43 of care.

44 (c) The Legislature intends to identify and designate  
45 multiple behavioral health teaching hospitals that work to

66 partnerships throughout this state to support and enhance the  
67 intent of this part.

68 5. Partner with the state to provide behavioral health  
69 care, address regional and systemwide behavioral health needs,

70 and support the state in providing treatment and care for those  
71 whose need and acuity has resulted in the need for long-term  
72 voluntary services or involuntary civil commitment.
