271 section and pays the biennial renewal fee. However, the  
272 department may not renew the license of a medical marijuana  
273 treatment center that has not begun to cultivate, process, and

305 performance bond issued by an authorized surety insurance

351 established in this subsection. Upon request, the department may  
352 grant a medical marijuana treatment center a variance from the  
353 representations made in the initial application. Consideration  
354 of such a request shall be based upon the individual facts and  
355 circumstances surrounding the request. A variance may not be  
356 granted unless the requesting medical marijuana treatment center  
357 can demonstrate to the department that it has a proposed  
358 alternative to the specific representation made in its  
359 application which fulfills the same or a similar purpose as the  
360 specific representation in a way that the department can  
361 reasonably determine will not be a lower standard than the  
362 specific representation in the application. A variance may not

364 subparagraphs (b)1. and 2.

365 1. A licensed medical marijuana treatment center may  
366 transfer ownership to an individual or entity who meets the  
367 requirements of this section. A publicly traded corporation or

379 department shall examine the application and, within 30 days  
380 after receipt, notify the applicant in writing of any apparent  
381 errors or omissions and request any additional information  
382 required.

383 d. Requested information omitted from an application for  
384 licensure must be filed with the department within 21 days after  
385 the department's request for omitted information or the  
386 application shall be deemed incomplete and shall be withdrawn  
387 from further consideration and the fees shall be forfeited.

388 e. Within 30 days after the receipt of a complete  
389 application, the department shall approve or deny the  
390 application.

391 2. A medical marijuana treatment center, and any individual  
392 or entity who directly or indirectly owns, controls, or holds

410 center:

423 remove and destroy infested or infected plants, in accordance  
424 with chapter 581 and any rules adopted thereunder.

425 7. Each medical marijuana treatment center must produce and  
426 make available for purchase at least one low-THC cannabis  
427 product.

428 8. A medical marijuana treatment center that produces

437 Edibles may not be attractive to children; be manufactured in  
438 the shape of humans, cartoons, or animals; be manufactured in a  
439 form that bears any reasonable resemblance to products available  
440 for consumption as commercially available candy; or contain any  
441 color additives. To discourage consumption of edibles by  
442 children, the department shall determine by rule any shapes,  
443 forms, and ingredients allowed and prohibited for edibles.  
444 Medical marijuana treatment centers may not begin processing or  
445 dispensing edibles until after the effective date of the rule.  
446 The department shall also adopt sanitation rules providing the  
447 standards and requirements for the storage, display, or  
448 dispensing of edibles.

449       9. Within 12 months after licensure, a medical marijuana  
450 treatment center must demonstrate to the department that all of  
451 its processing facilities have passed a Food Safety Good  
452 Manufacturing Practices, such as Global Food Safety Initiative  
453 or equivalent, inspection by a nationally accredited certifying  
454 body. A medical marijuana treatment center must immediately stop  
455 processing at any facility which fails to pass this inspection  
456 until it demonstrates to the department that such facility has  
457 met this requirement.

458       10. A medical marijuana treatment center that produces  
459 prerolled marijuana cigarettes may not use wrapping paper made  
460 with tobacco or hemp.

461       11. When processing marijuana, a medical marijuana  
462 treatment center must:

470 humans.

471           c. Comply with federal and state laws and regulations and  
472 department rules for solid and liquid wastes. The department  
473 shall determine by rule procedures for the storage, handling,  
474 transportation, management, and disposal of solid and liquid  
475 waste generated during marijuana production and processing. The  
476 Department of Environmental Protection shall assist the  
477 department in developing such rules.

478           d. Test the processed marijuana using a medical marijuana  
479 testing laboratory before it is dispensed. Results must be  
480 verified and signed by two medical marijuana treatment center  
481 employees. Before dispensing, the medical marijuana treatment  
482 center must determine that the test results indicate that low-  
483 THC cannabis meets the definition of low-THC cannabis, the  
484 concentration of tetrahydrocannabinol meets the potency  
485 requirements of this section, the labeling of the concentration  
486 of tetrahydrocannabinol and cannabidiol is accurate, and all  
487 marijuana is safe for human consumption and free from  
488 contaminants that are unsafe for human consumption. The  
489 department shall determine by rule which contaminants must be  
490 tested for and the maximum levels of each contaminant which are  
491 safe for human consumption. The Department of Agriculture and  
492 Consumer Services shall assist the department in developing the  
493 testing requirements for contaminants that are unsafe for human

494 consumption in edibles. The department shall also determine by  
495 rule the procedures for the treatment of marijuana that fails to  
496 meet the testing requirements of this section, s. 381.988, or

502 for human consumption, and is accurately labeled with the  
503 ~~labeling of~~ the tetrahydrocannabinol and cannabidiol  
504 concentration or to verify the result of marijuana testing  
505 conducted by a marijuana testing laboratory. The department may  
506 also select samples of marijuana delivery devices from a medical  
507 marijuana treatment center to determine whether the marijuana  
508 delivery device is safe for use by qualified patients ~~is~~  
509 ~~accurate~~. A medical marijuana treatment center may not require  
510 payment from the department for the sample. A medical marijuana  
511 treatment center must recall marijuana edibles, including all  
512 marijuana and marijuana products ~~edibles~~ made from the same  
513 batch of marijuana, that fails ~~which fail~~ to meet the potency  
514 requirements of this section, that is ~~which are~~ unsafe for human  
515 consumption, or for which the labeling of the  
516 tetrahydrocannabinol and cannabidiol concentration is  
517 inaccurate. The department shall adopt rules to establish  
518 marijuana potency variations of no greater than 15 percent using  
519 negotiated rulemaking pursuant to s. 120.54(2)(d) which accounts  
520 for, but is not limited to, time lapses between testing, testing  
521 methods, testing instruments, and types of marijuana sampled for  
522 testing. The department may not issue any recalls for product

524 relating to potency variation standards. A medical marijuana  
525 treatment center must also recall all marijuana delivery devices  
526 determined to be unsafe for use by qualified patients. The  
527 medical marijuana treatment center must retain records of all  
528 testing and samples of each homogenous batch of marijuana for at  
529 least 9 months. The medical marijuana treatment center must  
530 contract with a marijuana testing laboratory to perform audits  
531 on the medical marijuana treatment center's standard operating  
532 procedures, testing records, and samples and provide the results  
533 to the department to confirm that the marijuana or low-THC  
534 cannabis meets the requirements of this section and that the  
535 marijuana or low-THC cannabis is safe for human consumption. A  
536 medical marijuana treatment center shall reserve two processed  
537 samples from each batch and retain such samples for at least 9  
538 months for the purpose of such audits. A medical marijuana  
539 treatment center may use a laboratory that has not been  
540 certified by the department under s. 381.988 until such time as  
541 at least one laboratory holds the required certification, but in
