Amendment No.

17 (2) Mammography reports; results.-Each facility that
18 performs mammography shall send a summary of a patient's
19 mammography report to each patient in accordance with 21 C.F.R.
20 s. 900.12(c). If a facility determines that a patient has

22 include the following notice:

24 Dense breast tissue is relatively common and is found in
25 approximately 50 percent of women. The presence of dense breast
26 tissue can make it more difficult to detect some abnormalities
27 in the breast and may also be associated with an increased risk
28 of breast cancer. This information about the results of your
29 mammogram is given to you to raise your awareness. A report of
30 your results was sent to your health care provider. Further
31 recommendations may be added at the discretion of the
32 interpreting radiologist. Please be aware that additional
33 screening studies may not be covered by your insurance."

34 (a) This subsection does not create a duty, standard of
35 care, or other legal obligation beyond the duty to provide
36 notice as set forth in this subsection.

37 (b) This subsection does not require a notice that is
38 inconsistent with the federal Mammography Quality Standards Act
39 or any regulation promulgated pursuant to that act.
