SUMMARY ANALYSIS

Current law authorizes the Division of Early Learning (DEL) in the Department of Education as the lead administrator for federal and state child care funds. The DEL is responsible for developing, adopting, and implementing quality standards and outcome measures that benefit and improve Florida's comprehensive early childhood care and education system. One of the three main early learning programs that the DEL oversees is the School Readiness (SR) Program. The DEL administers the SR Program at the state level and early learning coalitions and the Redlands Christian Migrant Association administer the program at the county and regional levels. The SR Program provides subsidies for child care services and early childhood education for children of low-income families; children in protective services who are at risk of abuse, neglect, abandonment, or homelessness; foster children; and children with disabilities.

Funding for the SR Program comes from four sources:

- Federal Child Care and Development Block Grant,
- Federal Temporary Assistance for Needy Families Block Grant,
- Federal Social Services Block Grant, and
- State General Revenue Fund

The Legislature annually appropriates the SR Program funds to the early learning coalitions and the Redlands Christian Migrant Association with participating providers receiving their funding primarily from reimbursements from the coalitions and tuition payments by participating families.

The bill requires the principals of the Early Learning Programs Estimating Conference to adopt the official cost of care information and provide this information to the Legislature at least 90 days before the scheduled annual legislative session. The bill also provides that the funding for the SR Program be allocated among the early learning coalitions in accordance with the General Appropriations Act and the adopted cost of care information.

The bill does not have a fiscal impact. See Fiscal Comments.

The bill has an effective date of July 1, 2022.

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

School Readiness Program

Overview

The Division of Early Learning (DEL) within the Department of Education (DOE) is the lead administrator for federal and state child care funds and is responsible for developing, adopting, and implementing quality standards and outcome measures that benefit and improve Florida's comprehensive early childhood care and education system.¹ The DEL partners with 30 local early learning coalitions² and the Redlands Christian Migrant Association to deliver comprehensive early childhood care and education services statewide. One of the three main early learning programs that the DEL oversees is the School Readiness (SR) Program.

Established in 1999,³ the SR Program provides subsidies for child care services and early childhood education for children of low-income families; children in protective services who are at risk of abuse, neglect, abandonment, or homelessness; foster children; and children with disabilities.⁴ The SR Program offers financial assistance for child care to these families while supporting children in the development of skills for success in school. Additionally, the program provides developmental screenings and referrals to health and education specialists where needed. These services are provided in conjunction with other programs for young children such as Head Start, Early Head Start, Migrant Head Start, Child Care Resource and Referral and the Voluntary Prekindergarten Program.⁵

The DEL administers the program at the state level and early learning coalitions administer SR at the county and regional levels. The program's two main goals are to help families become financially self-sufficient and to help each child from a qualifying family develop school readiness skills. These skills are measured by standards and outcomes adopted by the DEL as well as statewide screening of kindergarten students.⁶

Federal regulations governing the Child Care and Development Block Grant, the primary funding source for the SR Program, authorizes states to use grant funds for child care services, if:

- the child is under 13 years of age, or at the state's option, under age 19 if the child is physically or mentally incapable of caring for himself or herself or under court supervision;
- the child's family income does not exceed 185 percent of the state's median income for a family of the same size; and
- the child:
 - resides with a parent or parents who work or attend job training or educational programs; or
 - receives, or needs to receive, protective services.⁷

Student enrollment in the SR Program for the 2020-2021 school year, the most recent year measured, was 209,801 as follows:⁸

School Readiness Providers

In order to be eligible to provide the SR Program, a provider must be:⁹

- A licensed child care facility;
- A licensed or registered family day care home;
- A licensed large family day care home;
- A public school or nonpublic school;
- A license-exempt faith-based child care provider;
- A before-school or after-school program; or
- An informal child care provider authorized in the state's Child Care and Development Fund plan.

For Fiscal Year 2020-2021, there was a total of 6,760 providers offering the SR Program with the following breakdown:¹⁰

Provider Type*	Enrollments	Percentage of Total Enrollments
Licensed Private	4,623	68%
Licensed/Registered Family Child Care Home	991	15%
Licensed Large Family Day Care Home	304	5%
Public/Nonpublic School	632	9%
License-exempt	210	3%
TOTAL	6,760	100%

*No informal providers served SR children during Fiscal Year 2020-2021.

School Readiness Funding

Funding for the SR Program comes from four sources:¹¹

- Federal Child Care and Development Block Grant,
- Federal Temporary Assistance for Needy Families Block Grant,
- Federal Social Services Block Grant, and
- State General Revenue Fund.

The Legislature appropriates the SR Program funds to the early learning coalitions and the Redlands Christian Migrant Association, with participating providers receiving their funding primarily from reimbursements from the coalitions and tuition payments by participating families.¹² Early learning coalitions reimburse participating providers with appropriated funds for each eligible child, either

through child care certificates provided by parents or through contracted slots.¹³ The reimbursement and co-payment amounts are determined locally by the early learning coalition, subject to approval by the DEL. Any additional amount a parent must pay is based on the difference between the provider's tuition rate and the sum of the reimbursement rate and required parent co-payment. Reimbursement amounts vary based on provider type and level of care, and co-payments are determined by the early learning coalitions using a sliding fee scale.¹⁴

School Readiness Market Rate

The Code of Regulations (C.F.R.) 45 Part 98 requires states receiving the Child Care and Development Block Grant to ensure equal access to child care by setting a fair market rate every two years.¹⁵ Current law defines the "market rate" to mean the price that a child care or early childhood education provider charges for full-time or part-time daily, weekly, or monthly child care or early childhood education services.¹⁶ The DOE is statutorily required to approve a market rate schedule until an alternative model has been approved by the federal Administration of Children and Families.¹⁷

Based in part on recommendations by the Office of Child Care within the federal Department of Health and Human Services, the DOE calculates the average market rate and the 75th percentile market rate, referred to as the prevailing market rate,¹⁸ for each county to help the early learning coalitions determine provider reimbursement rates.¹⁹ Market rates are established for the different provider types and different levels of care for each county.²⁰

To calculate the market rates, the DEL sorts provider private pay rates for a given level of care within the county from highest to lowest, calculates the average market rate, and identifies the 75th percentile pay rate. Although there is no minimum threshold for provider reimbursement rates in law, the early learning coalitions must consider the market rate schedule in determining its own minimum reimbursement rates, which must be approved by the DEL.²¹ In addition, a provider may receive additional funding above the minimum reimbursement rate if it qualifies for any of the following quality-based differentials:²²

- Up to an additional 20 percent for Gold Seal status.
- Up to an additional 10 percent for achieving certain CLASS scores identified in rule (also known as the quality performance incentive).
- An additional 5 percent for participating in a DEL-approved child assessment tool.

School Readiness Estimating Conference

Current law establishes several consensus estimating conferences to assist in a variety of governmental planning and budgeting functions. Data from consensus estimating conferences are used primarily in the development of the constitutionally-required Long-Range Financial Outlook, the Governor's budget recommendations, and the General Appropriations Act.²³

Current law establishes the early learning estimating conference to develop estimates and forecasts of the unduplicated count of children eligible for the school readiness program in accordance with the standards of eligibility established in s. 1002.87, F.S., and of children eligible for the Voluntary

The DEL is required to provide information on needs and waiting lists for the SR Program to the conference principals.²⁵

The last School Readiness Estimating Conference was held on November 8, 2004.

Effects of Proposed Changes

The bill requires the principals of the Early Learning Programs Estimating Conference, established in s. 216.136, Florida Statutes, to annually develop official cost of care information based on actual school readiness direct services program expenditures and information provided pursuant to s. 1002.92(4), Florida Statutes. Conference principals must agree on the cost of child care by level and care type, the eligible population data, and the methods of computation. The bill requires the Division of Early Learning to provide all required and necessary data to the conference principals. The bill requires the Early Learning Programs Estimating Conference to provide the official cost of care information to the Legislature at least 90 days before the scheduled annual legislative session.

The bill requires the funding for the SR Program to be allocated to the early learning coalitions in accordance with the General Appropriations Act (GAA) and the official cost of care information provided by the Early Learning Programs Estimating Conference.

B. SECTION DIRECTORY:

Section 1. Amends s. 1002.89, F.S., providing that the funding for the school readiness program must be allocated among the early learning coalitions in accordance with the General Appropriations Act and s. 1002.90, F.S.

Section 2. Creates s. 1002.90, F.S., requiring the principals of the Early Learning Programs Conference to develop the official cost of care information.

Section 3. Provides the bill takes effect on July 1, 2022.

IV. AMENDMENTS/COMMITTEE SUBSTITUTE CHANGES

On January 27, 2022, the PreK-12 Appropriations Subcommittee adopted one amendment and reported the bill favorably as a committee substitute. The amendment:

- Requires the conference principals of the Early Learning Programs Estimating Conference to annually develop the official cost of care information based on actual school readiness direct services programs expenditures and information provided pursuant to s. 1002.92(4), Florida Statutes;
- Requires the Division of Early Learning to provide all required and necessary information to the conference principals; and
- Requires the Early Learning Programs Estimating Conference to provide the official cost of care information to the Legislature at least 90 days before the scheduled annual legislative session.

The analysis is drafted to the committee substitute as passed by the PreK-12 Appropriations Subcommittee.
