The exact components of the 664 physical examination shall be left to the judgment of the 665 registrant who is expected to perform a physical examination 666 proportionate to the diagnosis that justifies a treatment. The treatment plan shall state 682 objectives that will be used to determine treatment success, 683 such as pain relief and improved physical and psychosocial 684 function, and shall indicate if any further diagnostic 685 evaluations or other treatments are planned. After treatment 686 begins, the registrant shall adjust drug therapy to the individual medical needs of each patient. Other treatment 687 688 modalities, including a rehabilitation program, shall be 689 considered depending on the etiology of the pain and the extent 690 to which the pain is associated with physical and psychosocial 691 impairment. The interdisciplinary nature of the treatment plan 692 shall be documented.

693 (c) The registrant shall discuss the risks and benefits of 694 the use of controlled substances, including the risks of abuse 695 and addiction, as well as physical dependence and its 696 consequences, with the patient, persons designated by the patient, or the patient's surrogate or guardian if the patient 697 698 is incompetent. 710 (d) The patient shall be seen by the registrant at regular 711 intervals, not to exceed 3 months, to assess the efficacy of 712 treatment, ensure that controlled substance therapy remains 713 indicated, evaluate the patient's progress toward treatment 714 objectives, consider adverse drug effects, and review the 715 etiology of the pain. Continuation or modification of therapy 716 shall depend on the registrant's evaluation of the patient's 717 progress. If treatment goals are not being achieved, despite 718 medication adjustments, the registrant shall reevaluate the 719 appropriateness of continued treatment. The registrant shall 720 monitor patient compliance in medication usage, related 721 treatment plans, controlled substance agreements, and 722 indications of substance abuse or diversion at a minimum of 3-723 month intervals.

724 (e) The registrant shall refer the patient as necessary for 725 additional evaluation and treatment in order to achieve 726 treatment objectives. Special attention shall be given to those 727 patients who are at risk for misusing their medications and 728 those whose living arrangements pose a risk for medication 729 misuse or diversion. The management of pain in patients with a 730 history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation and 7.31 732 requires consultation with or referral to an addiction medicine 733 specialist or a psychiatrist.
