381.0038 Education; sterile needle and syringe exchange programs ~~pilot program~~.—The Department of Health shall establish

783258

11 a program to educate the public about the threat of acquired
12 immune deficiency syndrome.

13 (4) A county commission ~~The University of Miami and its~~
14 ~~affiliates~~ may authorize ~~establish~~ a ~~single~~ sterile needle and

22 diseases among intravenous drug users and their sexual partners
23 and offspring. Prevention of disease transmission must be the
24 goal of the program. For the purposes of this subsection, the
25 term "exchange program" means a sterile needle and syringe
26 exchange program established by a county commission under this
27 subsection. A sterile needle and syringe exchange program may
28 not operate unless it is authorized and approved by a county
29 commission in accordance with this subsection.

30 (a) Before an exchange program may be established, a county
31 commission must:

32 1. Authorize the program under the provisions of a county
33 ordinance;

34 2. Enter into a letter of agreement with the department in
35 which the county commission agrees that any exchange program
36 authorized by the county commission will operate in accordance
37 with this subsection;

38 3. Enlist the local county health department to provide
39 ongoing advice, consultation, and recommendations for the

51 (b)(a) An exchange ~~The pilot~~ program must:
52 1. Develop an oversight and accountability system to ensure
53 the program's compliance with statutory and contractual
54 requirements. The system must include measurable objectives for
55 meeting the goal of the program and must track the progress in
56 achieving those objectives. The system must require the program
57 operator to routinely report its progress in achieving the
58 objectives and the goal of the program. The system must also
59 incorporate mechanisms to track the program operator's
60 compliance or noncompliance with contractual obligations and to
61 apply consequences for noncompliance. The program must receive
62 the county commission's approval of the oversight and
63 accountability system before commencing operations.
64 2.1. Provide for maximum security of ~~exchange~~ sites where
65 needles and syringes are exchanged and of any equipment used
66 under the program, including, at a minimum, an accounting of the
67 number of needles and syringes in use, the number of needles and
68 syringes in storage, safe disposal of returned needles, and any

70 dispersal of sterile needles and syringes.

71 32. Operate a one-to-one exchange, whereby a the
72 participant shall receive one sterile needle and syringe unit in
73 exchange for each used one. The county commission is authorized
74 to grant a waiver of this requirement under its contract with
75 the program operator if the terms of such a waiver require the
76 operator to maintain the one-to-one ratio except for exigent
77 circumstances delineated in the waiver.

78 43. Make available educational materials and referrals to
79 education regarding the transmission of HIV, viral hepatitis,
80 and other blood-borne diseases. The program operator must offer
81 such materials to program participants whenever needles or
82 syringes are exchanged; provide referrals for drug abuse
83 prevention and treatment; and provide or refer for HIV and viral
84 hepatitis screening.

85 5. Provide onsite counseling or referrals for drug abuse
86 prevention, education, and treatment, and provide onsite HIV and
87 viral hepatitis screening or referrals for such screening. If
88 such services are offered solely by referral, they must be made
89 available to participants within 72 hours. The county commission
90 in a rural county may, under its contract with the program
91 operator, adjust the 72-hour requirement if the commission finds
92 that the availability of providers warrants an extended
93 timeframe.

94 6. Provide kits containing an emergency opioid antagonist,
95 as defined in s. 381.887, or provide referrals to a program that
96 can provide such kits.

140 ~~outcomes of the pilot program and include a summary of the~~
141 ~~information in the annual reports for all pilot program years.~~
