54 the medical history of the patient.

55 2. Diagnosed the patient with at least one qualifying  
56 medical condition.

58 likely outweigh the potential health risks for the patient, and  
59 such determination must be documented in the patient's medical  
60 record. If a patient is younger than 18 years of age, a second  
61 physician must concur with this determination, and such  
62 concurrence must be documented in the patient's medical record.

78 certification, including the patient's qualifying condition and  
79 the dosage not to exceed the daily dose amount determined by the  
80 department, the amount and forms of marijuana authorized for the  
81 patient, and any types of marijuana delivery devices needed by  
82 the patient for the medical use of marijuana.

84 made to the original physician certification to reflect such  
85 change.

90 the patient for medical use of marijuana each time the qualified  
91 physician issues a physician certification for the patient,  
92 which shall be maintained in the patient's medical record. The  
93 patient, or the patient's parent or legal guardian if the  
94 patient is a minor, must sign the informed consent acknowledging  
95 that the qualified physician has sufficiently explained its  
96 content. The qualified physician must use a standardized  
97 informed consent form adopted in rule by the Board of Medicine  
98 and the Board of Osteopathic Medicine, which must include, at a

897266

99 minimum, information related to:

108 e. The potential effect that marijuana may have on a  
109 patient's coordination, motor skills, and cognition, including a  
110 warning against operating heavy machinery, operating a motor  
111 vehicle, or engaging in activities that require a person to be  
112 alert or respond quickly.

113 f. The potential side effects of marijuana use, including  
114 the negative health risks associated with smoking marijuana.

115 g. The risks, benefits, and drug interactions of marijuana.

116 h. That the patient's de-identified health information  
117 contained in the physician certification and medical marijuana  
118 use registry may be used for research purposes.

119 (b) If a qualified physician issues a physician  
120 certification for a qualified patient diagnosed with a  
121 qualifying medical condition pursuant to paragraph (2)(k), the  
122 physician must submit the following to the applicable board  
123 within 14 days after issuing the physician certification:

126 as the conditions in paragraphs (2)(a)-(j).

127 2. Documentation that establishes the efficacy of marijuana

897266

128 as treatment for the condition.

129 3. Documentation supporting the qualified physician's  
130 opinion that the benefits of medical use of marijuana would  
131 likely outweigh the potential health risks for the patient.

132 4. Any other documentation as required by board rule.

133

134 The department must submit such documentation to the Consortium  
135 ~~Coalition~~ for Medical Marijuana Clinical Outcomes Research ~~and~~  
136 ~~Education~~ established pursuant to s. 1004.4351.

137 (c) If a qualified physician determines that smoking is an  
138 appropriate route of administration for a qualified patient,  
139 other than a patient diagnosed with a terminal condition, the  
140 qualified physician must submit the following documentation to  
141 the applicable board:

142 1. A list of other routes of administration, if any,  
143 certified by a qualified physician that the patient has tried,  
144 the length of time the patient used such routes of  
145 administration, and an assessment of the effectiveness of those  
146 routes of administration in treating the qualified patient's  
147 qualifying condition.

148 2. Research documenting the effectiveness of smoking as a  
149 route of administration to treat similarly situated patients  
150 with the same qualifying condition as the qualified patient.

151 3. A statement signed by the qualified physician  
152 documenting the qualified physician's opinion that the benefits  
153 of smoking marijuana for medical use outweigh the risks for the  
154 qualified patient.

155 (d) A qualified physician may not issue a physician  
156 certification for marijuana in a form for smoking to a patient

897266

157 under 18 years of age unless the patient is diagnosed with a  
158 terminal condition, the qualified physician determines that  
159 smoking is the most effective route of administration for the  
160 patient, and a second physician who is a board-certified  
161 pediatrician concurs with such determination. Such determination  
162 and concurrence must be documented in the patient's medical  
163 record and in the medical marijuana use registry. The certifying  
164 physician must obtain the written informed consent of such  
165 patient's parent or legal guardian before issuing a physician  
166 certification to the patient for marijuana in a form for  
167 smoking. The qualified physician must use a standardized  
168 informed consent form adopted in rule by the Board of Medicine  
169 and the Board of Osteopathic Medicine which must include  
170 information concerning the negative health effects of smoking  
171 marijuana on persons under 18 years of age and an  
172 acknowledgement that the qualified physician has sufficiently  
173 explained the contents of the form.

174 (e) The Board of Medicine and the Board of Osteopathic  
175 Medicine shall review the documentation submitted pursuant to  
176 paragraph (c) and shall each, by July 1, 2021, adopt by rule  
177 practice standards for the certification of smoking as a route  
178 of administration.

179 (f) ~~(e)~~ A qualified physician may not issue a physician  
180 certification for more than three 70-day supply limits of  
181 marijuana or more than one 35-day supply limit of marijuana in a  
182 form for smoking. The department shall quantify by rule a daily  
183 dose amount with equivalent dose amounts for each allowable form  
184 of marijuana dispensed by a medical marijuana treatment center.  
185 The department shall use the daily dose amount to calculate a

897266

186 70-day supply.

187 1. A qualified physician may request an exception to the  
188 daily dose amount limit, the 35-day supply limit of marijuana in  
189 a form for smoking, and the 4-ounce possession limit of  
190 marijuana in a form for smoking established in paragraph  
191 (14) (a). The request shall be made electronically on a form  
192 adopted by the department in rule and must include, at a  
193 minimum:

194 a. The qualified patient's qualifying medical condition.

195 b. The dosage and route of administration that was  
196 insufficient to provide relief to the qualified patient.

197 c. A description of how the patient will benefit from an  
198 increased amount.

199 d. The minimum daily dose amount of marijuana that would be  
200 sufficient for the treatment of the qualified patient's  
201 qualifying medical condition.

202 2. A qualified physician must provide the qualified  
203 patient's records upon the request of the department.

204 3. The department shall approve or disapprove the request  
205 within 14 days after receipt of the complete documentation  
206 required by this paragraph. The request shall be deemed approved  
207 if the department fails to act within this time period.

208 (g) ~~(d)~~ A qualified physician must evaluate an existing  
209 qualified patient at least once every 30 weeks before issuing a  
210 new physician certification. A physician must:

211 1. Determine if the patient still meets the requirements to  
212 be issued a physician certification under paragraph (a).

213 2. Identify and document in the qualified patient's medical  
214 records whether the qualified patient experienced either of the

897266

215 following related to the medical use of marijuana:

216 a. An adverse drug interaction with any prescription or  
217 nonprescription medication; or

218 b. A reduction in the use of, or dependence on, other types  
219 of controlled substances as defined in s. 893.02.

220 3. Submit a report with the findings required pursuant to  
221 subparagraph 2. to the department. The department shall submit  
222 such reports to the Consortium Coalition for Medical Marijuana  
223 Clinical Outcomes Research and Education established pursuant to  
224 s. 1004.4351.

225 (h)~~(e)~~ An active order for low-THC cannabis or medical  
226 cannabis issued pursuant to former s. 381.986, Florida Statutes  
227 2016, and registered with the compassionate use registry before  
228 June 23, 2017, is deemed a physician certification, and all  
229 patients possessing such orders are deemed qualified patients  
230 until the department begins issuing medical marijuana use  
231 registry identification cards.

232 (i)~~(f)~~ The department shall monitor physician registration  
233 in the medical marijuana use registry and the issuance of  
234 physician certifications for practices that could facilitate  
235 unlawful diversion or misuse of marijuana or a marijuana  
236 delivery device and shall take disciplinary action as  
237 appropriate.

238 (j)~~(g)~~ The Board of Medicine and the Board of Osteopathic  
239 Medicine shall jointly create a physician certification pattern  
240 review panel that shall review all physician certifications  
241 submitted to the medical marijuana use registry. The panel shall  
242 track and report the number of physician certifications and the  
243 qualifying medical conditions, dosage, supply amount, and form

897266

244 of marijuana certified. The panel shall report the data both by  
245 individual qualified physician and in the aggregate, by county,  
246 and statewide. The physician certification pattern review panel  
247 shall, beginning January 1, 2018, submit an annual report of its  
248 findings and recommendations to the Governor, the President of  
249 the Senate, and the Speaker of the House of Representatives.

250 (k) ~~(h)~~ The department, the Board of Medicine, and the Board  
251 of Osteopathic Medicine may adopt rules pursuant to ss.  
252 120.536(1) and 120.54 to implement this subsection.

253 (6) CAREGIVERS.—

254 (c) A qualified patient may designate no more than one  
255 caregiver to assist with the qualified patient's medical use of  
256 marijuana, unless:

257 1. The qualified patient is a minor and the designated  
258 caregivers are parents or legal guardians of the qualified  
259 patient;

260 2. The qualified patient is an adult who has an  
261 intellectual or developmental disability that prevents the  
262 patient from being able to protect or care for himself or  
263 herself without assistance or supervision and the designated  
264 caregivers are the parents or legal guardians of the qualified  
265 patient; ~~or~~

266 3. The qualified patient is admitted to a hospice program;

274 one minor who is a qualified patient;

275           2. The caregiver is a parent or legal guardian of more than  
276 one adult who is a qualified patient and who has an intellectual

279 assistance or supervision; ~~or~~

280           3. All qualified patients the caregiver has agreed to  
281 assist are admitted to a hospice program and have requested the  
282 assistance of that caregiver with the medical use of marijuana;  
283 the caregiver is an employee of the hospice; and the caregiver  
284 provides personal care or other services directly to clients of  
285 the hospice in the scope of that employment; or

286           4. All qualified patients the caregiver has agreed to  
287 assist are participating in a research program in a teaching  
288 nursing home pursuant to s. 1004.4351.

289           (8) MEDICAL MARIJUANA TREATMENT CENTERS.—

290           (e) A licensed medical marijuana treatment center shall  
291 cultivate, process, transport, and dispense marijuana for  
292 medical use. A licensed medical marijuana treatment center may  
293 not contract for services directly related to the cultivation,  
294 processing, and dispensing of marijuana or marijuana delivery  
295 devices, except that a medical marijuana treatment center  
296 licensed pursuant to subparagraph (a)1. may contract with a  
297 single entity for the cultivation, processing, transporting, and  
298 dispensing of marijuana and marijuana delivery devices. A  
299 licensed medical marijuana treatment center must, at all times,  
300 maintain compliance with the criteria demonstrated and  
301 representations made in the initial application and the criteria

303 grant a medical marijuana treatment center a variance from the  
304 representations made in the initial application. Consideration  
305 of such a request shall be based upon the individual facts and  
306 circumstances surrounding the request. A variance may not be  
307 granted unless the requesting medical marijuana treatment center  
308 can demonstrate to the department that it has a proposed  
309 alternative to the specific representation made in its  
310 application which fulfills the same or a similar purpose as the  
311 specific representation in a way that the department can  
312 reasonably determine will not be a lower standard than the  
313 specific representation in the application. A variance may not  
314 be granted from the requirements in subparagraph 2. and  
315 subparagraphs (b)1. and 2.

316 1. A licensed medical marijuana treatment center may  
317 transfer ownership to an individual or entity who meets the  
318 requirements of this section. A publicly traded corporation or  
319 publicly traded company that meets the requirements of this  
320 section is not precluded from ownership of a medical marijuana  
321 treatment center. To accommodate a change in ownership:

322 a. The licensed medical marijuana treatment center shall  
323 notify the department in writing at least 60 days before the  
324 anticipated date of the change of ownership.

325 b. The individual or entity applying for initial licensure  
326 due to a change of ownership must submit an application that  
327 must be received by the department at least 60 days before the  
328 date of change of ownership.

329 c. Upon receipt of an application for a license, the  
330 department shall examine the application and, within 30 days

897266

331 after receipt, notify the applicant in writing of any apparent  
332 errors or omissions and request any additional information  
333 required.

334 d. Requested information omitted from an application for  
335 licensure must be filed with the department within 21 days after  
336 the department's request for omitted information or the  
337 application shall be deemed incomplete and shall be withdrawn  
338 from further consideration and the fees shall be forfeited.

339  
340 Within 30 days after the receipt of a complete application, the  
341 department shall approve or deny the application.

342 2. A medical marijuana treatment center, and any individual  
343 or entity who directly or indirectly owns, controls, or holds  
344 with power to vote 5 percent or more of the voting shares of a  
345 medical marijuana treatment center, may not acquire direct or  
346 indirect ownership or control of any voting shares or other form  
347 of ownership of any other medical marijuana treatment center.

348 3. A medical marijuana treatment center may not enter into  
349 any form of profit-sharing arrangement with the property owner  
350 or lessor of any of its facilities where cultivation,  
351 processing, storing, or dispensing of marijuana and marijuana  
352 delivery devices occurs.

353 4. All employees of a medical marijuana treatment center  
354 must be 21 years of age or older and have passed a background  
355 screening pursuant to subsection (9).

356 5. Each medical marijuana treatment center must adopt and  
357 enforce policies and procedures to ensure employees and  
358 volunteers receive training on the legal requirements to  
359 dispense marijuana to qualified patients.

897266

360           6. When growing marijuana, a medical marijuana treatment  
361 center:  
362           a. May use pesticides determined by the department, after  
363 consultation with the Department of Agriculture and Consumer  
364 Services, to be safely applied to plants intended for human  
365 consumption, but may not use pesticides designated as  
366 restricted-use pesticides pursuant to s. 487.042.

368 a room separate from any other plant.  
369           c. Must inspect seeds and growing plants for plant pests  
370 that endanger or threaten the horticultural and agricultural  
371 interests of the state in accordance with chapter 581 and any  
372 rules adopted thereunder.  
373           d. Must perform fumigation or treatment of plants, or  
374 remove and destroy infested or infected plants, in accordance  
375 with chapter 581 and any rules adopted thereunder.  
376           7. Each medical marijuana treatment center must produce and  
377 make available for purchase at least one low-THC cannabis  
378 product.  
379           8. A medical marijuana treatment center that produces  
380 edibles must hold a permit to operate as a food establishment  
381 pursuant to chapter 500, the Florida Food Safety Act, and must  
382 comply with all the requirements for food establishments  
383 pursuant to chapter 500 and any rules adopted thereunder.  
384 Edibles may not contain more than 200 milligrams of  
385 tetrahydrocannabinol, and a single serving portion of an edible  
386 may not exceed 10 milligrams of tetrahydrocannabinol. Edibles  
387 may have a potency variance of no greater than 15 percent.  
388 Edibles may not be attractive to children; be manufactured in

897266

389 the shape of humans, cartoons, or animals; be manufactured in a  
390 form that bears any reasonable resemblance to products available  
391 for consumption as commercially available candy; or contain any  
392 color additives. To discourage consumption of edibles by  
393 children, the department shall determine by rule any shapes,  
394 forms, and ingredients allowed and prohibited for edibles.  
395 Medical marijuana treatment centers may not begin processing or  
396 dispensing edibles until after the effective date of the rule.  
397 The department shall also adopt sanitation rules providing the  
398 standards and requirements for the storage, display, or  
399 dispensing of edibles.

400 9. Within 12 months after licensure, a medical marijuana  
401 treatment center must demonstrate to the department that all of  
402 its processing facilities have passed a Food Safety Good  
403 Manufacturing Practices, such as Global Food Safety Initiative  
404 or equivalent, inspection by a nationally accredited certifying  
405 body. A medical marijuana treatment center must immediately stop  
406 processing at any facility which fails to pass this inspection  
407 until it demonstrates to the department that such facility has  
408 met this requirement.

409 10. A medical marijuana treatment center that produces  
410 prerolled marijuana cigarettes may not use wrapping paper made  
411 with tobacco or hemp.

412 11.10. When processing marijuana, a medical marijuana  
413 treatment center must:

414 a. Process the marijuana within an enclosed structure and  
415 in a room separate from other plants or products.

416 b. Comply with department rules when processing marijuana  
417 with hydrocarbon solvents or other solvents or gases exhibiting

897266

418 potential toxicity to humans. The department shall determine by  
419 rule the requirements for medical marijuana treatment centers to  
420 use such solvents or gases exhibiting potential toxicity to  
421 humans.

422 c. Comply with federal and state laws and regulations and  
423 department rules for solid and liquid wastes. The department  
424 shall determine by rule procedures for the storage, handling,  
425 transportation, management, and disposal of solid and liquid  
426 waste generated during marijuana production and processing. The  
427 Department of Environmental Protection shall assist the  
428 department in developing such rules.

429 d. Test the processed marijuana using a medical marijuana  
430 testing laboratory before it is dispensed. Results must be  
431 verified and signed by two medical marijuana treatment center  
432 employees. Before dispensing, the medical marijuana treatment  
433 center must determine that the test results indicate that low-  
434 THC cannabis meets the definition of low-THC cannabis, the  
435 concentration of tetrahydrocannabinol meets the potency  
436 requirements of this section, the labeling of the concentration  
437 of tetrahydrocannabinol and cannabidiol is accurate, and all  
438 marijuana is safe for human consumption and free from  
439 contaminants that are unsafe for human consumption. The  
440 department shall determine by rule which contaminants must be  
441 tested for and the maximum levels of each contaminant which are  
442 safe for human consumption. The Department of Agriculture and  
443 Consumer Services shall assist the department in developing the  
444 testing requirements for contaminants that are unsafe for human  
445 consumption in edibles. The department shall also determine by  
446 rule the procedures for the treatment of marijuana that fails to

897266

447 meet the testing requirements of this section, s. 381.988, or  
448 department rule. The department may select a random sample from  
449 edibles available for purchase in a dispensing facility which  
450 shall be tested by the department to determine that the edible  
451 meets the potency requirements of this section, is safe for  
452 human consumption, and the labeling of the tetrahydrocannabinol  
453 and cannabidiol concentration is accurate. A medical marijuana  
454 treatment center may not require payment from the department for  
455 the sample. A medical marijuana treatment center must recall  
456 edibles, including all edibles made from the same batch of  
457 marijuana, which fail to meet the potency requirements of this  
458 section, which are unsafe for human consumption, or for which  
459 the labeling of the tetrahydrocannabinol and cannabidiol  
460 concentration is inaccurate. The medical marijuana treatment  
461 center must retain records of all testing and samples of each  
462 homogenous batch of marijuana for at least 9 months. The medical  
463 marijuana treatment center must contract with a marijuana  
464 testing laboratory to perform audits on the medical marijuana  
465 treatment center's standard operating procedures, testing  
466 records, and samples and provide the results to the department  
467 to confirm that the marijuana or low-THC cannabis meets the  
468 requirements of this section and that the marijuana or low-THC  
469 cannabis is safe for human consumption. A medical marijuana  
470 treatment center shall reserve two processed samples from each  
471 batch and retain such samples for at least 9 months for the

473 use a laboratory that has not been certified by the department  
474 under s. 381.988 until such time as at least one laboratory  
475 holds the required certification, but in no event later than

673 (2) LEGISLATIVE FINDINGS.—The Legislature finds that:

674 (a) The present state of knowledge concerning the use of  
675 marijuana to alleviate pain and treat illnesses is limited  
676 because permission to perform clinical studies on marijuana is  
677 difficult to obtain, with access to research-grade marijuana so  
678 restricted that little or no unbiased studies have been

897266

679 performed.

680 (b) Under the State Constitution, marijuana is available  
681 for the treatment of certain debilitating medical conditions.

682 (c) Additional clinical studies are needed to ensure that  
683 the residents of this state obtain the correct dosing,  
684 formulation, route, modality, frequency, quantity, and quality  
685 of marijuana for specific illnesses.

686 (d) An effective medical marijuana research ~~and education~~  
687 program would mobilize the scientific, ~~educational~~, and medical  
688 resources that presently exist in this state to determine the  
689 appropriate and best use of marijuana to treat illness.
