The Conference Committee Amendment for SB 2518, relating to Information Technology, conforms statutes to the funding decisions in the General Appropriations Act for Fiscal Year 2022-2023.

The amendment separates the State Data Center from the Florida Digital Service within the Department of Management Services. All Florida Digital Service duties and responsibilities related to the State Data Center are removed and assigned directly to the State Data Center.

The amendment designates the Northwest Regional Data Center as an official State Data Center and transfers all current State Data Center resources, contracts, and assets to the Northwest Regional Data Center. By July 1, 2022, the secretary of the Department of Management Services is required to contract with the Northwest Regional Data Center to manage the State Data Center operations and provide data center services to state agencies.

The amendment maintains existing exemptions for data center consolidation and allows for the Northwest Regional Data Center to provide services from the Department of Management Services State Data Center facility.

The amendment takes effect July 1, 2022.
