

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Regulated Industries

BILL: SB 676

INTRODUCER: Senator Bradley

SUBJECT: Food Delivery Platforms

DATE: January 19, 2024

REVISED: _____

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	<u>Oxamendi</u>	<u>Imhof</u>	<u>RI</u>	<u>Pre-meeting</u>
2.	_____	_____	<u>AEG</u>	_____
3.	_____	_____	<u>FP</u>	_____

I. Summary:

The bill creates s. 509.103, F.S., to regulate food delivery platforms. The bill defines the term “food delivery platform” to mean a business that acts as a third-party intermediary for the consumer by taking and arranging for the delivery or pickup of orders from multiple food service establishments. The bill does not apply to delivery or pickup orders placed directly with, and fulfilled by, a food service establishment. The bill defines the term “food service establishment” to have the same meaning as the term “public food service establishment” as defined in s. 509.013(5), F.S.

The bill prohibits a food delivery platform from taking and arranging for the delivery or pickup of orders from a food service establishment without the express consent of that food service establishment. The food service establishment’s consent must be in either a written or electronic format.

Under the bill, a food delivery platform must itemize and clearly disclose to the consumer the cost breakdown of each transaction. The food delivery platform must provide the consumer with information about the delivery, including the anticipated date and time of the delivery of the order.

By July 1, 2025, the bill requires a food delivery platform to provide a food service establishment with a method of contacting the consumer while the order is prepared and being delivered for up to 2 hours after the order is picked up from the food service establishment for delivery to the consumer and a method for responding to a consumer’s ratings or reviews.

The bill requires a food delivery platform to remove a food service establishment’s listing on the food delivery platform within 10 days after receiving the food service establishment’s request for removal, unless there is an existing agreement between the two parties stating otherwise as provided in the bill.

Under the bill, a food delivery platform may not, without an agreement with the food service establishment, intentionally inflate, decrease, or alter a food service establishment's pricing.

The bill specifies the requirements for the agreement between a food delivery platform and a food service establishment, including clearly stating all fees, commissions, and charges that the food service establishment is expected to pay or absorb, policies related to alcoholic beverages, insurance requirements, the collection and remitting of taxes, and how disputes will be resolved.

The agreement between the food delivery platform and the food service establishment may not include a provision that requires a food service establishment to indemnify the food delivery platform, or any employee, contractor, or agent of the food delivery platform, for any damage or harm caused by the acts or omissions of the food delivery platform or any of its employees, contractors, or agents. A food delivery platform may also not unreasonably limit the value or number of transactions that may be disputed by a food service establishment with respect to orders, goods, or delivery errors for determining responsibility for errors and reconciling disputed transactions.

The bill expressly preempts the regulation of food delivery platforms to the state.

The bill takes effect upon becoming a law.

II. Present Situation:

Division of Hotels and Restaurants

The Division of Hotels and Restaurants (division) within the Department of Business and Professional Regulation (DBPR) is charged with enforcing the laws relating to the inspection and regulation of public food service establishments for the purpose of protecting the public health, safety, and welfare.¹

Public Food Service Establishments

A "public food service establishment" is defined as:²

...any building, vehicle, place, or structure, or any room or division in a building, vehicle, place, or structure where food is prepared, served, or sold for immediate consumption on or in the vicinity of the premises; called for or taken out by customers; or prepared prior to being delivered to another location for consumption.

There are several exclusions from the definition of public food service establishment, including:³

- Any place maintained and operated by a public or private school, college, or university for the use of students and faculty or temporarily to serve events such as fairs, carnivals, and athletic contests;

¹ Section 509.032, F.S.

² Section 509.013(5)(a), F.S.

³ Section 509.013(5)(b), F.S.

- Any eating place maintained and operated by a church or a religious, nonprofit fraternal, or nonprofit civic organization for the use of members and associates or temporarily to serve events such as fairs, carnivals, or athletic contests;
- Any eating place located on an airplane, train, bus, or watercraft which is a common carrier;
- Any eating place maintained by a facility certified or licensed and regulated by the Agency for Health Care Administration or the Department of Children and Families;
- Any place of business issued a permit or inspected by the Department of Agriculture and Consumer Services under s. 500.12, F.S.;
- Any vending machine that dispenses any food or beverage other than potentially hazardous food;
- Any place of business serving only ice, beverages, popcorn, and prepackaged items; and
- Any research and development test kitchen limited to use by employees and not open to the general public.

The regulation of public food service establishments is preempted to the state.⁴

Off-premises Options for Public Food Establishments

Due to the loss of business during the coronavirus pandemic, many public food establishments added new off-premises food options. The most common addition was curbside takeout by 67 percent of operators nationwide according to the National Restaurant Association.⁵ Twenty-seven percent of the operators added food delivery by third party food delivery platforms and an additional 17 percent added in-house delivery options.⁶ Food delivery platforms are third-party ordering apps that pick up and deliver food from public food service establishments for a fee.⁷

Regulation of Food Delivery Platforms

Food delivery platforms, which are third-party providers who, for a fee, deliver food orders from public food service establishments to the consumer are not regulated by the State of Florida.

United State Food and Drug Administration (FDA), in coordination with the U.S. Department of Agriculture and the Centers for Disease Control and Prevention, have developed best practices recommendations for the safe delivery of food, including when ordering food from online retailers, produce and meal-kit subscription services, ghost kitchens (which only prepare and fulfill orders for delivery, without a physical storefront), and third-party delivery services and programs.⁸

A proposed ordinance in Miami-Dade County would regulate food delivery platforms.⁹ The proposed ordinance would require the food delivery service to itemize and clearly disclose the cost breakdown of each transaction. The proposed ordinance would permit public food service establishments to access the information about the customers who place orders for their food through a third-party food delivery application, including the consumer's name and address. It also would bar the food delivery service prohibiting a food delivery platform from restricting a public food service establishment from marketing to or contacting a customer under certain circumstances. This appears to be the first local ordinance of its kind in the United States.¹⁰ However, the Board of County Commissioners has deferred action on this proposed ordinance.¹¹

III. Effect of Proposed Changes:

The bill creates s. 509.103, F.S., to regulate food delivery platforms.

The bill defines the term “food delivery platform” to mean a business that acts as a third-party intermediary for the consumer by taking and arranging for the delivery or pickup of orders from multiple food service establishments. The bill exempts the following types of activities from the term:

- Delivery or pickup orders placed directly with, and fulfilled by, a food service establishment.
- Websites, mobile applications, or other electronic services that do not post food service establishment menus, logos, or pricing information on their platforms.

The bill defines the term “food service establishment” to have the same meaning as the term “public food service establishment” as defined in s. 509.013(5), F.S. It also defines the term “purchase price” to mean the price, as listed on the menu, for the items in a consumer's order. The term does not include fees, tips or gratuities, and taxes.

The bill prohibits a food delivery platform from taking and arranging for the delivery or pickup of orders from a food service establishment without the express consent of that food service establishment. The food service establishment's consent must be in either a written or electronic format.

Under the bill, a food delivery platform must itemize and clearly disclose to the consumer the cost breakdown of each transaction, including, but not limited to, the following information:

- The purchase price of the food and beverage.
- Any commission, delivery fee, or promotional fee charged to the consumer by the food delivery platform.
- Any tip or gratuity.

¹¹ See Miami-Dade Legislative Item File Number: 231055, at: <https://www.miamidade.gov/govaction/matter.asp?matter=231055&file=true&fileAnalysis=false&yearFolder=Y2023> (last visited Jan. 14, 2024).

- Any taxes due on the transaction.

In addition, a food delivery platform must clearly provide to the consumer:

- The anticipated date and time of the delivery of the order.
- The delivery address.
- Confirmation that the order has been successfully delivered or completed.
- A mechanism for the consumer to express order concerns directly to the food delivery platform.

By July 1, 2025, the bill requires a food delivery platform to provide a food service establishment with:

- A method of contacting the consumer while the order is prepared and being delivered for up to 2 hours after the order is picked up from the food service establishment for delivery to the consumer.
- A method for responding a consumer's ratings or reviews.

The bill requires a food delivery platform to remove a food service establishment's listing on the food delivery platform within 10 days after receiving the food service establishment's request for removal, unless there is an existing agreement between the two parties stating otherwise as provided in the bill.

Under the bill, a food delivery platform may not, without an agreement with the food service establishment, intentionally inflate, decrease, or alter a food service establishment's pricing.

The bill requires that the agreement between a food delivery platform and a food service establishment:

- Clearly state all fees, commissions, and charges that the food service establishment is expected to pay or absorb.
- Clearly state the policies of the food delivery platform, including, but not limited to, policies related to alcoholic beverages, marketing, menus and pricing, payment, and prohibited conduct.
- Include the insurance requirements for delivery partners of the food delivery platform and identify the party responsible for the cost of such insurance.
- Identify the party responsible for collecting and remitting applicable sales taxes.
- Clearly disclose policies regarding disputed transactions and the procedure for resolving those disputes.

The agreement between the food delivery platform and the food service establishment may not include a provision that requires a food service establishment to indemnify the food delivery platform, or any employee, contractor, or agent of the food delivery platform, for any damage or harm caused by the acts or omissions of the food delivery platform or any of its employees, contractors, or agents.

A food delivery platform may also not unreasonably limit the value or number of transactions that may be disputed by a food service establishment with respect to orders, goods, or delivery errors for determining responsibility for errors and reconciling disputed transactions.

The bill expressly preempts the regulation of food delivery platforms to the state.

The bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Food delivery platforms may incur costs associated with the requirements of this bill.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 509.103 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.
