---

The Committee on Fiscal Policy (Thompson) recommended the following:

**Senate Amendment**

Delete lines 155 - 215  
and insert:  
verify the integrity of all components that are recommended or specified by the manufacturer ~~or metal fatigue~~ at least annually. The nondestructive testing ~~for metal fatigue~~ must be conducted more often than annually if required by any rule adopted under this section, by the manufacturer of the amusement ride, or by the professional engineer or qualified inspector

187008

11 executing the affidavit of nondestructive testing. The  
12 nondestructive testing ~~for metal fatigue~~ must consist at least  
13 of visual nondestructive testing, as well as nonvisual  
14 nondestructive testing ~~for metal fatigue~~, which must be  
15 conducted on the components of the amusement ride as required by  
16 any rule adopted under this section, by the manufacturer of the  
17 amusement ride, or by the professional engineer or qualified  
18 inspector executing the affidavit of nondestructive testing.

19 (b) When specified by the manufacturer, nonvisual  
20 nondestructive testing must be used to verify the integrity of  
21 components that, due to their design, location, installation, or  
22 a combination thereof, cannot be adequately evaluated by other  
23 means.

24 (c) ~~(b)~~ Nondestructive testing ~~testings~~ must be performed by  
25 a technician who meets the requirements prescribed by department  
26 rule.

27 (d) ~~(c)~~ An affidavit of nondestructive testing, on a form  
28 prescribed by department rule, must state, at a minimum, all of  
29 the following:

30 1. That the amusement ride was inspected in person by the  
31 affiant.

32 2. That all of the manufacturer's nondestructive testing  
33 requirements and recommendations are current.

34 3. That the nondestructive testing was performed by a  
35 qualified nondestructive testing technician.

36 4. The components of the amusement ride for which the  
37 manufacturer has recommended or required nondestructive testing.

38 5. The type of nondestructive testing required or  
39 recommended by the manufacturer.

40           6. The frequency of the nondestructive testing required or  
41 recommended by the manufacturer.

42           7. The components of the amusement ride for which the  
43 affiant, in addition to the manufacturer's requirements and  
44 recommendations, has recommended or required nondestructive  
45 testing.

46           8. The type of nondestructive testing required or  
47 recommended by the affiant in addition to the manufacturer's  
48 requirements and recommendations. If the affiant does not  
49 require or recommend additional nondestructive testing, the  
50 affiant must affirm that the manufacturer's requirements are  
51 sufficient for the safe operation of the amusement ride.

52           9. The frequency of the nondestructive testing as required  
53 or recommended by the affiant.

54           10. That visual nondestructive testing is adequate for the  
55 amusement ride to be in ~~general~~ conformance with the  
56 requirements of this section and all applicable rules, ~~only~~ if  
57 only visual nondestructive testing is required ~~or recommended~~ by  
58 the manufacturer or the affiant.

59           11. That the amusement ride is in conformance with the  
60 requirements of this section and all applicable department  
61 rules.

62           12. Whether the amusement ride has undergone a major  
63 modification and, if so, the name of the manager, owner, or  
64 operator who authorized the modification and the date the  
65 modification took place.

66           13. That the amusement ride and its components are in  
67 conformance with the service life, if the manufacturer has  
68 provided a service life for such ride and its components.
