I. Summary:

SB 1512 increases the number of members of the board of directors of Space Florida from 13 to 15. The bill does this by requiring the President of the Senate and Speaker of the House of Representatives each to appoint an additional non-voting, ex officio member.

Under current law, the Space Florida board of directors is comprised of the Governor or his or her appointee and 12 members from the board of directors of Enterprise Florida. Six of these twelve people must be appointed by the Governor, and the President of the Senate and the Speaker of the House each must appoint three members. The appointing officials must select members from various industries and areas of expertise as specified in statute. Moreover, they must consider candidates who reflect this state's racial, ethnic, and gender diversity.

By law, the board of directors of Space Florida is required to perform various functions, including establishing rules and orders to conduct the business of Space Florida, and appointing a president of Space Florida. Additionally, the statutes grant Space Florida with a host of powers, including entering into contracts necessary to carry out Space Florida's mission and providing financial services to support aerospace-related business development in this state.

Members of the board of directors serve 4-year terms.

The bill takes effect July 1, 2021.
