### AND ENFORCEMENT

- (1) OVERSIGHT.-
- (a) The executive, legislative, and judicial branches of state government in each member state shall enforce the compact and take all actions necessary and appropriate to carry out the compact's purposes and intent. The provisions of the compact and the rules adopted pursuant thereto shall have standing as statutory law.
- (b) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact which may affect the powers, responsibilities, or actions of the commission.
- (c) The commission is entitled to receive service of process in any such proceeding and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or an order void as to the commission, the compact, or the adopted rules.
  - (2) DEFAULT, TECHNICAL ASSISTANCE, AND TERMINATION.-
- (a) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the compact or the adopted rules, the

- 1. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, and any other action to be taken by the commission.
- 2. Provide remedial training and specific technical assistance regarding the default.
- (b) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by the compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.
- (c) Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. The commission shall give notice of intent to suspend or terminate a defaulting member state to the governor and majority and minority leaders of the defaulting state's legislature and to each of the member states.
- (d) A state that has been terminated from the compact is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.
- (e) The commission does not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

# CONSTRUCTION AND SEVERABILITY

The compact must be liberally construed so as to carry out the purposes thereof. The provisions of the compact are severable, and if any phrase, clause, sentence, or provision of the compact is declared to be contrary to the constitution of any party member state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of the compact and the applicability thereof to any government, agency, person, or circumstance is not affected thereby. If the compact is held contrary to the constitution of any party member state, the compact remains in full force and effect as to the remaining party member states and in full force and effect as to the party member state affected as to all severable matters.
