

1 A bill to be entitled
 2 An act relating to cybersecurity; amending s. 110.205,
 3 F.S.; exempting the state chief technology officer
 4 from the career service; amending s. 282.0041, F.S.;
 5 providing definitions; amending s. 282.0051, F.S.;
 6 revising the purposes for which the Florida Digital
 7 Service is established; revising the date by which
 8 Department of Management Services, acting through the
 9 Florida Digital Service, must provide certain
 10 recommendations to the Executive Office of the
 11 Governor and the Legislature; requiring the state
 12 chief information officer, in consultation with the
 13 Secretary of Management Services, to designate a state
 14 chief technology officer; providing duties of the
 15 state chief technology officer; amending s. 282.318,
 16 F.S.; providing that the Florida Digital Service is
 17 the lead entity for a certain purpose; requiring the
 18 Cybersecurity Operations Center to provide certain
 19 notifications; requiring the state chief information
 20 officer to make certain reports in consultation with
 21 the state chief information security officer;
 22 requiring a state agency to report ransomware and
 23 cybersecurity incidents within certain time periods;
 24 requiring the Cybersecurity Operations Center to
 25 immediately notify a certain entity of reported

26 incidents and take certain actions; requiring the
27 department to preserve certain data and provide
28 certain aid in certain circumstances; requiring the
29 state chief information security officer to notify the
30 Legislature of certain incidents within a certain
31 period; requiring the Cybersecurity Operations Center
32 to provide a certain report to certain entities by a
33 specified date; authorizing the Florida Digital
34 Service to obtain certain access to certain state
35 agency accounts and instances and direct certain
36 measures; prohibiting the department from taking
37 certain actions; providing applicability; revising the
38 purpose of an agency's information security manager
39 and the date by which he or she must be designated;
40 authorizing the chairs of certain legislative
41 committees or subcommittees to attend exempt portions
42 of meetings of the Florida Cybersecurity Advisory
43 Council if authorized by the President of the Senate
44 or Speaker of the House of Representatives, as
45 applicable; amending s. 282.3185, F.S.; requiring a
46 local government to report ransomware and certain
47 cybersecurity incidents to the Cybersecurity
48 Operations Center within certain time periods;
49 requiring the Cybersecurity Operations Center to
50 immediately notify certain entities of certain

51 incidents and take certain actions; requiring the
 52 Department of Law Enforcement to coordinate certain
 53 incident responses; amending s. 282.319, F.S.;
 54 revising the membership of the Florida Cybersecurity
 55 Advisory Council; amending s. 1004.444, F.S.;
 56 providing that the Florida Center for Cybersecurity
 57 may be referred to in a certain manner; providing that
 58 the center is established under the direction of the
 59 president of the University of South Florida and may
 60 be assigned within a college that meets certain
 61 requirements; revising the mission and goals of the
 62 center; authorizing the center to take certain actions
 63 relating to certain initiatives; providing an
 64 effective date.

65

66 Be It Enacted by the Legislature of the State of Florida:

67

68 Section 1. Paragraph (e) of subsection (2) of section
 69 110.205, Florida Statutes, is amended to read:

70 110.205 Career service; exemptions.—

71 (2) EXEMPT POSITIONS.—The exempt positions that are not
 72 covered by this part include the following:

73 (e) The state chief information officer, the state chief
 74 data officer, the state chief technology officer, and the state
 75 chief information security officer. The Department of Management

76 Services shall set the salary and benefits of these positions in
 77 accordance with the rules of the Senior Management Service.

78 Section 2. Subsections (7) through (16) and (17) through
 79 (38) of section 282.0041, Florida Statutes, are renumbered as
 80 subsections (8) through (17) and (19) through (40),
 81 respectively, and new subsections (7) and (18) are added to that
 82 section to read:

83 282.0041 Definitions.—As used in this chapter, the term:
 84 (7) "Criminal justice agency" has the same meaning as in
 85 s. 943.045.

86 (18) "Enterprise digital data" means information held by a
 87 state agency in electronic form that is deemed to be data owned
 88 by the state and held for state purposes by the state agency.
 89 Enterprise digital data must be maintained in accordance with
 90 chapter 119. This subsection may not be construed to create,
 91 modify, abrogate, or expand an exemption from public records
 92 requirements under s. 119.07(1) or s. 24(a), Art. I of the State
 93 Constitution.

94 Section 3. Subsection (1) of section 282.0051, Florida
 95 Statutes, is amended, and paragraph (c) is added to subsection
 96 (2) of that section, to read:

97 282.0051 Department of Management Services; Florida
 98 Digital Service; powers, duties, and functions.—

99 (1) The Florida Digital Service is established ~~has been~~
 100 ~~created~~ within the department to lead enterprise information

101 technology and cybersecurity efforts, to propose and evaluate
102 innovative solutions pursuant to interagency agreements that
103 securely modernize state government, including technology and
104 information services, to achieve value through digital
105 transformation and interoperability, and to fully support the
106 cloud-first policy as specified in s. 282.206. The department,
107 through the Florida Digital Service, shall have the following
108 powers, duties, and functions:

109 (a) Develop and publish information technology policy for
110 the management of the state's information technology resources.

111 (b) Develop an enterprise architecture that:

112 1. Acknowledges the unique needs of the entities within
113 the enterprise in the development and publication of standards
114 and terminologies to facilitate digital interoperability;

115 2. Supports the cloud-first policy as specified in s.
116 282.206; and

117 3. Addresses how information technology infrastructure may
118 be modernized to achieve cloud-first objectives.

119 (c) Establish project management and oversight standards
120 with which state agencies must comply when implementing
121 information technology projects. The department, acting through
122 the Florida Digital Service, shall provide training
123 opportunities to state agencies to assist in the adoption of the
124 project management and oversight standards. To support data-
125 driven decisionmaking, the standards must include, but are not

126 | limited to:

127 | 1. Performance measurements and metrics that objectively
128 | reflect the status of an information technology project based on
129 | a defined and documented project scope, cost, and schedule.

130 | 2. Methodologies for calculating acceptable variances in
131 | the projected versus actual scope, schedule, or cost of an
132 | information technology project.

133 | 3. Reporting requirements, including requirements designed
134 | to alert all defined stakeholders that an information technology
135 | project has exceeded acceptable variances defined and documented
136 | in a project plan.

137 | 4. Content, format, and frequency of project updates.

138 | 5. Technical standards to ensure an information technology
139 | project complies with the enterprise architecture.

140 | (d) Perform project oversight on all state agency
141 | information technology projects that have total project costs of
142 | \$10 million or more and that are funded in the General
143 | Appropriations Act or any other law. The department, acting
144 | through the Florida Digital Service, shall report at least
145 | quarterly to the Executive Office of the Governor, the President
146 | of the Senate, and the Speaker of the House of Representatives
147 | on any information technology project that the department
148 | identifies as high-risk due to the project exceeding acceptable
149 | variance ranges defined and documented in a project plan. The
150 | report must include a risk assessment, including fiscal risks,

151 associated with proceeding to the next stage of the project, and
152 a recommendation for corrective actions required, including
153 suspension or termination of the project.

154 (e) Identify opportunities for standardization and
155 consolidation of information technology services that support
156 interoperability and the cloud-first policy, as specified in s.
157 282.206, and business functions and operations, including
158 administrative functions such as purchasing, accounting and
159 reporting, cash management, and personnel, and that are common
160 across state agencies. The department, acting through the
161 Florida Digital Service, shall biennially on January 15 ± of
162 each even-numbered year provide recommendations for
163 standardization and consolidation to the Executive Office of the
164 Governor, the President of the Senate, and the Speaker of the
165 House of Representatives.

166 (f) Establish best practices for the procurement of
167 information technology products and cloud-computing services in
168 order to reduce costs, increase the quality of data center
169 services, or improve government services.

170 (g) Develop standards for information technology reports
171 and updates, including, but not limited to, operational work
172 plans, project spend plans, and project status reports, for use
173 by state agencies.

174 (h) Upon request, assist state agencies in the development
175 of information technology-related legislative budget requests.

176 (i) Conduct annual assessments of state agencies to
177 determine compliance with all information technology standards
178 and guidelines developed and published by the department and
179 provide results of the assessments to the Executive Office of
180 the Governor, the President of the Senate, and the Speaker of
181 the House of Representatives.

182 (j) Conduct a market analysis not less frequently than
183 every 3 years beginning in 2021 to determine whether the
184 information technology resources within the enterprise are
185 utilized in the most cost-effective and cost-efficient manner,
186 while recognizing that the replacement of certain legacy
187 information technology systems within the enterprise may be cost
188 prohibitive or cost inefficient due to the remaining useful life
189 of those resources; whether the enterprise is complying with the
190 cloud-first policy specified in s. 282.206; and whether the
191 enterprise is utilizing best practices with respect to
192 information technology, information services, and the
193 acquisition of emerging technologies and information services.
194 Each market analysis shall be used to prepare a strategic plan
195 for continued and future information technology and information
196 services for the enterprise, including, but not limited to,
197 proposed acquisition of new services or technologies and
198 approaches to the implementation of any new services or
199 technologies. Copies of each market analysis and accompanying
200 strategic plan must be submitted to the Executive Office of the

201 Governor, the President of the Senate, and the Speaker of the
202 House of Representatives not later than December 31 of each year
203 that a market analysis is conducted.

204 (k) Recommend other information technology services that
205 should be designed, delivered, and managed as enterprise
206 information technology services. Recommendations must include
207 the identification of existing information technology resources
208 associated with the services, if existing services must be
209 transferred as a result of being delivered and managed as
210 enterprise information technology services.

211 (l) In consultation with state agencies, propose a
212 methodology and approach for identifying and collecting both
213 current and planned information technology expenditure data at
214 the state agency level.

215 (m)1. Notwithstanding any other law, provide project
216 oversight on any information technology project of the
217 Department of Financial Services, the Department of Legal
218 Affairs, and the Department of Agriculture and Consumer Services
219 which has a total project cost of \$20 million or more. Such
220 information technology projects must also comply with the
221 applicable information technology architecture, project
222 management and oversight, and reporting standards established by
223 the department, acting through the Florida Digital Service.

224 2. When performing the project oversight function
225 specified in subparagraph 1., report at least quarterly to the

226 Executive Office of the Governor, the President of the Senate,
227 and the Speaker of the House of Representatives on any
228 information technology project that the department, acting
229 through the Florida Digital Service, identifies as high-risk due
230 to the project exceeding acceptable variance ranges defined and
231 documented in the project plan. The report shall include a risk
232 assessment, including fiscal risks, associated with proceeding
233 to the next stage of the project and a recommendation for
234 corrective actions required, including suspension or termination
235 of the project.

236 (n) If an information technology project implemented by a
237 state agency must be connected to or otherwise accommodated by
238 an information technology system administered by the Department
239 of Financial Services, the Department of Legal Affairs, or the
240 Department of Agriculture and Consumer Services, consult with
241 these departments regarding the risks and other effects of such
242 projects on their information technology systems and work
243 cooperatively with these departments regarding the connections,
244 interfaces, timing, or accommodations required to implement such
245 projects.

246 (o) If adherence to standards or policies adopted by or
247 established pursuant to this section causes conflict with
248 federal regulations or requirements imposed on an entity within
249 the enterprise and results in adverse action against an entity
250 or federal funding, work with the entity to provide alternative

251 standards, policies, or requirements that do not conflict with
 252 the federal regulation or requirement. The department, acting
 253 through the Florida Digital Service, shall annually by January
 254 15 report such alternative standards to the Executive Office of
 255 the Governor, the President of the Senate, and the Speaker of
 256 the House of Representatives.

257 (p)1. Establish an information technology policy for all
 258 information technology-related state contracts, including state
 259 term contracts for information technology commodities,
 260 consultant services, and staff augmentation services. The
 261 information technology policy must include:

262 a. Identification of the information technology product
 263 and service categories to be included in state term contracts.

264 b. Requirements to be included in solicitations for state
 265 term contracts.

266 c. Evaluation criteria for the award of information
 267 technology-related state term contracts.

268 d. The term of each information technology-related state
 269 term contract.

270 e. The maximum number of vendors authorized on each state
 271 term contract.

272 f. At a minimum, a requirement that any contract for
 273 information technology commodities or services meet the National
 274 Institute of Standards and Technology Cybersecurity Framework.

275 g. For an information technology project wherein project

276 oversight is required pursuant to paragraph (d) or paragraph
277 (m), a requirement that independent verification and validation
278 be employed throughout the project life cycle with the primary
279 objective of independent verification and validation being to
280 provide an objective assessment of products and processes
281 throughout the project life cycle. An entity providing
282 independent verification and validation may not have technical,
283 managerial, or financial interest in the project and may not
284 have responsibility for, or participate in, any other aspect of
285 the project.

286 2. Evaluate vendor responses for information technology-
287 related state term contract solicitations and invitations to
288 negotiate.

289 3. Answer vendor questions on information technology-
290 related state term contract solicitations.

291 4. Ensure that the information technology policy
292 established pursuant to subparagraph 1. is included in all
293 solicitations and contracts that are administratively executed
294 by the department.

295 (q) Recommend potential methods for standardizing data
296 across state agencies which will promote interoperability and
297 reduce the collection of duplicative data.

298 (r) Recommend open data technical standards and
299 terminologies for use by the enterprise.

300 (s) Ensure that enterprise information technology

301 solutions are capable of utilizing an electronic credential and
302 comply with the enterprise architecture standards.

303 (2)

304 (c) The state chief information officer, in consultation
305 with the Secretary of Management Services, shall designate a
306 state chief technology officer who shall be responsible for all
307 of the following:

308 1. Establishing and maintaining an enterprise architecture
309 framework that ensures information technology investments align
310 with the state's strategic objectives and initiatives pursuant
311 to paragraph (1)(b).

312 2. Conducting comprehensive evaluations of potential
313 technological solutions and cultivating strategic partnerships,
314 internally with state enterprise agencies and externally with
315 the private sector, to leverage collective expertise, foster
316 collaboration, and advance the state's technological
317 capabilities.

318 3. Supervising program management of enterprise
319 information technology initiatives pursuant to paragraphs
320 (1)(c), (d), and (l); providing advisory support and oversight
321 for technology-related projects; and continuously identifying
322 and recommending best practices to optimize outcomes of
323 technology projects and enhance the enterprise's technological
324 efficiency and effectiveness.

325 Section 4. Subsection (3), paragraph (a) of subsection

326 (4), and subsection (6) of section 282.318, Florida Statutes,
 327 are amended to read:

328 282.318 Cybersecurity.—

329 (3) The ~~department, acting through the~~ Florida Digital
 330 Service~~,~~ is the lead entity responsible for leading enterprise
 331 information technology and cybersecurity efforts, establishing
 332 standards and processes for assessing state agency cybersecurity
 333 risks, and determining appropriate security measures. Such
 334 standards and processes must be consistent with generally
 335 accepted technology best practices, including the National
 336 Institute for Standards and Technology Cybersecurity Framework,
 337 for cybersecurity. The department, acting through the Florida
 338 Digital Service, shall adopt rules that mitigate risks;
 339 safeguard state agency digital assets, data, information, and
 340 information technology resources to ensure availability,
 341 confidentiality, and integrity; and support a security
 342 governance framework. The department, acting through the Florida
 343 Digital Service, shall also:

344 (a) Designate an employee of the Florida Digital Service
 345 as the state chief information security officer. The state chief
 346 information security officer must have experience and expertise
 347 in security and risk management for communications and
 348 information technology resources. The state chief information
 349 security officer is responsible for the development, operation,
 350 and oversight of cybersecurity for state technology systems. The

351 Cybersecurity Operations Center shall immediately notify the
 352 state chief information officer and the state chief information
 353 security officer ~~shall be notified~~ of all confirmed or suspected
 354 incidents or threats of state agency information technology
 355 resources. The state chief information officer, in consultation
 356 with the state chief information security officer, ~~and~~ must
 357 report such incidents or threats to ~~the state chief information~~
 358 ~~officer and~~ the Governor.

359 (b) Develop, and annually update by February 1, a
 360 statewide cybersecurity strategic plan that includes security
 361 goals and objectives for cybersecurity, including the
 362 identification and mitigation of risk, proactive protections
 363 against threats, tactical risk detection, threat reporting, and
 364 response and recovery protocols for a cyber incident.

365 (c) Develop and publish for use by state agencies a
 366 cybersecurity governance framework that, at a minimum, includes
 367 guidelines and processes for:

368 1. Establishing asset management procedures to ensure that
 369 an agency's information technology resources are identified and
 370 managed consistent with their relative importance to the
 371 agency's business objectives.

372 2. Using a standard risk assessment methodology that
 373 includes the identification of an agency's priorities,
 374 constraints, risk tolerances, and assumptions necessary to
 375 support operational risk decisions.

376 3. Completing comprehensive risk assessments and
 377 cybersecurity audits, which may be completed by a private sector
 378 vendor, and submitting completed assessments and audits to the
 379 department.

380 4. Identifying protection procedures to manage the
 381 protection of an agency's information, data, and information
 382 technology resources.

383 5. Establishing procedures for accessing information and
 384 data to ensure the confidentiality, integrity, and availability
 385 of such information and data.

386 6. Detecting threats through proactive monitoring of
 387 events, continuous security monitoring, and defined detection
 388 processes.

389 7. Establishing agency cybersecurity incident response
 390 teams and describing their responsibilities for responding to
 391 cybersecurity incidents, including breaches of personal
 392 information containing confidential or exempt data.

393 8. Recovering information and data in response to a
 394 cybersecurity incident. The recovery may include recommended
 395 improvements to the agency processes, policies, or guidelines.

396 9. Establishing a cybersecurity incident reporting process
 397 that includes procedures for notifying the department and the
 398 Department of Law Enforcement of cybersecurity incidents.

399 a. The level of severity of the cybersecurity incident is
 400 defined by the National Cyber Incident Response Plan of the

401 United States Department of Homeland Security as follows:

402 (I) Level 5 is an emergency-level incident within the
 403 specified jurisdiction that poses an imminent threat to the
 404 provision of wide-scale critical infrastructure services;
 405 national, state, or local government security; or the lives of
 406 the country's, state's, or local government's residents.

407 (II) Level 4 is a severe-level incident that is likely to
 408 result in a significant impact in the affected jurisdiction to
 409 public health or safety; national, state, or local security;
 410 economic security; or civil liberties.

411 (III) Level 3 is a high-level incident that is likely to
 412 result in a demonstrable impact in the affected jurisdiction to
 413 public health or safety; national, state, or local security;
 414 economic security; civil liberties; or public confidence.

415 (IV) Level 2 is a medium-level incident that may impact
 416 public health or safety; national, state, or local security;
 417 economic security; civil liberties; or public confidence.

418 (V) Level 1 is a low-level incident that is unlikely to
 419 impact public health or safety; national, state, or local
 420 security; economic security; civil liberties; or public
 421 confidence.

422 b. The cybersecurity incident reporting process must
 423 specify the information that must be reported by a state agency
 424 following a cybersecurity incident or ransomware incident,
 425 which, at a minimum, must include the following:

426 (I) A summary of the facts surrounding the cybersecurity
427 incident or ransomware incident.

428 (II) The date on which the state agency most recently
429 backed up its data; the physical location of the backup, if the
430 backup was affected; and if the backup was created using cloud
431 computing.

432 (III) The types of data compromised by the cybersecurity
433 incident or ransomware incident.

434 (IV) The estimated fiscal impact of the cybersecurity
435 incident or ransomware incident.

436 (V) In the case of a ransomware incident, the details of
437 the ransom demanded.

438 c.(I) A state agency shall report all ransomware incidents
439 and ~~any cybersecurity incidents incident determined by the state~~
440 ~~agency to be of severity level 3, 4, or 5~~ to the Cybersecurity
441 Operations Center ~~and the Cybercrime Office of the Department of~~
442 ~~Law Enforcement~~ as soon as possible but no later than 12 ~~48~~
443 hours after discovery of the cybersecurity incident and no later
444 than 6 ~~12~~ hours after discovery of the ransomware incident. The
445 report must contain the information required in sub-subparagraph
446 b.

447 (II) The Cybersecurity Operations Center shall:

448 (A) Immediately notify the Cybercrime Office of the
449 Department of Law Enforcement of a reported incident and provide
450 to the Cybercrime Office of the Department of Law Enforcement

451 regular reports on the status of the incident. The department
 452 shall preserve forensic data to support a subsequent
 453 investigation and provide aid to the investigative efforts of
 454 the Cybercrime Office of the Department of Law Enforcement upon
 455 the office's request if the investigation does not impede
 456 remediation of the incident and there is no risk to the public
 457 and no risk to critical state functions.

458 (B) Immediately notify the state chief information officer
 459 and the state chief information security officer of a reported
 460 incident. The state chief information security officer shall
 461 notify the President of the Senate and the Speaker of the House
 462 of Representatives of any severity level 3, 4, or 5 incident as
 463 soon as possible but no later than 12 hours after receiving a
 464 state agency's incident report. The notification must include a
 465 high-level description of the incident and the likely effects.

466 ~~d. A state agency shall report a cybersecurity incident~~
 467 ~~determined by the state agency to be of severity level 1 or 2 to~~
 468 ~~the Cybersecurity Operations Center and the Cybercrime Office of~~
 469 ~~the Department of Law Enforcement as soon as possible. The~~
 470 ~~report must contain the information required in sub-subparagraph~~
 471 ~~b.~~

472 d.e. The Cybersecurity Operations Center shall provide a
 473 consolidated incident report by the 30th day after the end of
 474 each quarter on a quarterly basis to the Governor, the Attorney
 475 General, the executive director of the Department of Law

476 Enforcement, the President of the Senate, the Speaker of the
477 House of Representatives, and the Florida Cybersecurity Advisory
478 Council. The report provided to the Florida Cybersecurity
479 Advisory Council may not contain the name of any agency, network
480 information, or system identifying information but must contain
481 sufficient relevant information to allow the Florida
482 Cybersecurity Advisory Council to fulfill its responsibilities
483 as required in s. 282.319(9).

484 10. Incorporating information obtained through detection
485 and response activities into the agency's cybersecurity incident
486 response plans.

487 11. Developing agency strategic and operational
488 cybersecurity plans required pursuant to this section.

489 12. Establishing the managerial, operational, and
490 technical safeguards for protecting state government data and
491 information technology resources that align with the state
492 agency risk management strategy and that protect the
493 confidentiality, integrity, and availability of information and
494 data.

495 13. Establishing procedures for procuring information
496 technology commodities and services that require the commodity
497 or service to meet the National Institute of Standards and
498 Technology Cybersecurity Framework.

499 14. Submitting after-action reports following a
500 cybersecurity incident or ransomware incident. Such guidelines

501 and processes for submitting after-action reports must be
 502 developed and published by December 1, 2022.

503 (d) Assist state agencies in complying with this section.

504 (e) In collaboration with the Cybercrime Office of the
 505 Department of Law Enforcement, annually provide training for
 506 state agency information security managers and computer security
 507 incident response team members that contains training on
 508 cybersecurity, including cybersecurity threats, trends, and best
 509 practices.

510 (f) Annually review the strategic and operational
 511 cybersecurity plans of state agencies.

512 (g) Annually provide cybersecurity training to all state
 513 agency technology professionals and employees with access to
 514 highly sensitive information which develops, assesses, and
 515 documents competencies by role and skill level. The
 516 cybersecurity training curriculum must include training on the
 517 identification of each cybersecurity incident severity level
 518 referenced in sub-subparagraph (c)9.a. The training may be
 519 provided in collaboration with the Cybercrime Office of the
 520 Department of Law Enforcement, a private sector entity, or an
 521 institution of the State University System.

522 (h) Operate and maintain a Cybersecurity Operations Center
 523 led by the state chief information security officer, which must
 524 be primarily virtual and staffed with tactical detection and
 525 incident response personnel. The Cybersecurity Operations Center

526 shall serve as a clearinghouse for threat information and
527 coordinate with the Department of Law Enforcement to support
528 state agencies and their response to any confirmed or suspected
529 cybersecurity incident.

530 (i) Lead an Emergency Support Function, ESF-20 ~~ESF-CYBER~~,
531 under the state comprehensive emergency management plan as
532 described in s. 252.35.

533 (j) During a cyber incident or as otherwise agreed to in
534 writing by the state agency that holds the particular enterprise
535 digital data, have the authority to obtain immediate and
536 complete access to state agency accounts and instances that hold
537 enterprise digital data and to direct, in consultation with the
538 state agency that holds the particular enterprise digital data,
539 measures to assess, monitor, and protect the security of
540 enterprise digital data. The department may not view, modify,
541 transfer, or otherwise duplicate enterprise digital data except
542 as required to respond to a cyber incident or as agreed to in
543 writing by the state agency that holds the particular enterprise
544 digital data. This paragraph does not apply to a criminal
545 justice agency.

546 (4) Each state agency head shall, at a minimum:

547 (a) Designate an information security manager to ensure
548 compliance with cybersecurity governance and with the state's
549 enterprise security program and incident response plan. The
550 information security manager must coordinate with the agency's

551 information security personnel and the Cybersecurity Operations
552 Center to ensure that the unique needs of the agency are met
553 ~~administer the cybersecurity program of the state agency.~~ This
554 designation must be provided annually in writing to the
555 department by January 15 ~~1~~. A state agency's information
556 security manager, for purposes of these information security
557 duties, shall report directly to the agency head.

558 (6) (a) Those portions of a public meeting as specified in
559 s. 286.011 which would reveal records which are confidential and
560 exempt under subsection (5) are exempt from s. 286.011 and s.
561 24(b), Art. I of the State Constitution. No exempt portion of an
562 exempt meeting may be off the record. All exempt portions of
563 such meeting shall be recorded and transcribed. Such recordings
564 and transcripts are confidential and exempt from disclosure
565 under s. 119.07(1) and s. 24(a), Art. I of the State
566 Constitution unless a court of competent jurisdiction, after an
567 in camera review, determines that the meeting was not restricted
568 to the discussion of data and information made confidential and
569 exempt by this section. In the event of such a judicial
570 determination, only that portion of the recording and transcript
571 which reveals nonexempt data and information may be disclosed to
572 a third party.

573 (b) If authorized by the President of the Senate or the
574 Speaker of the House of Representatives, as applicable, the
575 chair of a standing or select committee of the Legislature, or a

576 subcommittee thereof, with responsibility over the subject area
 577 of cybersecurity may attend those portions of a meeting that are
 578 exempt under paragraph (a).

579 Section 5. Paragraphs (b) and (c) of subsection (5) of
 580 section 282.3185, Florida Statutes, are amended to read:

581 282.3185 Local government cybersecurity.—

582 (5) INCIDENT NOTIFICATION.—

583 (b)1. A local government shall report all ransomware
 584 incidents and any cybersecurity incident determined by the local
 585 government to be of severity level 3, 4, or 5 as provided in s.
 586 282.318(3)(c) to the Cybersecurity Operations Center, ~~the~~
 587 ~~Cybercrime Office of the Department of Law Enforcement, and the~~
 588 ~~sheriff who has jurisdiction over the local government~~ as soon
 589 as possible but no later than 12 ~~48~~ hours after discovery of the
 590 cybersecurity incident and no later than 6 ~~12~~ hours after
 591 discovery of the ransomware incident. The report must contain
 592 the information required in paragraph (a).

593 2. The Cybersecurity Operations Center shall:

594 a. Immediately notify the Cybercrime Office of the
 595 Department of Law Enforcement and provide to the Cybercrime
 596 Office of the Department of Law Enforcement and the sheriff who
 597 has jurisdiction over the local government regular reports on
 598 the status of the incident, preserve forensic data to support a
 599 subsequent investigation, and provide aid to the investigative
 600 efforts of the Cybercrime Office of the Department of Law

601 Enforcement upon the office's request. The Department of Law
602 Enforcement shall coordinate the response to an incident in
603 which a law enforcement agency is the subject of the incident
604 and must provide updates to the Cybersecurity Operations Center.

605 b. Immediately notify the state chief information security
606 officer of a reported incident. The state chief information
607 security officer shall notify the President of the Senate and
608 the Speaker of the House of Representatives of any severity
609 level 3, 4, or 5 incident as soon as possible but no later than
610 12 hours after receiving a local government's incident report.
611 The notification must include a high-level description of the
612 incident and the likely effects.

613 (c) A local government may report a cybersecurity incident
614 determined by the local government to be of severity level 1 or
615 2 as provided in s. 282.318(3)(c) to the Cybersecurity
616 Operations Center, the Cybercrime Office of the Department of
617 Law Enforcement, and the sheriff who has jurisdiction over the
618 local government. The report shall contain the information
619 required in paragraph (a). The Cybersecurity Operations Center
620 shall immediately notify the Cybercrime Office of the Department
621 of Law Enforcement and the sheriff who has jurisdiction over the
622 local government of a reported incident and provide regular
623 reports on the status of the cybersecurity incident, preserve
624 forensic data to support a subsequent investigation, and provide
625 aid to the investigative efforts of the Cybercrime Office of the

626 Department of Law Enforcement upon request if the investigation
 627 does not impede remediation of the cybersecurity incident and
 628 there is no risk to the public and no risk to critical state
 629 functions.

630 Section 6. Paragraph (j) of subsection (4) of section
 631 282.319, Florida Statutes, is amended, and paragraph (m) is
 632 added to that subsection, to read:

633 282.319 Florida Cybersecurity Advisory Council.—

634 (4) The council shall be comprised of the following
 635 members:

636 (j) Three representatives from critical infrastructure
 637 sectors, one of whom must be from a utility provider ~~water~~
 638 ~~treatment facility~~, appointed by the Governor.

639 (m) A representative of local government.

640 Section 7. Section 1004.444, Florida Statutes, is amended
 641 to read:

642 1004.444 Florida Center for Cybersecurity.—

643 (1) The Florida Center for Cybersecurity, which may also
 644 be referred to as "Cyber Florida," is established as a center
 645 within the University of South Florida under the direction of
 646 the president of the university or the president's designee. The
 647 president may assign the center within a college of the
 648 university if the college has a strong emphasis in
 649 cybersecurity, technology, or computer sciences and engineering
 650 as determined and approved by the university's board of

651 trustees.

652 (2) The mission and goals of the center are to:

653 (a) Position Florida as the national leader in
654 cybersecurity and its related workforce primarily through
655 advancing and funding education and, research and development
656 initiatives in cybersecurity and related fields, with a
657 secondary emphasis on, ~~and~~ community engagement and
658 cybersecurity awareness.

659 (b) Assist in the creation of jobs in the state's
660 cybersecurity industry and enhance the existing cybersecurity
661 workforce through education, research, applied science, and
662 engagements and partnerships with the private and military
663 sectors.

664 (c) Act as a cooperative facilitator for state business
665 and higher education communities to share cybersecurity
666 knowledge, resources, and training.

667 (d) Seek out research and development agreements and other
668 partnerships with major military installations and affiliated
669 contractors to assist, when possible, in homeland cybersecurity
670 defense initiatives.

671 (e) Attract cybersecurity companies and jobs to the state
672 with an emphasis on defense, finance, health care,
673 transportation, and utility sectors.

674 (f) Conduct, fund, and facilitate research and applied
675 science that leads to the creation of new technologies and

676 software packages that have military and civilian applications
677 and which can be transferred for military and homeland defense
678 purposes or for sale or use in the private sector.

679 (3) Upon receiving a request for assistance from the
680 Department of Management Services, the Florida Digital Service,
681 or another state agency, the center is authorized, but may not
682 be compelled by the agency, to conduct, consult on, or otherwise
683 assist any state-funded initiatives related to:

684 (a) Cybersecurity training, professional development, and
685 education for state and local government employees, including
686 school districts and the judicial branch.

687 (b) Increasing the cybersecurity effectiveness of the
688 state's and local governments' technology platforms and
689 infrastructure, including school districts and the judicial
690 branch.

691 Section 8. This act shall take effect July 1, 2024.
