6 Remove lines 124-135 and insert:

7 a pharmacist for HIV screening and indicate that they lack
 8 regular access to primary care. An access-to-care plan must
 9 include:

10 1. Procedures to educate such patients about care that
 11 would be best provided in a primary care setting and the
 12 importance of receiving regular primary care.

13 2. The pharmacy's plan for collaborative partnership with
 14 one or more nearby federally qualified health centers, county
 15 health departments, or other primary care settings. The goals of
 16 such partnership must include, but need not be limited to,
