

26 | Be It Enacted by the Legislature of the State of Florida:

27 |

28 | Section 1. Paragraph (a) of subsection (3) of section
29 | 409.966, Florida Statutes, is amended to read:

30 | 409.966 Eligible plans; selection.—

31 | (3) QUALITY SELECTION CRITERIA.—

32 | (a) The invitation to negotiate must specify the criteria
33 | and the relative weight of the criteria that will be used for
34 | determining the acceptability of the reply and guiding the
35 | selection of the organizations with which the agency negotiates.
36 | In addition to criteria established by the agency, the agency
37 | shall consider the following factors in the selection of
38 | eligible plans:

39 | 1. Accreditation by the National Committee for Quality
40 | Assurance, the Joint Commission, or another nationally
41 | recognized accrediting body.

42 | 2. Experience serving similar populations, including the
43 | organization's record in achieving specific quality standards
44 | with similar populations.

45 | 3. Availability and accessibility of primary care, l
46 | behavioral health care, and specialty physicians in the provider
47 | network.

48 | 4. Establishment of community partnerships with providers
49 | that create opportunities for reinvestment in community-based
50 | services.

51 5. Organization commitment to quality improvement and
52 documentation of achievements in specific quality improvement
53 projects, including active involvement by organization
54 leadership.

55 6. Provision of additional benefits, particularly dental
56 care and disease management, and other initiatives that improve
57 health outcomes.

58 7. Evidence that an eligible plan has obtained signed
59 contracts or written agreements or has made substantial progress
60 in establishing relationships with providers before the plan
61 submits a response.

62 8. Comments submitted in writing by any enrolled Medicaid
63 provider relating to a specifically identified plan
64 participating in the procurement in the same region as the
65 submitting provider.

66 9. Documentation of policies and procedures for preventing
67 fraud and abuse.

68 10. The business relationship an eligible plan has with
69 any other eligible plan that responds to the invitation to
70 negotiate.

71 Section 2. Paragraphs (c) and (f) of subsection (2) and
72 paragraph (g) of subsection (3) of section 409.967, Florida
73 Statutes, are amended, and paragraph (p) is added to subsection
74 (2) of that section, to read:

75 409.967 Managed care plan accountability.—

76 (2) The agency shall establish such contract requirements
77 as are necessary for the operation of the statewide managed care
78 program. In addition to any other provisions the agency may deem
79 necessary, the contract must require:

80 (c) Access.—

81 1. The agency shall establish specific standards for the
82 number, type, and regional distribution of providers in managed
83 care plan networks to ensure access to care for both adults and
84 children. Each plan must maintain a regionwide network of
85 providers in sufficient numbers to meet the access standards for
86 specific medical services for all recipients enrolled in the
87 plan. The exclusive use of mail-order pharmacies may not be
88 sufficient to meet network access standards. Consistent with the
89 standards established by the agency, provider networks may
90 include providers located outside the region. Each plan shall
91 establish and maintain an accurate and complete electronic
92 database of contracted providers, including information about
93 licensure or registration, locations and hours of operation,
94 specialty credentials and other certifications, specific
95 performance indicators, and such other information as the agency
96 deems necessary. The database must be available online to both
97 the agency and the public and have the capability to compare the
98 availability of providers to network adequacy standards and to
99 accept and display feedback from each provider's patients. Each
100 plan shall submit quarterly reports to the agency identifying

101 the number of enrollees assigned to each primary care provider.

102 2. By October 1, 2024, the agency shall specifically and
 103 expressly establish network standards for each type of
 104 behavioral health provider, including, but not limited to,
 105 community-based residential providers. The standards must ensure
 106 timely access to care and exceed any federal behavioral health
 107 network requirements. At a minimum, the agency shall, for each
 108 provider type, establish standards for:

- 109 a. Patient-to-provider ratios.
- 110 b. Maximum waiting times for appointments and admissions.
- 111 c. Availability of innovative health care service delivery
 112 methods, such as telehealth, mobile response services, and
 113 certified community behavioral health clinics.

114 3. The agency shall ~~conduct, or~~ contract with an
 115 independent vendor for, systematic and continuous testing of the
 116 plan provider networks ~~network databases maintained by each plan~~
 117 to confirm accuracy, confirm that behavioral health providers
 118 are accepting enrollees, and confirm that enrollees have timely
 119 access to ~~behavioral health~~ services. The vendor shall, at a
 120 minimum, also test the performance of behavioral health
 121 providers under the standards established by the agency under
 122 subparagraph 2. The vendor shall produce, and the agency shall
 123 publish, online quarterly and annual reports on plan provider
 124 network performance related to behavioral health, by plan and
 125 region, beginning April 1, 2025, and July 1, 2026, respectively.

126 ~~4.2.~~ Each managed care plan must publish any prescribed
127 drug formulary or preferred drug list on the plan's website in a
128 manner that is accessible to and searchable by enrollees and
129 providers. The plan must update the list within 24 hours after
130 making a change. Each plan must ensure that the prior
131 authorization process for prescribed drugs is readily accessible
132 to health care providers, including posting appropriate contact
133 information on its website and providing timely responses to
134 providers. For Medicaid recipients diagnosed with hemophilia who
135 have been prescribed anti-hemophilic-factor replacement
136 products, the agency shall provide for those products and
137 hemophilia overlay services through the agency's hemophilia
138 disease management program.

139 ~~5.3.~~ Managed care plans, and their fiscal agents or
140 intermediaries, must accept prior authorization requests for any
141 service electronically.

142 ~~6.4.~~ Managed care plans serving children in the care and
143 custody of the Department of Children and Families must maintain
144 complete medical, dental, and behavioral health encounter
145 information and participate in making such information available
146 to the department or the applicable contracted community-based
147 care lead agency for use in providing comprehensive and
148 coordinated case management. The agency and the department shall
149 establish an interagency agreement to provide guidance for the
150 format, confidentiality, recipient, scope, and method of

151 information to be made available and the deadlines for
152 submission of the data. The scope of information available to
153 the department shall be the data that managed care plans are
154 required to submit to the agency. The agency shall determine the
155 plan's compliance with standards for access to medical, dental,
156 and behavioral health services; the use of medications; and
157 followup on all medically necessary services recommended as a
158 result of early and periodic screening, diagnosis, and
159 treatment.

160 (f) Continuous improvement.—The agency shall establish
161 specific performance standards and expected milestones or
162 timelines for improving performance over the term of the
163 contract.

164 1. Each managed care plan shall establish an internal
165 health care quality improvement system, including enrollee
166 satisfaction and disenrollment surveys. The quality improvement
167 system must include incentives and disincentives for network
168 providers.

169 2. Each managed care plan must collect and report the
170 Healthcare Effectiveness Data and Information Set (HEDIS)
171 measures, the federal Core Set of Children's Health Care Quality
172 Measures, and the federal Core Set of Adult Health Care Quality
173 Measures, as specified by the agency. Each plan must collect and
174 report the Adult Core Set behavioral health measures beginning
175 with data reports for the 2025 calendar year. Each plan must

176 stratify reported measures by age, sex, race, ethnicity, primary
177 language, and whether the enrollee received a Social Security
178 Administration determination of disability for purposes of
179 Supplemental Security Income beginning with data reports for the
180 2026 calendar year. A plan's performance on these measures must
181 be published on the plan's website in a manner that allows
182 recipients to reliably compare the performance of plans. The
183 agency shall use the measures as a tool to monitor plan
184 performance.

185 a. The agency shall identify each individual HEDIS score
186 earned by each managed care plan during the first full contract
187 year for each measure in the Core Set of Children's and Adult
188 behavioral health measures, and establish those scores as
189 baseline indicators for each plan. The agency shall notify
190 annually each plan of the plan's baseline for each HEDIS score.
191 The agency, in consultation with each plan, shall establish
192 regional clinical outcome performance goals for each contract
193 year for each plan. In establishing the performance goals, the
194 agency must take into account the plan's HEDIS baseline,
195 population, enrollment, patient mix, clinical risk, and other
196 factors established by the agency.

197 b. The agency shall establish specific outcome performance
198 goals to reduce the incidence of crisis stabilization services
199 for children and adolescents who are high users of such
200 services. Performance goals must, at a minimum, establish plan-

201 specific, year-over-year improvement targets to reduce repeated
202 use and ensure better behavioral health outcomes for children
203 and adolescents.

204 c. A managed care plan that does not meet the behavioral
205 health outcome performance goals established by the agency under
206 this paragraph may be subject to quality improvement projects,
207 automatic assignment suspension, and administrative and
208 contractual sanctions as determined by the agency.

209 3. Each managed care plan must be accredited by the
210 National Committee for Quality Assurance, the Joint Commission,
211 or another nationally recognized accrediting body, or have
212 initiated the accreditation process, within 1 year after the
213 contract is executed. For any plan not accredited within 18
214 months after executing the contract, the agency shall suspend
215 automatic assignment under ss. 409.977 and 409.984.

216 (p) Annual report.—Beginning on October 1, 2024, and
217 annually thereafter, the agency shall submit to the Legislature
218 an annual report on Medicaid-enrolled children and adolescents
219 who are the highest users of crisis stabilization services. The
220 report must include demographic and geographic information;
221 plan-specific performance data based on the performance measures
222 in paragraph (f); plan-specific provider network testing data
223 generated pursuant to paragraph (c), including, but not limited
224 to, an assessment of access timeliness; and trends on reported
225 data points beginning from the 2021-2022 fiscal year. The report

226 must include an analysis of relevant managed care plan contract
227 terms and the contract enforcement mechanisms available to the
228 agency to ensure compliance. The report must include data on
229 enforcement or incentive actions taken by the agency to ensure
230 compliance with network standards and progress in performance
231 improvement, including, but not limited to, the use of the
232 achieved savings rebate program as provided under subsection
233 (3). The report must include a listing of other actions taken by
234 the agency to better serve such children and adolescents.

235 (3) ACHIEVED SAVINGS REBATE.—

236 (g) A plan that exceeds agency-defined quality measures in
237 the reporting period may retain an additional 1 percent of
238 revenue. For the purpose of this paragraph, the quality measures
239 must include:

240 1. Plan performance in ~~for~~ preventing or managing complex,
241 chronic conditions that are associated with an elevated
242 likelihood of requiring high-cost medical treatments.

243 2. Plan performance in behavioral health, including
244 reduction in the incidence of crisis stabilization services for
245 children and adolescents, improvement in follow-up visit rates
246 after behavioral health-related hospitalization for children and
247 adolescents, and reduction in behavioral health-related
248 emergency room visits for children or adults.

249 Section 3. The Agency for Health Care Administration shall
250 amend existing contracts with managed care plans to execute the

CS/HB43

2024

251 requirements of this act. Such contract amendments must be
252 effective before January 1, 2025.

253 Section 4. This act shall take effect July 1, 2024.
