[Health Care Budget](#)

14 Y, 0 N, As CS

[Health & Human Services](#)

SUMMARY

Effect of the Bill:

Behavioral health managing entities (MEs) are contracted by the Department of Children and Families (DCF) to provide safety-net mental health and substance use disorder services for individuals who are uninsured or underinsured. In FY 2022-23, the safety-net behavioral health system served 243,403 individuals with \$1.083 billion in funding allocated to managing entities.

HB 633 requires MEs to submit data and information to DCF in a specific electronic format to ensure interoperability and allow for analysis. DCF must conduct operational and financial audits addressing specific topics for each ME contract, and prepare and submit a report of findings to the Governor and Legislature by December 1, 2025. HB 633 also specifies performance measures for client outcomes that MEs must track and submit to DCF.

Fiscal or Economic Impact:

The bill will have a significant, negative, recurring and non-recurring fiscal impact on the Department of Children and Families.

Contingent upon the bill's passage, anticipated fiscal impacts incurred by DCF as a result of implementing the bill will be addressed through the appropriations process and reflected in the General Appropriations Act.

[JUMP TO](#)

[SUMMARY](#)

[ANALYSIS](#)

[RELEVANT INFORMATION](#)

[BILL HISTORY](#)

ANALYSIS

EFFECT OF THE BILL:

Behavioral health managing entities (MEs) are contracted by the Department of Children and Families (DCF) to plan, subcontract for, and coordinate safety-net mental health and substance use disorder services for individuals who are uninsured or underinsured. There are seven (7) managing entities, which together serve the entire state. MEs subcontract with community providers, which serve clients directly.

ME Submission of Data and Information to DCF

MEs provide data and information to facilitate DCF oversight of ME services. By contract, MEs currently must submit this data and information electronically to DCF. HB 633 additionally specifies electronic reporting formats and processes for this data and information to ensure interoperability and analysis, as follows:

- For information:
 - Use of a standardized format for electronic data interchange that is used for health care claims processing.
 - Information organized into discrete, machine-readable data elements that allow for efficient processing and integration with other datasets.

STORAGE NAME: h0633c.HCB

DATE: 4/1/2025

- Data fields compliant with department-established protocols.
- Compatibility with automated systems to enable the downloading, parsing, and combining of data with other sources for analysis.
- Required validation checks to confirm adherence to the required data structure and format before acceptance.
- For data:
 - A format that allows for accurate text recognition and data extraction, as specified by DCF, which may include, Portable Document Format or machine-readable text files.
 - Accompanying metadata containing key information, such as a descriptive and unique name for the document, the date the document is uploaded, a predefined classification indicating the nature or category of the document; any relevant identifiers, such as application numbers, case numbers, or tracking codes, as specified by DCF; and the name, contact information, and any other required identification number, such as a contract, license or registration number of the person or organization submitting the document. (Section [1](#))

The bill does not specify any actions that DCF is to take using the data and information in this new electronic format.

DCF-Contracted Audits of MEs

HB 633 requires DCF to contract biennially for operational and financial audits of each of the seven MEs, including:

- Business practices, personnel, financial records, related parties, compensation, and other areas as determined by DCF.
- Services administered, the method of provider payment, expenditures, outcomes, and other information as determined by DCF.
- Referral patterns, including referral volume, referral assignments, services referred, length of time to obtain services, and key referral performance measures.
- Adequacy and participation in DCF's available bed platform, the Opioid Data Management System, and other DCF-required provider data submissions.
- Expenditures and claims, at a minimum, comparing services administered, outcomes, and Medicaid expenditures for behavioral health services for each ME and analyzing services funded by MEs rendered to individuals who are Medicaid beneficiaries to, at a minimum, assess the extent to which MEs are funding services that are also available as covered services under the Medicaid program.

DCF must prepare and submit a report on the findings to the Governor, President of the Senate, and Speaker of the House of Representatives by December 1, 2025. (Section [1](#))

Required ME Performance Measures

HB 633 requires MEs to submit specific performance measures to DCF regarding individual outcomes and system functioning. None are current performance measures, though similar measures to those in the bill on access timeframes are in new ME contracts that begin July 1, 2025, and some others in the bill are tracked and reported to DCF, though not as performance measures.¹

HB 633 requires the measures to include data from individuals served by the ME, for only services funded by the ME, to the extent feasible and appropriate. The performance measures must be reported and posted stratified by, at a minimum, whether the individual is a child or an adult and whether the individual is a Medicaid recipient. Such measures must include, at a minimum, all of the following:

- The number and percentage of high utilizers of crisis behavioral health services.

¹ DCF, Agency Analysis of HB 633, p. 6 (March 7, 2025), on file with the House Health Services Subcommittee.

- The number and percentage of individuals referred to outpatient behavioral health services after discharge from mental receiving or treatment facilities or emergency departments or inpatient or residential licensed service components who begin receiving services within 7 days after discharge.
- The average wait time for initial appointments for behavioral health services, by type of service.
- The number and percentage of individuals with significant behavioral health symptoms seeking urgent but non-crisis acute care who are scheduled to be seen within one business day of initial contact with a provider.
- The number and percentage of emergency department visits per capita for behavioral health-related issues.
- The incidence of medication errors.
- The number and percentage of adverse incidents, including but not limited to, self-harm, occurring during inpatient and outpatient behavioral health services.
- The number and percentage of individuals with co-occurring conditions who receive integrated care.
- The number and percentage of individuals discharged from receiving or treatment facilities or inpatient or residential licensed service components who successfully transition to ongoing services at the appropriate level of care.
- The rate of readmissions to emergency departments due to behavioral health issues or to crisis stabilization units, addictions receiving facilities, or other inpatient levels of care within 30 days after discharge from inpatient or outpatient behavioral health services.
- The average length of stay for inpatient behavioral health services.

The bill requires MEs to report each measure using a standard methodology as determined by DCF. The bill also requires DCF to establish a deadline for MEs to submit the required data and to post the performance measures on the agency's website by the 22nd day of each month. The measures must reflect performance for the previous calendar month, including year-to-date totals, and annual performance trends. (Section [1](#))

DCF will need to amend the ME contracts and procure a vendor to assist with a redesign of its business processes. DCF estimates that the estimated time to complete all these activities is 18 to 24 months.²

The bill provides an effective date of July, 1, 2025. (Section [2](#))

RULEMAKING:

The bill will require DCF to revise certain administrative rules in Chapter 65E-14, F.A.C., the Office of Substance Abuse and Mental Health Financial Rule. DCF will need to update over 20 administrative rules in total.³ The department has sufficient rulemaking authority to implement the bill.

Lawmaking is a legislative power; however, the Legislature may delegate a portion of such power to executive branch agencies to create rules that have the force of law. To exercise this delegated power, an agency must have a grant of rulemaking authority and a law to implement.

FISCAL OR ECONOMIC IMPACT:

STATE GOVERNMENT:

DCF indicates that the department will need:

- *Data System Updates:* \$6.92 million non-recurring to replace DCF's current data system, the Financial and Services Accountability Management System, and meet all new data system requirements, and \$3.9 million recurring. The non-recurring cost includes:

² *Id.* at 5.

³ *Id.*

- IT Contractors: data architects, developers, analysts, report developers) - \$120/hour * 2,000 hours each = \$240,000 per FTE--\$1,920,000
- Cloud Infrastructure & Security: Hosting, cloud storage, cybersecurity measures)--\$800,000
- Business Advisory & Project Management: Oversight, requirement gathering, stakeholder engagement, risk management--\$1,500,000
- Training, OCM for MEs: Training managing entities on new processes, data formats, portal usage--\$700,000
- Upgrading ME Systems: Grants or funding assistance to help MEs modernize/replace legacy systems to ensure interoperability--\$1,000,000
- Additional Software, licensing: Integration with new portal, back-end application programming interfaces, data ingestion, and partner credentialing--\$1,000,000
- *Auditing services:* \$3 million to procure auditing services for the operational and financial audits of the seven ME contracts.⁴

However, it is unclear that a new data system is needed in order to implement the provisions of bill, as the department currently receives and processes data from the Managing Entities for individuals served.

The only provision of the bill that would require a change to current business operations is the requirement of the department to contract for biennial operational and financial audits of the seven Managing Entities. This results in a fiscal impact of \$3,000,000.

Contingent upon the bill's passage, anticipated fiscal impacts incurred by DCF as a result of implementing the bill will be addressed through the appropriations process and reflected in the General Appropriations Act.

PRIVATE SECTOR:

MEs may experience a fiscal impact to upgrade systems and processes to collect and report required data and information. This amount is indeterminate.

RELEVANT INFORMATION

SUBJECT OVERVIEW:

Behavioral Health

Mental illness affects millions of people in the U.S. each year. It is estimated that more than one in five adults live with a mental illness.⁵ In 2023, approximately 22.8 percent of adults experienced mental illness.⁶

Approximately, 48.5 million people in the U.S. aged 12 and older had a substance use disorder in 2023.⁷ The most common substance use disorders in the U.S. are from the use of alcohol, tobacco, cannabis, stimulants, hallucinogens, and opioids.⁸

Several agencies provide publicly-funded behavioral health services in Florida. For example, agencies such as the Department of Education and the Department of Corrections provide behavioral health services ancillary to their broader missions of education, and incarceration and rehabilitation, respectively. The Agency for Health Care Administration provides behavioral health services as part of its primary charge to provide health care but restricts services to those individuals who are eligible based on factors such as income, age, and disability.

However, the Department of Children and Families (DCF), responsible for safety-net behavioral health services, serves all Floridians who are otherwise unable to obtain certain behavioral health services, based on priority populations and the limitations of available funding. DCF administers a statewide system of safety-net services for substance abuse and mental health (SAMH) prevention, treatment and recovery for children and adults meeting eligibility requirements based on the nature of illness and inability to pay.⁹ SAMH programs include a range of prevention, acute interventions (e.g. crisis stabilization), residential treatment, transitional housing, outpatient treatment, and recovery support services. Services are provided based upon state and federally-established priority populations. DCF provides these services primarily through behavioral health managing entities (MEs).¹⁰

Behavioral Health Managing Entities

In 2001, the Legislature authorized DCF to implement MEs as the management structure for the delivery of local mental health and substance use disorder services.¹¹ The implementation of the ME system initially began on a pilot basis and, in 2008, the Legislature authorized DCF to implement MEs statewide.¹² MEs were fully implemented statewide in 2013, serving all geographic regions.

DCF currently contracts with seven MEs for behavioral health services throughout the state. These contracts totaled \$1.083 billion¹³ in FY 2022-23, with \$919 million spent on direct services.¹⁴ MEs plan for and coordinate the delivery of community mental health and substance use disorder services, improve access to care, promote service continuity, purchase services, and support efficient and effective service delivery. MEs subcontract with community providers to serve clients directly; this allows services to be tailored to the specific behavioral health needs in the various regions of the state.¹⁵

In FY 2022-23, in the aggregate, DCF reported serving 243,403 unduplicated behavioral health clients¹⁶, including through the MEs. Client counts for individuals served through some ME specialty programs included:

- Mobile response teams (MRT): 28,394.¹⁷
- Care coordination: 4,701.¹⁸
- Family Intensive Teams (FIT): 1,581.¹⁹

DCF contracts specify ME responsibilities based on requirements in Florida law. For example, MEs are responsible for the system of care in their regions. MEs also must provide data and information to facilitate DCF oversight of ME services.

MEs are required to promote the development and implementation of a coordinated system of care.²⁰ A coordinated system of care means a full array of behavioral and related services in a region or community offered by all service providers, participating either under contract with a ME or by another method of community partnership or mutual agreement.²¹ A community or region provides a coordinated system of care for those with a mental illness or substance use disorder through a no-wrong-door model, to the extent allowed by available resources.

There are several essential elements which comprise a coordinated system of care, including:²²

- Community interventions;
- Case management;
- Care coordination;
- Outpatient services;
- Residential services;
- Hospital inpatient care;
- Aftercare and post-discharge services;
- Medication assisted treatment and medication management; and
- Recovery support.

A coordinated system of care must include, but is not limited to, the following array of services:²³

- Prevention services;
- Home-based services;
- School-based services;
- Family therapy;
- Family support;
- Respite services;
- Outpatient treatment;
- Crisis stabilization;
- Therapeutic foster care;
- Residential treatment;
- Inpatient hospitalization;
- Case management;
- Services for victims of sex offenses;
- Transitional services; and
- Trauma-informed services for children who have suffered sexual exploitation.

Oversight and Accountability

DCF collects a wide variety of data and information to assess the performance of the MEs, such as about persons served and their outcomes and costs of services provided through the contract.²⁴ One such document is a financial and compliance audit, which pursuant to the contract, the MEs must submit the earlier of 180 days after the end of the provider's fiscal year or 30 days after the ME's receipt of the audit report. MEs must submit these documents at

²⁴ Department of Children and Families, Managing Entities FY24-25 Templates, EXHIBIT C3 – ME Required Reports, Plans, and Functional Tasks, <https://www.myflfamilies.com/services/samh/providers/managing-entities/managing-entities-fy24-25-templates> (accessed March 31, 2025). Examples of required reports are the Network Service Provider Monitoring Plan, Managing Entity Monthly Expenditure Report, and the Monthly Data Submission to SAMH Data System.

specific points and intervals. DCF specifies that documents required under contract be submitted electronically to the DCF Contract Manager and also added to the MEs secure web-based document vault.²⁵

How DCF uses this data and information to assess and improve performance varies. For example, DCF negotiated the following performance standards for MEs in the current contracts:

- Monitoring of at least 20% of all network service providers each fiscal year.
- Ensuring 100% of the cumulative annual network service provider expenses comply with the federal block grant and maintenance of effort allocation standards.
- Achieving 95% of the annual target levels for each of the network service provider measures, measured across all ME providers, as listed below.²⁶

	Target Population and Measure Description ²⁷	Network Target	Minimum Acceptable ME Network Performance
Adult Community Mental Health			
MH003	Average annual days worked for pay for adults with severe and persistent mental illness	40	38
MH703	Percent of adults with serious mental illness who are competitively employed	24%	22.8%
MH742	Percent of adults with severe and persistent mental illnesses who live in stable housing environment	90%	85.5%
MH743	Percent of adults in forensic involvement who live in stable housing environment	67%	63.7%
MH744	Percent of adults in mental health crisis who live in stable housing environment	86%	81.7%
Adult Substance Abuse			
SA753	Percentage change in clients who are employed from admission to discharge	10%	9.5%
SA754	Percent change in the number of adults arrested 30 days prior to admission versus 30 days prior to discharge	15%	14.3%
SA755	Percent of adults who successfully complete substance abuse treatment services	51%	48.5%
SA756	Percent of adults with substance abuse who live in a stable housing environment at the time of discharge	94%	89.3%
Children's Mental Health			
MH012	Percent of school days seriously emotionally disturbed (SED) children attended	86%	81.7%
MH377	Percent of children with emotional disturbances (ED) who improve their level of functioning	64%	60.8%

²⁵ *Id.*

²⁶ Department of Children and Families, Managing Entities FY24-25 Templates, Exhibit E, <https://www.myflfamilies.com/services/samh/providers/managing-entities/managing-entities-fy24-25-templates> (accessed March 31, 2025).

²⁷ *Id.*

Target Population and Measure Description ²⁷		Network Target	Minimum Acceptable ME Network Performance
MH378	Percent of children with serious emotional disturbances (SED) who improve their level of functioning	65%	61.8%
MH778	Percent of children with emotional disturbance (ED) who live in a stable housing environment	95%	90.3%
MH779	Percent of children with serious emotional disturbance (SED) who live in a stable housing environment	93%	88.4%
MH780	Percent of children at risk of emotional disturbance (ED) who live in a stable housing environment	96%	91.2%
Children's Substance Abuse			
SA725	Percent of children who successfully complete substance abuse treatment services	48%	45.6%
SA751	Percent change in the number of children arrested 30 days prior to admission versus 30 days prior to discharge	20%	19.0%
SA752	Percent of children with substance abuse who live in a stable housing environment at the time of discharge	93%	88.4%

DCF has set additional performance measures for specific services, such as outcomes for participants in FIT and Community Action Treatment (CAT) teams.²⁸

If the ME fails to meet the contract requirements, the contract specifies that “corrective action may be required for noncompliance, nonperformance, or unacceptable performance under this contract. Financial consequences may be imposed for failure to implement or to make acceptable progress on such corrective action.”²⁹ The contract does not include specific dollar amounts for financial penalties.

All ME contracts expire on June 30, 2025. The contracts have been reprocured, and the same seven providers were awarded the new ME contracts.³⁰ DCF reports that the new contracts include additional performance measures and financial penalties, such as regarding timely access:

Measure Description	Minimum Acceptable ME Network Performance		
	Effective 7/1/2025	Effective 7/1/2027	Effective 7/1/2029
Appointments for urgent services (services needed to preclude a crisis) provided within 48 hours of a request.	70%	80%	90%
Appointments for rapid intervention for children, families, or individuals in distress or at risk for entry into foster care, justice systems or more intensive services within 72 hours from the date of a referral or request for assistance.	70%	80%	90%
Appointments for outpatient follow-up services provided within 7 days after discharge from an inpatient or residential setting.	70%	80%	90%

Measure Description	Minimum Acceptable ME Network Performance		
	Effective 7/1/2025	Effective 7/1/2027	Effective 7/1/2029

Appointments for initial assessment are provided within 14 days of a request for treatment.	70%	80%	90%
---	-----	-----	-----

DCF reports on ME performance specifically, and system performance more broadly, in three statutorily-required annual reports. These are the:

- [Comprehensive, Multi-Year Review of the Revenues, Expenditures, and Financial Positions of the Managing Entities Including a System of Care Analysis.](#)
- [Assessment of Behavioral Health Services, and](#)
- [Triennial Plan for the Delivery of Mental Health and Substance Abuse Services and updates.](#)

Performance Information Reported for Safety-Net Mental Health Services under Federal Block Grant Requirements

Under the federal Substance Abuse and Mental Health Services Administration’s requirements for the Community Mental Health Services Block Grant, which funds a portion of the safety-net mental health services administered by DCF, state mental health agencies like DCF compile and report annual data. Below are 2023 data reported by DCF compared to national data, for a subset of outcomes on which DCF reported, for individuals DCF served³¹:

Measure	Florida	U.S.
Percent of adults in labor force (employed)	41.9%	52.6%
Percent of children/families with improved social connectedness	87.7%	88.0%
Percent of adults with improved social connectedness	86.9%	76.5%
Percent of children/families reporting positively about general satisfaction with care	82.5%	87%
Percent of adults reporting positively about general satisfaction with care	83.7%	88.6%

³¹ Substance Abuse and Mental Health Services Administration, *Florida 2023 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System*, <https://www.samhsa.gov/data/report/2023-uniform-reporting-system-urs-table-florida> (accessed March 31, 2025).

RECENT LEGISLATION:

YEAR	BILL #	HOUSE SPONSOR(S)	SENATE SPONSOR	OTHER INFORMATION
2023	HB 1095	Smith, Barnaby	Rouson	Died in House
2022	SB 2526	Health – Senate Appropriations Committee		Passed (LOF 2022-150)

BILL HISTORY

COMMITTEE REFERENCE	ACTION	DATE	STAFF DIRECTOR/ POLICY CHIEF	ANALYSIS PREPARED BY
Human Services Subcommittee	17 Y, 0 N, As CS	3/18/2025	Mitz	Curry

THE CHANGES ADOPTED BY THE COMMITTEE:

The amendment:

- Requires DCF to contract biennially for operational and financial audits for each ME.
- Revises the information that must be analyzed during the audits to require an analysis to assess the extent to which MEs are funding services for Medicaid beneficiaries that are covered under the Medicaid program.
- Narrows the scope of documents that MEs must submit to DCF, requiring the submission of all documents that are required under contract for submission on a routine basis to be submitted to DCF.
- Revises the performance measures for client outcomes that MEs must track and submit to DCF to require MEs to submit specific measures for services funded by MEs regarding individual outcomes and functioning.
- Requires DCF to post the performance measures reported by the MEs to its website by the 15th of each month.
- Requires MEs to report the measures using the reporting methodology determined by DCF.

Health Care Budget Subcommittee	14 Y, 0 N, As CS	4/1/2025	Clark	Smith
---	------------------	----------	-------	-------

THE CHANGES ADOPTED BY THE COMMITTEE:

The amendments:

- Clarify that MEs do not pay Medicaid costs for services.
- Clarify key datapoints that must be reported related to services paid for by MEs.
- Clarify that monthly reporting by the MEs is to identify monthly, year-to-date, and annual performance trends.
- Change the due date of monthly reports submitted by the MEs from the 15th day to the 22nd day of each month.
- Specify that the bill shall be implemented to the extent of available appropriations contained in the General Appropriations Act for such purpose.

[Health & Human Services Committee](#)

THIS BILL ANALYSIS HAS BEEN UPDATED TO INCORPORATE ALL OF THE CHANGES DESCRIBED ABOVE.
