I. Summary:

CS/SB 1570 creates section 20.059, Florida Statutes, relating to quasi-public entities. The bill provides definitions, requirements, and responsibilities for quasi-public entities.

The bill defines “quasi-public entity” to mean an entity established by general law, regardless of form, for a public purpose or to effectuate a government program and which is not directly controlled by a governmental entity. The term does not include a citizen support organization or a direct-support organization.”

The bill requires the Governor to designate a department with which each quasi-public entity will be affiliated and the requirements of the affiliated department.

The bill requires each quasi-public entity to have an operational audit completed by the Auditor General at least once every three years.

The bill requires each quasi-public entity to submit an annual report, on September 15, to the Governor, the President of the Senate, and the Speaker of the House of Representatives, and its affiliated department.

The bill requires a quasi-public entity to include additional specified information if the entity is organized as a corporation or has created an affiliated entity.

The bill requires each quasi-public entity to maintain a publicly available website with certain content.

A quasi-public entity is prohibited from using public funds to retain a lobbyist to represent the entity before the legislative or executive branch. However, a full-time employee of the entity may register as a lobbyist to provide such representation.

The bill prohibits a quasi-public entity from creating an entity separate from itself, including a citizen support organization or a direct-support organization.

The bill requires any meeting of a quasi-public entity to be video recorded. Additionally, the bill prohibits the executive director or an officer with similar responsibilities from recommending or being involved with the selection, appointment or retention of any member of the quasi-public entity’s governing body.

The bill requires each quasi-public entity to post certain information on the Department of Financial Services contracting tracking system within 30 days after executing a contract.

The Executive Office of the Governor as well as the departments affiliated with the quasi-public entities will incur additional workload, which may result in additional cost to the affected agencies.

The bill has an indeterminate fiscal impact to state revenues and funds. (*See V. Fiscal Impact Statement.*)

The bill takes effect July 1, 2021.

Citizen Support and Direct Support Organizations

A citizen support organization (CSO) is an organization that is a Florida corporation not-for-profit incorporated under the provisions of ch. 617, F.S., and is authorized by Florida law to exist as a citizen-support organization to benefit or provide assistance to a governmental entity.² A CSO is organized and operated to: conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, or real or personal property; and make expenditures for the benefit of the intergovernmental programs of their affiliated department or agency.

A direct support organization (DSO) is an organization that is a Florida corporation not-for-profit incorporated under the provisions of ch. 617, F.S., and is authorized by Florida law to exist as a direct-support organization to benefit or provide assistance to a governmental entity.³

² Section 20.2551, F.S.

³ Section 16.618, F.S.

Section 20.058, F.S., establishes that by August 1st of each year, each CSO and DSO must submit the following information to their affiliated department or agency:

- The name, mailing address, telephone number, and website address of the CSO;
- The statutory authority or executive order pursuant to which the organization was created;
- A brief description of the mission, and results obtained by, the organization;
- A brief description of the plans of the organization for the next three years;
- A copy of the organization's code of ethics; and
- A copy of the organization's most recent federal Internal Revenue Service Return of Organization Exempt from Income Tax form (Form 990).

By August 15th of each year, the appropriate agency must report to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Office of Program Policy Analysis and Government Accountability the information provided by each organization.⁴

Transparency in Government Spending & the Contract Tracking System

Section 215.985, F.S., is referred to as the Transparency Government Act (the Act). The Act requires the Chief Financial Officer (CFO) to establish and maintain a secure contract tracking system available for viewing and downloading by the public through a secure website. The Department of Financial Services (DFS) maintains and updates the contract tracking system. The tracking system contains contracts, grant awards, and amendments to contracts.

Within 30 days after executing a contract, each state entity is required to post the following information relating to the contract on the contract tracking system:

- The names of the contracting entities;
- The procurement method;
- The contract beginning and ending dates;
- The nature or type of commodities or services purchased;
- Applicable contract unit prices and deliverables;
- Total compensation to be paid or received under the contract;
- All payments made to the contractor to date;
- Applicable contract performance measures;
- If a competitive solicitation was not used to procure the goods and services, the justification of the action, including citation to a statutory exemption from competitive solicitation if any;⁵ and
- Electronic copies of the contract and procurement documents that have been redacted to exclude confidential information or exempt information.

Within 30 calendar days after an amendment to an existing contract, the state entity that is a party to the contract must update the information on the contract tracking system.

State entities are required to redact confidential or exempt information from the contract and procurement documents before posting an electronic copy on the contract tracking system. If a

⁴ Section 20.058, F.S.

⁵ Section 215.985(14)(a), F.S.

state entity becomes aware that an electronic copy of a contract or procurement document has been posted but has not been properly redacted, the state entity must notify the CFO and remove the documents from the contract tracking system.⁶ Consequently, the state entity has seven business days to post a properly redacted copy of the contract or procurement document on the contract tracking system. Request to redact confidential and exempt information must be made in writing, and delivered by mail, facsimile, electronic transmission, or in person to the state entity. The CFO is not responsible for redacting confidential and exempt information posted by a state entity on the system and is not liable for the failure of the state entity to post the information.

This section establishes the posting of information on the contract tracking system does not supersede the duty of the state entity to respond to a public records request or subpoena for the information. A request for a copy of a contract or procurement document must be made to the state entity. A subpoena for a copy of a contract or procurement document must be served on the quasi-public entity.

This section authorizes the CFO to regulate and prohibit the posting of records that could facilitate identity theft or fraud; however, such action by the CFO does not supersede the duty of a state entity to provide a copy of a public record upon request.

Florida Accountability Contract Tracking System (FACTS)

The Department of Financial Services' Division of Accounting and Auditing maintains FACTS. FACTS is a searchable consumer-friendly online system developed to make the government contracting process in Florida more transparent through the creation of a statewide contract reporting system. FACTS contains images, financial information and audit findings of all grant and contract documents, including purchase orders.⁷

Florida Auditor General

The Auditor General is the independent auditor for the State of Florida and is appointed by and serves at the pleasure of the Legislature. Article III, Section 2 of the Florida Constitution reads, in part, “[T]he legislature shall appoint an auditor to serve at its pleasure who shall audit public records and perform related duties as prescribed by law or concurrent resolution.” Section 11.42, F.S., designates the constitutional auditor as the Auditor General, and s. 11.42 through s. 11.47, F.S., sets forth the general authority and duties of the Auditor General. Independently and in accordance with applicable professional standards, the Auditor General:

- Conducts financial audits of the accounts and records of State government, State universities, State colleges, and school districts.

Operational audits must be conducted in accordance with government auditing standards. Such audits examine internal controls that are designed and placed in operation to promote and encourage the achievement of management's control objectives in the categories of compliance, economic and efficient operations, reliability of financial records and reports, and safeguarding of assets, and identify weaknesses in those internal controls.¹⁰
