House

---

The Committee on Environment and Natural Resources (Albritton) recommended the following:

**Senate Amendment**

Delete lines 320 - 323  
and insert:  
within 3,500 feet of the aquifer storage and recovery wells,  
that it has implemented institutional controls to prevent the  
future construction of potable water supply wells within 3,500  
feet of the aquifer storage and recovery wells, and that the  
recovered water is being used for irrigation purposes. The  
injection of reclaimed water that meets the requirements of this
