391	combined reporting method" means a method used to determine the
392	taxable business profits of a group of entities conducting a
393	unitary business. Under this method, the net income of the
394	entities must be added together, along with the additions and
395	subtractions under s. 220.13, and apportioned to this state as a
396	single taxpayer under ss. 220.15 and 220.151. However, each
397	special industry member included in a unitary combined group
398	return, which would otherwise be permitted to use a special
399	method of apportionment under s. 220.151, shall convert its
400	single-factor apportionment to a three-factor apportionment of
401	property, payroll, and sales. The special industry member shall
402	calculate the denominator of its property, payroll, and sales
403	factors in the same manner as those denominators are calculated
404	by members that are not special industry members. The numerator
405	of its sales, property, and payroll factors is the product of
406	the denominator of each factor multiplied by the premiums or
407	revenue-miles-factor ratio otherwise applicable under s.

Amendment No.

409	(2) All members of a unitary combined group must use the
410	unitary combined reporting method, under which:
411	(a) Adjusted federal income, for purposes of s. 220.12,
412	means the sum of adjusted federal income of all members of the
413	unitary combined group as determined for a concurrent taxable
414	year.
415	(b) The numerators and denominators of the apportionment
416	factors must be calculated for all members of the unitary
417	combined group combined.
418	(c) Intercompany sales transactions between members of the
419	unitary combined group are not included in the numerator or
420	denominator of the sales factor under ss. 220.15 and 220.151,
421	regardless of whether indicia of a sale exist.
422	(d) For sales of intangibles, including, but not limited
423	to, accounts receivable, notes, bonds, and stock, which are made
424	to entities outside the group, only the net proceeds are
425	included in the numerator and denominator of the sales factor.
426	
427	As used in this subsection, the term "sale" includes, but is not
428	limited to, loans, payments for the use of intangibles,
429	dividends, and management fees.
430	(3)(a) If a parent corporation is a member of the unitary
431	combined group and has nexus with this state, a single unitary
432	combined group return must be filed in the name and under the
433	federal employer identification number of the parent

434	corporation. If the unitary combined group does not have a
435	parent corporation, if the parent corporation is not a member of
436	the unitary combined group, or if the parent corporation does
437	not have nexus with this state, the members of the unitary
438	combined group must choose a member subject to the tax imposed
439	by this chapter to file the return. The members of the unitary
440	combined group may not choose another member to file a corporate
441	income tax return in subsequent years unless the filing member
442	does not maintain nexus with this state or does not remain a
443	member of the unitary combined group. The return must be signed
444	by an authorized officer of the filing member as the agent for
445	the unitary combined group.
446	(b) If members of a unitary combined group have different
447	taxable years, the taxable year of a majority of the members of
448	the unitary combined group is the taxable year of the unitary
449	combined group. If the taxable years of a majority of the
450	members of a unitary combined group do not correspond, the
451	taxable year of the member that must file the return for the
452	unitary combined group is the taxable year of the unitary
453	combined group.
454	(c)1. A member of a unitary combined group having a
455	taxable year that does not correspond to the taxable year of the
456	unitary combined group shall determine its income for inclusion
457	on the tax return for the unitary combined group. The member
458	shall use:

459	a. The precise amount of taxable income received during
460	the months corresponding to the taxable year of the unitary
461	combined group, if the precise amount can be readily determined
462	from the member's books and records.
463	b. The taxable income of the member converted to conform
464	to the taxable year of the unitary combined group on the basis
465	of the number of months falling within the taxable year of the
466	unitary combined group. For example, if the taxable year of the
467	unitary combined group is a calendar year and a member operates
468	on a fiscal year ending on April 30, the income of the member
469	must include 8/12 of the income from the current taxable year
470	and 4/12 of the income from the preceding taxable year. This
471	method to determine the income of a member may be used only if
472	the return can be timely filed after the end of the taxable year
473	of the unitary combined group.
474	c. The taxable income of the member during its taxable
475	year that ends within the taxable year of the unitary combined
476	group.
477	2. The method of determining the income of a member of a
478	unitary combined group whose taxable year does not correspond to
479	the taxable year of the unitary combined group may not change as
480	long as the member remains a member of the unitary combined
481	group. The apportionment factors for the member must be applied
482	to the income of the member for the taxable year of the unitary
483	combined group.
