39 recommendations on technology improvements for paratransit
40 providers serving persons with disabilities, including through
41 local, state, and federal funding sources. At a minimum, the
42 report shall include a review of and recommendations on:

43 (a) Technology systems to ensure the safety of
44 individuals, including the use of in-cabin camera systems and
45 other technologies to monitor the safety and well-being of
46 individuals using fixed routes.

47 (b) Best practices for data retention, including
48 protection of personally identifiable information, length of
49 retention, and location of retained files.

50 (c) State-of-the-industry on hardware and software,
51 including camera providers, product specifications, and human-
52 machine interfaces.

53 (d) Safety standards of professional engineering
54 organizations on camera-mounting best practices.

55 (e) Costs of installation and maintenance of camera
56 systems to paratransit providers.

57 (f) The use of Internet, mobile, and application-based
58 interfaces to book, monitor, and seek transportation services.
59 The review must also consider accessibility needs.

60 (g) The use of Internet, mobile, and application-based
61 interfaces to track the location, in real time, of an individual
62 using paratransit services.
