11 public shall create and implement a risk reduction program. Each
12 risk reduction program shall include conflict de-escalation
13 training for transit operators. The risk reduction program may
14 include the deployment of assault mitigation infrastructure and
15 technology on public transit, including barriers to restrict the
16 unwanted entry of individuals and objects into transit
17 operator's workstations.

18 Section 2. The Legislature finds that public transit
19 workers may be subject to assault while performing their jobs.
20 The Legislature further finds and declares that this act
21 fulfills an important state interest in protecting the safety of
22 public transit workers by requiring any public transit providers
23 operating regularly scheduled transit service to conspicuously
24 post signage that provides notification of the criminal
25 penalties for assault on a public transit worker, and to also
26 create and implement a risk reduction program that includes
27 conflict-de-escalation training. The Legislature further finds
28 that these reasonable measures may reduce or prevent attacks on
29 public transit workers.
