COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/SB 414 establishes a standard annual use fee for specialty license plates of \$25, unless the amount is otherwise specified. The bill also establishes an annual use fee of \$50 for the University of Alabama and the University of Georgia specialty license plates.

SB 412 (2020), to which this bill is linked, authorizes the creation of numerous specialty license plates, including the Alabama and Georgia collegiate plates; and provides for the design of the plates and the use of the annual fees associated with the specialty license plates.

According to the Department of Highway Safety and Motor Vehicles (DHSMV), the bill will have a negative, but insignificant fiscal impact associated with programming costs. These costs can be absorbed within existing resources.

The bill has an effective date on the same date that SB 412 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

II. Present Situation:

Specialty License Plates

Presently, there are over 120 specialty license plates available for purchase in Florida.¹ Specialty license plates are available to an owner or lessee of a motor vehicle who is willing to pay an annual use fee, ranging from \$15 to \$25, paid in addition to required license taxes and service fees.² The annual use fees are distributed to an organization or organizations in support of a particular cause or charity signified on the plate's design and designated in statute.³

The annual use fees collected by an organization and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of specified United States Armed Forces and veterans-related specialty plates.⁴ Additionally, organizations must adhere to certain accountability requirements, including an annual audit or attestation document affirming that funds received have been spent in accordance with applicable statutes.⁵

DHSMV Costs Defrayed

The DHSMV is authorized to retain a sufficient portion of annual use fees collected from the sale of specialty plates to defray its costs for inventory, distribution, and other direct costs associated with the specialty license plate program. The remainder of the proceeds collected are distributed as provided by law.⁶

University of Georgia

Founded in 1946 as the Georgia Alumni Association of Jacksonville, the Georgia Bulldog Club of Jacksonville is America's largest bulldog club.⁷ In 1988, the club established the Vince Dooley Scholarship Fund to award scholarships to attend the University of Georgia for students from Duval, Nassau, St. Johns, Clay, or Baker counties based on academic and economic need.⁸

University of Alabama

The Pensacola Bama Club is a chapter of the University of Alabama National Alumni Association. The club is a 501(c)(3) non-profit, fan-based organization representing the University of Alabama National Alumni Association in Pensacola, Florida, open to alumni, friends, and fans of the university. The organization's primary mission is to provide scholarships to deserving local high school students as well as play host to an annual kick-off event and game watching parties.⁹

III. Effect of Proposed Changes:

The bill also establishes an annual use fee of \$50 for the University of Alabama and the University of Georgia specialty license plates.

The bill has an effective date on the same date that SB 412 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.
