIDA), the Florida Sports Foundation, Space Florida, CareerSource Florida, Inc., (CareerSource Florida) and the Florida Institute for Commercialization of Public Research.<sup>2</sup> Additionally, the DEO has community partnerships with the film and entertainment industry, Florida's seaports, economic development councils (EDCs), chambers of commerce, and other economic development organizations. The DEO also facilitates the deliberative processes regarding numerous state economic development incentives, maintains the Economic Development Incentives Portal, and develops the Annual Incentives Report in coordination with EFI.<sup>3</sup>

### Enterprise Florida, Inc.

EFI is a public-private partnership between Florida's business and government leaders and is the principal economic development organization for Florida.<sup>4</sup> Initially created in 1992, EFI had only two responsibilities: to assist in the state's economic development efforts and to develop a strategic plan to improve the state's economic development.

Important legislative updates have occurred frequently since EFI's inception, including the 1996 legislation that created the Office of Tourism, Trade, and Economic Development, which recognized EFI as the lead economic development entity (broadening its responsibilities) and required an incremental increase in private funding of EFI operations.<sup>5</sup> Legislative changes from the 2011 governmental reorganization include establishing EFI as a direct-support organization

to the DEO.<sup>6</sup> Currently, EFI also serves as the state's economic development strategist, business recruiter, and facilitator of public-private investment for business ventures.

EFI is statutorily required to maintain at least five divisions related to the following areas:

- International Trade and Business Development;
- Business Retention and Recruitment;
- Tourism Marketing;
- Minority Business Development; and
- Sports Industry Development.<sup>7</sup>

Additionally, EFI administers the Florida Development Finance Corporation, the Florida Small Business Technology Growth Program, and the Florida Opportunity Fund. EFI is supported in its tourism marketing efforts by VISIT FLORIDA, and in its sports industry development by the Florida Sports Foundation. EFI is also required to coordinate state workforce policy with CareerSource Florida, and assist the Department of Economic Opportunity with the statutorily required economic development strategic blueprint. EFI is the main source of contact and initiation for businesses in regards to the state's economic development incentive programs.<sup>8</sup>

A board of directors (of at least 19 members) oversees EFI, which is comprised of appointed members and a group of investors representing notable corporations in Florida. Appointed members include all four members of the Florida Cabinet, the Commissioner of Education, the chairperson of the board of directors of CareerSource Florida, the Secretary of State, and 12 private sector members, six of whom are appointed by the Governor, three by the President of the Senate, and three by the Speaker of the House of Representatives.<sup>9</sup> The Governor serves as the chairperson of EFI's board of directors.<sup>10</sup> The board may also appoint at-large members from the private sector. Additionally, one member from each chamber of the Legislature is appointed by its respective leader to serve as ex officio board members. The board of directors is required to meet at least four times a year, and currently has 64 members.<sup>11</sup> The board of directors also appoints a president, who serves at the pleasure of the Governor, and is known as the "secretary of commerce."<sup>12</sup>

### ***Recent Changes and Reported Information***

EFI's board of directors adopted several recommendations from an internal review (conducted by DTW Strategies, Tallahassee) in June 2016.<sup>13</sup> Some of the recommendations were:

- Consolidating and redesigning EFI's organizational structure;

### **VISIT FLORIDA**

VISIT FLORIDA serves as Florida's statewide destination marketing organization, representing the state's entire tourism industry.<sup>16</sup> VISIT FLORIDA is a 501(c)(6) not-for-profit corporation and a subcontractor of EFI.<sup>17</sup> VISIT FLORIDA's primary responsibilities include:

- Administering domestic and international advertising campaigns;
- Conducting research on tourism and travel trends;
- Conducting domestic and international marketing activities; and
- Managing the state's five welcome centers.

VISIT FLORIDA also administers a number of small grant programs that provide organizations and state agencies funding for certain tourism-related activities. Grant funds total less than \$2 million per year.<sup>18</sup>

VISIT FLORIDA operates the state's five official welcome centers under contract with EFI.<sup>19</sup> Four welcome centers are located along the main travel corridors leading into the state and the fifth welcome center operates in the Capitol Complex in Tallahassee. The Department of Transportation owns the buildings that house the four highway welcome centers, but the centers are staffed and managed by VISIT FLORIDA.

#### **IV. Constitutional Issues:**

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

##### **Separation of Powers in Florida**

Section 3, Article II of the State Constitution separates the state government into three branches – the legislative, the executive, and the judicial. The “separation-of-powers doctrine” encompasses two fundamental prohibitions. The first is that no branch may encroach upon the powers of the other; the second is that no branch may delegate to another branch its constitutionally assigned power.<sup>42</sup> The legislative power includes the authority to determine the public interest and formulate public policy, to make law, and to appropriate state funds.<sup>43</sup>

Section 3, Article II of the State Constitution is the basis for invalidating laws delegating legislative or judicial power to executive agencies, and laws by which the Legislature encroaches upon executive or judicial powers. This bill provides that if specified members of the Legislature object to certain contracts proposed by entities adjunct to an agency of the executive branch, the contracts may not be entered into. A determination of whether the authority contained in these provisions encroaches upon duties delegated to the executive branch would require a legal challenge and a ruling by a judge.

**V. Fiscal Impact Statement:****A. Tax/Fee Issues:**

The bill reduces revenues deposited in the Displaced Homemaker Trust Fund by approximately \$1.2 million annually by reducing the surcharge on marriage license applications from \$59.50 to \$52.00. Historically, these revenues have funded the Displaced Homemaker Program, which is repealed in this bill.

**B. Private Sector Impact:**

Entities currently contracting with DEO to provide services through the Displaced Homemaker Program will no longer receive funding from the state under the program. These same services may be obtained through existing local CareerSource Centers.

The cost for the issuance of a marriage license will be reduced from \$59.50 to \$52.00.

Although the Florida Job Growth Grant Fund is prohibited from being used for the exclusive benefit of any single company, corporation, or business entity, broad benefits to Florida individuals, communities, and businesses related to needed public infrastructure projects and workforce training are likely to be seen to enhance economic recovery in specific regions of the state, enhance economic diversification, and enhance targeted industries.

**C. Government Sector Impact:**

The \$75 million recurring redirection of revenue from the SEED Trust Fund to the General Revenue has a positive impact to the General Revenue Fund; however, it has a net zero impact on state funds.

The bill provides a \$76 million appropriation to the DEO to enter into a contract with Visit Florida. Of this amount, \$26 million is a nonrecurring appropriation from the SEED Trust Fund; \$26 million is a recurring appropriation from the SEED Trust Fund; and \$24 million is a recurring appropriation from the Tourism Promotion Trust Fund.

The bill provides a recurring appropriation of \$16 million, \$9.4 million from the SEED Trust Fund and \$6.6 million from the Florida International Trade and Promotion Trust Fund, to DEO to enter into a contract with Enterprise Florida, Inc. (EFI). The appropriation is specifically for operational purposes and to maintain its offices, but excludes expenditures on any incentive tools or programs unless explicitly authorized by the bill. Of the appropriated funds from the Florida International Trade and Promotion Trust Fund, EFI is directed to allocate \$3.6 million for international programs, \$2.1 million to maintain Florida's international offices, and \$1 million to continue the Florida Export Diversification and Expansion Programs.

Additionally, the bill provides an \$85 million nonrecurring appropriation for the Florida Job Growth Grant Fund. Of this amount, \$60 million is provided from the SEED Trust Fund and \$25 million from the State Transportation Trust Fund (STTF). The bill

authorizes the Executive Office of the Governor to process budget amendment(s) to provide a \$40 million non-operating transfer of funds from the STTF to the SEED Trust Fund to support expenditures for the Florida Job Growth Grant Fund. The bill further authorizes that any unspent appropriations for the Florida Job Growth Grant Fund may be carried forward and used for up to five years.

**860238 by Commerce and Tourism on June 7, 2017:**

The amendment makes changes to the State Economic Enhancement and Development Trust Fund, by:

- Authorizing the DEO to make payments from the trust fund after an independent third party audit determines that an applicant has satisfied contract agreements and the DEO determines that the applicant meets any performance requirements and is eligible to receive payments;
- Directing the DEO to determine within 15 days after each calendar quarter what amount of money in the trust fund is associated with any terminated or expired Quick Action Closing Fund agreements and revert any such money to where it was originally appropriated;
- Requiring money in the trust fund to be managed and invested consistent with keeping the money being available to make Quick Action Closing Fund payments;

- Requiring the DEO to return any money held in escrow related to Quick Action Closing Fund agreements to be returned to the State Treasury by September 1, 2017, which will be deposited into the SEED Trust Fund; and
- Authorizing money in the trust fund to be appropriated to make payments related to Quick Action Closing Fund agreements.

Additionally, the amendment appropriates \$106,746,279 for FY 2017-18, from the money formerly held in escrow, to the DEO to make payments related to Quick Action Closing Fund agreements. The amendment authorizes any appropriated money not disbursed by June 30, 2018 to carry forward until all authorized projects are fully paid. The amendment requires that any amount left in the trust fund at the end of any fiscal year will remain in the trust fund and be available to carry out the purposes of the trust fund.
