12 assessments required under s. 1008.22(3) or achieve a 2.0 GPA
13 shall be awarded a certificate of completion in a form
14 prescribed by the State Board of Education, which must clearly
15 state that the certificate of completion is not a standard high
16 school diploma. A student who is awarded a certificate of
17 completion must be informed of secondary and postsecondary
18 educational opportunities that are available to an individual
19 who has not received a standard high school diploma. However, A
20 student who is otherwise entitled to a certificate of completion
21 may elect to remain in high school either as a full-time student
22 or a part-time student for up to 1 additional year and receive
23 special instruction designed to remedy his or her identified
24 deficiencies.

25 (8) STUDENTS WITH DISABILITIES. ~~Beginning with students~~
26 ~~entering grade 9 in the 2014-2015 school year, this subsection~~
27 ~~applies to a student with a disability.~~

28 (a) A parent of the student with a disability shall, in
29 collaboration with the individual education plan (IEP) team
30 during the transition planning process pursuant to s. 1003.5716,
31 declare an intent for the student to graduate from high school
32 with either a standard high school diploma or a certificate of
33 completion. A student with a disability who does not satisfy the
34 standard high school diploma requirements pursuant to this
35 section shall be awarded a certificate of completion. A student

37 secondary and postsecondary educational opportunities that are
38 available to an individual who has not received a standard high
39 school diploma.

40 (b) The following options, in addition to the other options

41 specified in this section, may be used to satisfy the standard
42 high school diploma requirements, as specified in the student's

46 appropriate measure of the student's skills:

47 a. A combination of course substitutions, assessments,
48 industry certifications, other acceleration options, or
49 occupational completion points appropriate to the student's
50 unique skills and abilities that meet the criteria established
51 by State Board of Education rule.

53 student's mastery of academic standards through rigorous metrics
54 established by State Board of Education rule. A portfolio may
55 include, but is not limited to, documentation of work
56 experience, internships, community service, and postsecondary

63 graduation requirements, including the number of course credits
64 prescribed by rules of the State Board of Education.

73 compliance with the requirements of the federal Fair Labor
74 Standards Act.

75 d. Documented mastery of the academic and employment
76 competencies, industry certifications, and occupational
77 completion points specified in the student's transition plan.

80 and signed by the student, parent, teacher, and employer before

109 services, or related services through 21 years of age may
110 continue to receive the specified instruction and services.

111 (e) Any waiver of the statewide, standardized assessment
112 requirements by the individual education plan team, pursuant to
113 s. 1008.22(3)(d), must be approved by the parent and is subject
