Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 768.39, Florida Statutes, is created to
read:

768.39 Immunity for educational institutions for actions related to the COVID-19 pandemic.—

(1) The Legislature finds that during the COVID-19 public
health emergency, educational institutions had little choice but
to close or restrict access to their campuses in an effort to
protect the health of their students, educators, staff, and
communities. Despite these efforts, more than 120,000 cases of
COVID-19 have been linked to colleges and universities nationwide, and the deaths of more than 100 college students have been attributed to the disease. The Legislature further finds that lawsuits against educational institutions based on their efforts to provide educational services while keeping students, faculty, staff, and communities safe during the COVID-19 public health emergency are without legal precedent. One court has even acknowledged that the "legal system is now feeling COVID-19's havoc with the current wave of class action lawsuits that seek tuition reimbursement related to forced online tutelage." Under these circumstances, the Legislature finds that there is an overpowering public necessity for, and no reasonable alternative to, providing educational institutions with liability protections against lawsuits seeking tuition or fee reimbursements or related damages resulting from the institutions changing the delivery of educational services, limiting access to facilities, or closing campuses during the COVID-19 public health emergency.

(2) For the purposes of this section, the term "educational institution" means any postsecondary institution, whether public or nonpublic. The Board of Governors of the State University System and the State Board of Education are also included within the immunity protections afforded by this section.

(3)(a) An educational institution that has taken
reasonably necessary actions in compliance with federal, state, or local guidance to diminish the impact or the spread of COVID-19 may not be held liable for, and shall be immune from, any civil damages, equitable relief, or other remedies relating to such actions. Reasonably necessary actions taken while a state of emergency was declared for this state for the COVID-19 pandemic include, but are not limited to, any of the following:

1. Shifting in-person instruction to online or remote instruction for any period of time;
2. Closing or modifying the provision of facilities, other than housing or dining facilities, on the campus of the educational institution; or
3. Pausing or modifying ancillary student activities and services available through the educational institution.

(b) The provision of in-person or on-campus education and related services is deemed to have been impossible for educational institutions during any period of time in which such institutions took reasonably necessary actions described in paragraph (a) to protect students, staff, and educators in response to the COVID-19 public health emergency.

(c) As a result of the various governmental orders and the need for educational institutions to protect their communities, the reasonably necessary actions described in paragraph (a) are deemed justified.

(4) In any action against an educational institution, the
Board of Governors of the State University System, or the State Board of Education for the reimbursement of tuition or fees, invoices, catalogs, and general publications of an educational institution are not evidence of an express or implied contract to provide in-person or on-campus education and related services or access to facilities during the COVID-19 public health emergency.

(5)(a) This section does not apply to losses or damages that resulted solely from a breach of an express contractual provision allocating liability.

(b) This section does not apply to losses or damages caused by an act or omission of a college or university which was in bad faith or malicious.

(6) If any aspect of the immunity under subsection (3) is limited by a court or by operation of law from applying to certain types of claims or causes of action, the immunity under this section must still be provided to the fullest extent authorized by law to any other types of claims or causes of action.

(7) If an educational institution is required by federal, state, or local order or a directive of the Board of Governors of the State University System or the State Board of Education issued in response to the COVID-19 public health emergency to alter the mode of delivery of instruction and related services or access to facilities, the burden of proof for any plaintiff
bringing an action against the educational institution for
compliance with such order or directive shall be by clear and
convincing evidence to prevail for damages against the
institution.

Section 2. Section 1006.75, Florida Statutes, is created
to read:

1006.75 State university career planning and information.—
(1) To assist students and families in making better-
informed decisions about educational options and future
employment opportunities, the Board of Governors of the State
University System shall publicly publish an online dashboard.
The dashboard must present data, by academic discipline, of
graduates of state universities, including at least the
following information:
(a) Post-graduation median salary 1, 5, and 10 years after
graduation.
(b) Median student loan debt.
(c) Debt-to-income ratio.
(d) Estimated monthly loan payment as a percentage of
gross monthly income.
(e) The percentage of graduates who have continued their
education beyond the baccalaureate level.
(2) The online dashboard must be available by January 1,
2022. A link to the dashboard shall be prominently displayed on
each state university's office of admissions website.
(3)(a) Each state university board of trustees shall adopt procedures to connect undergraduate students to career planning, coaching, and related programs during the first academic year of the student's enrollment. Such procedures must be approved by the Board of Governors and include placing a hold on student registration before the end of the first year of each student's enrollment. To lift the hold and register for classes, each student must:

1. Register with the university's career center.
2. Complete a career readiness training module provided by the career center.
3. Be directed to the dashboard established in subsection (1).
4. Affirmatively indicate that he or she has been provided with the information required under this paragraph and is aware of the employment and wage prospects for his or her declared major.

(b) The Board of Governors of the State University System shall review and approve each university's procedures by March 1, 2022.

Section 3. Paragraphs (c) and (d) of subsection (1) of Section 1009.25, Florida Statutes, are amended:

1009.25 Fee exemptions.—
(1) The following students are exempt from the payment of tuition and fees, including lab fees, at a school district that
provides workforce education programs, Florida College System institution, or state university:

(c) A student who is, or was at the time he or she reached 18 years of age, in the custody of the Department of Children and Families or who, after spending at least 6 months in the custody of the department after reaching 16 years of age, was placed in a guardianship by the court. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age.

(d) A student who is, or was at the time he or she reached 18 years of age, in the custody of a relative or nonrelative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age.

Section 4. Subsection (18) is added to section 1009.26, Florida Statutes, to read:

1009.26 Fee waivers.—

(18)(a) Beginning with the 2021-2022 academic year, for every course in a Program of Strategic Emphasis, as identified in subparagraph 3., in which a student is enrolled, a state university shall waive 100 percent of the tuition and fees for an equivalent course in such program for a student who:
1. Is a resident for tuition purposes under s. 1009.21.
2. Has earned at least 60 semester credit hours towards a baccalaureate degree within 2 academic years after initial enrollment at a Florida public postsecondary institution.
3. Enrolls in one of eight Programs of Strategic Emphasis as adopted by the Board of Governors. The Board of Governors shall adopt eight Programs of Strategic Emphasis in science, technology, engineering, or math for which a student may be eligible to receive the tuition and fee waiver authorized by this subsection. The programs identified by the board must reflect the priorities of the state and be offered at a majority of state universities.

(b) A waiver granted under this subsection is applicable only for upper-level courses and up to 110 percent of the number of required credit hours of the baccalaureate degree program for which the student is enrolled.

c) Upon enrollment in a program of strategic emphasis, the tuition and fees waived under this subsection must be reported for state funding purposes under ss. 1009.534 and 1009.535 and must be disbursed to the student. The amount disbursed to the student shall be equal to the award amount the student has received under s. 1009.534(2) or s. 1009.535(2).

(d) Each state university shall report to the Board of Governors the number and value of all waivers granted annually under this subsection. A state university in compliance with
this subsection may earn incentive funding, subject to
appropriation, in addition to the funding provided under s.
1001.92.

(e) The Board of Governors shall adopt regulations to
administer this subsection.

Section 5. Paragraph (a) of subsection (1) of section
1009.40, Florida Statutes, is amended to read:

3. Submission of certification attesting to the accuracy, completeness, and correctness of information provided to demonstrate a student's eligibility to receive state financial aid awards or tuition assistance grants. Falsification of such information shall result in the denial of a pending application and revocation of an award or grant currently held to the extent that no further payments shall be made. Additionally, students who knowingly make false statements in order to receive state financial aid awards or tuition assistance grants commit a misdemeanor of the second degree subject to the provisions of s. 837.06 and shall be required to return all state financial aid awards or tuition assistance grants wrongfully obtained.

(c) An institution that fails to perform its duties in administering state financial aid or tuition assistance programs must be placed on probation by the department.

1. The department shall provide allocations on a reimbursement basis to a participating institution that fails to timely remit undisbursed funds for the previous academic year.
